Confidentiality in International Commercial Arbitration Ileana M. Smeureanu, 2011-07-14 After neutrality and international enforcement the next most valued feature of international commercial arbitration is confidentiality For reasons easy to imagine businessmen do not want their trade secrets business plans strategies contracts financial results or any other types of business information to be publicly accessible as would commonly happen in court proceedings Yet the case law of arbitration shows that in practical terms confidentiality is not to be taken for granted in fact it has become one of the most undetermined matters in international arbitration Although the emperor of arbitration may have clothes as one scholar has quipped his raiments of secrecy can be torn with surprising ease This book deciphers the current degree of confidentiality in international commercial arbitration as reflected by the most important arbitration rules national laws other arbitration related enactments and practices of arbitral tribunals and domestic courts globally Drawing on this data and analysis the author then sets forth criteria to assess the breach of confidentiality in international arbitration and the proper rules for protecting or sanctioning such breaches What do we understand by confidentiality in arbitration What are its limitations Who is bound to observe it How can we quantify its breach In addressing these questions the book engages such issues as the following reasons for disclosure e g for the establishment of a defence for the enforcement of rights in the public interest or in the interests of justice disclosure by consent express or implied circumstances triggering statutory obligation of disclosure recent trends towards greater transparency in investor State arbitration court measures in support of arbitral confidentiality such as award of damages for breach of confidentiality and categories of persons bound by confidentiality including third parties such as witnesses and experts Structured along the main stages of the arbitral process the analysis covers the duty of confidentiality from the initiation of arbitral proceedings through their unfolding to the issuance of the award and after The scope of confidentiality is reviewed in the practice of arbitral tribunals and domestic courts and from the perspective of international arbitration institutions with detailed attention to various arbitration rules and numerous significant cases In its elucidation of the amount of confidentiality that veils each phase of the arbitral process and its ground breaking identification of patterns of disclosure this book is sure to raise awareness about the various facets and problems posed by confidentiality in arbitration Although its scholarly contribution to the law of international commercial arbitration cannot be gainsaid corporate counsel

worldwide will quickly prize its more practical value

Party-Appointed Arbitrators in International Commercial

Arbitration Alfonso Gómez-Acebo, 2016-04-26 The agreement of disputing parties to each make a unilateral appointment of an arbitrator is among the most distinctive features of arbitral practice A detailed examination long overdue of how this feature affects the actual process of arbitration is presented in this book The study includes a historical analysis of unilateral nominations a critical assessment of how the unilateral appointments system currently works and an empirical study of challenges of arbitrators The author's critical assessment addresses several issues including limits to the right of the parties to make unilateral appointments the principle of equality of the parties in the constitution of the arbitral tribunal arbitrators duty to be impartial and independent specific problems of bias in tribunals with party appointed members the question of whether a different standard of impartiality and independence in party appointed arbitrators makes any sense the presumption that party appointed arbitrators can do things that presiding arbitrators cannot and the question of whether it is worth keeping the system of unilateral appointments as the default method for the constitution of multiple member tribunals or keeping it at all The empirical study in which the author offers a comparative analysis of challenges of arbitrators taking into account the method of appointment of the arbitrator reveals interesting differences and coincidences between party appointed and non party appointed arbitrators The book ends with some suggestions on how the system of unilateral appointments could be improved namely in order to increase the trust of each party in the arbitrator appointed by the other party and to allow an accurate match between what arbitration end users may want from party appointed arbitrators and what they ultimately get For both its thorough and well informed analysis and its sound recommendations the book is sure to be welcomed by professionals in the arbitral community worldwide as well as by arbitration law academics

The Roles of Psychology in International

Arbitration Tony Cole, 2017-03-15 The system of international arbitration is built on private contractual relations yet has been endorsed by governments around the world as a fair and reliable alternative to litigation in State courts As a private process however its authority and legitimacy derive entirely from the views and actions of those involved in the arbitral process whether arbitrators counsel or parties It is though increasingly clear that psychological factors complicate and in some cases radically change every arbitral proceeding In this context psychological insights are crucial for understanding how international arbitration genuinely operates and whether the legal framework currently applied to it is well suited to achieving the aims of ensuring a fair and reliable dispute resolution procedure This is the first book to focus on this important issue the insights into international arbitration that can be gained from contemporary psychology With contributions from nineteen internationally known figures in their fields arbitrators mediators lawyers law professors psychology professors psychologists and drawing from a longer term project on the role of psychology in arbitration this ground breaking volume addresses a range of topics including the following the decision making processes of arbitrators the ability of arbitration to serve as a genuine dispute resolution mechanism the impact of particular procedures on the arbitral process bias self deception and vested interests in judgment and decision making the role of arbitrators in managing the arbitral process cultural differences in the evaluation of arguments psychological influences on witness testimony the impact of tribunal composition on arbitral decision making the influence of arbitration's professional context on arbitrators and legal counsel and methods for arbitrators and legal counsel to more effectively manage the arbitral process Informed by the behavioural insights in these essays counsel and arbitrators will be enabled to think critically about the underlying assumptions and the potential behavioural effects of a prospective arbitration while individuals researching arbitration will gain a greater understanding of the psychological context in which every arbitration occurs This book meets the increasingly recognized need for understanding the role of psychology in arbitral proceedings and forms an indispensable foundation for subsequent work in this area Its innovative and forward thinking analysis will be of immeasurable value to the international arbitration community as well as to institutions supporting arbitration and to academics in the field Pervasive Problems
