transformed by the growth and increasing prominence of the Ottoman Empire and the continued spread of Islam into East Africa He examines how several cities including Mecca and the vital Indian port of Surat grew and changed during these centuries when various powers interacted until famines and other disturbances upended the region in the seventeenth century Rather than proposing an artificial model of a dominant centre and its dominated peripheries Across the Green Sea reveals the complexity of a truly dynamic and polycentric system through the use of connected histories a method which he has pioneered *Journal of the Bombay Branch of the Royal Asiatic Society* ,1886 Objects of Translation Finbarr Barry Flood,2022-07-12 *Objects of Translation* offers a nuanced approach to the entanglements of medieval elites in the regions that today comprise Afghanistan Pakistan and north India The book which ranges in time from the early eighth to the early thirteenth centuries challenges existing narratives that cast the period as one of enduring hostility between monolithic Hindu and Muslim cultures These narratives of conflict have generally depended upon premodern texts for their understanding of the past By contrast this book considers the role of material culture and highlights how objects such as coins dress monuments paintings and sculptures mediated diverse modes of encounter during a critical but neglected period in South Asian history The book explores modes of circulation among them looting gifting and trade through which artisans and artifacts traveled remapping cultural boundaries usually imagined as stable and static It analyzes the relationship between mobility and practices of cultural translation and the role of both in the emergence of complex transcultural identities Among the subjects discussed are the rendering of Arabic sacred texts in Sanskrit on Indian coins the adoption of Turko Persian dress by Buddhist rulers the work of Indian stone masons in Afghanistan and the incorporation of carvings from Hindu and Jain temples in early Indian mosques *Objects of Translation* draws upon contemporary theories of cosmopolitanism and globalization to argue for radically new approaches to the cultural geography of premodern South Asia and the Islamic world The Cambridge Ancient History ,1982 *Library Catalog of the Metropolitan Museum of Art, New York* Metropolitan Museum of Art (New York, N.Y.).
