Cambridge History of American Foreign Relations: Volume 2, The American Search for Opportunity, 1865-1913

Bradford Perkins, Walter LaFeber, Warren I. Cohen, Akira Iriye, 1993 Between the American Civil War and the outbreak of world War I global history was transformed by two events the United States s rise to the status of a great world power indeed the world s greatest economic power and the eruption of nineteenth and twentieth century revolutions in Mexico China Russia Cuba the Philippines Hawaii Panama Nicaragua and elsewhere *The American Search for Opportunity* traces the U S foreign policy between 1865 and 1913 linking these two historic trends by noting how the United States usually thought of as antirevolutionary and embarked on a search for order during this era actually was a determinative force in helping to trigger these revolutions Walter LaFeber argues that industrialization fuelled centralisation Post Civil War America remained a vast unwieldy country of isolated parochial communities but the federal government and a new corporate capitalism now had the power to invade these areas and integrate them into an industrialization railway linked nation state The furious pace of economic growth in America attracted refugees from all parts of the world Professor LaFeber describes and influx of immigration so enormous that it led to America s first exclusionary immigration act In 1882 the United States passed legislation preventing all Chinese immigrant labour skilled and unskilled from entering the country for the next 10 years

American Politics and the African American Quest for Universal Freedom Hanes Walton, Robert C. Smith, 2015-10-16 This dynamic and comprehensive text from two nationally renowned scholars continues to demonstrate the profound influence African Americans have had and continue to have on American politics Through the use of two interrelated themes the idea of universal freedom and the concept of minority majority coalitions the text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes The authors show that through the quest for their own freedom in the United States African Americans have universalized and expanded the freedoms of all Americans **In Search of the Racial Frontier: African Americans in the American West 1528-1990** Quintard Taylor, 1999-05-17 An enthralling work that will be essential reading for years to come David

Nicholson Washington Post A landmark history of African Americans in the West In Search of the Racial Frontier rescues the collective American consciousness from thinking solely of European pioneers when considering the exploration settling and conquest of the territory west of the Mississippi From its surprising discussions of groups of African American wholly absorbed into Native American culture to illustrating how the largely forgotten role of blacks in the West helped contribute to everything from the Brown vs Board of Education desegregation ruling to the rise of the Black Panther Party Quintard Taylor fills a major void in American history and reminds us that the African American experience is unlimited by region or social status

Translating Myth Ben Pestell, Pietra Palazzolo, Leon Burnett, 2016-05-20 Ever since Odysseus heard tales of his own exploits being retold among strangers audiences and readers have been alive to the complications and questions arising from the translation of myth How are myths taken and carried over into new languages new civilizations or new media An international group of scholars is gathered in this volume to present diverse but connected case studies which address the artistic and political implications of the changing condition of myth this most primal and malleable of forms Translation is treated broadly to encompass not only literary translation but also the transfer of myth across cultures and epochs In an age when the spiritual world is in crisis Translating Myth constitutes a timely exploration of myth s endurance and represents a consolidation of the status of myth studies as a discipline in its own right

The American Alpine Journal, 1979 American Alpine Club, 1997-10-31 *Movie Time* James Combs, 2009-03-26 *Movie Time* is a study of temporal mythmaking in American popular movies The work is rooted in American pragmatic philosophy and contemporary traditions of inquiry in the social sciences and humanities It proceeds on the premise that social beings and social orders are interested in the mediation of time and attempt to make sense of their present world through the reconstruction of important pasts of interest in the present develop new presents with the help of popular expressions which define new situations and responses for a new time and foresee possible futures which impinge upon life in the here and now In particular the work focuses on the subsequent treatment of the American 1950 s in films set in that era beginning in the 1970 s and continuing with an effort to create a rough taxonomy of mythemes in such retrospective films and why it is that future times would find the Fifties to be so important that people wish to revisit it Too the mediation of time includes the development of a new present in this case the emergence of conservatism as a social force in the 1970 s and beyond The movies were an important form of expression in the dramatization of the conservative myth leading to the pervasion of conservative leaders and ideologies into the new century Finally the unrealized but imminent future of the country and world was increasingly on people s minds as both millennial hopes and fears and unanticipated threats began to emerge at century s end so movies which anticipated alternative futures appeared in response to that prospective interest It is hoped that this present inquiry will stimulate further work on the social relevance of popular expression and in particular the social mediation of time
