The Armed Nation The Brazilian Corporate Mystique:

The Armed Nation Robert Ames Hayes, 1989 Fear and Memory in the Brazilian Army and Society, 1889-1954 Shawn C. Smallman, 2003-04-03 For more than half a century the Brazilian army used fear and censorship to erase aspects of its history from public memory and to create its own political myths Although the military had remarkable success in promoting its version of events recent democratization has allowed scholars access to new materials with which to challenge the official story Drawing on oral histories secret police documents memoirs of dissident officers army records and other sources only recently made available Shawn Smallman crafts a compelling revisionist interpretation of Brazil's political history from 1889 to 1954 Smallman examines the topics the Brazilian military wished to obscure racial politics and terror campaigns institutional corruption and civil military alliances political torture and personal rivalries to understand the army's growing involvement in civilian affairs Among the myths he confronts are the military's idealized rendition of its racial policies and its portrayal of itself as above the corruption associated with politicians His account not only illuminates the origins of the military government's repressive and often brutal actions during the 1960s and 1970s but also carries implications for contemporary Brazil as the armed forces debate their role in a democratic country *For la Patria* Brian Loveman, 2004-09-08 Defending la patria or homeland is the historical mission claimed by Latin American armed forces *For la Patria* is a comprehensive narrative history of the military's political role in Latin America in national defense and security Latin American civil military relations and the role of the armed forces in politics like those of all modern nation states are framed by constitutional and legal norms specifying the formal relationships between the armed forces and the rest of society In actuality they are also the result of expectations attitudes values and practices evolved over centuries integral aspects of national political cultures Military institutions in each Latin American nation have resulted from that country's own blend of local and imported influences developing a distinctive pattern of civil military relations as defender of the fatherland and guarantor of security and order Written by Latin American specialist Brian Loveman *For la Patria* includes tables maps photographs and a glossary that will assist the student in better understanding the military's intervention in politics in Latin America This new text will give students a thorough and accessible history of Latin American armed forces and their actions in Latin American politics from colonial times to the present **Eroding Military Influence in Brazil** Wendy Hunter, 2000-11-09 Wendy Hunter explores civil military relations in Brazil following the transition to civilian leadership in 1985 She documents a marked and surprising decline in the political power of the armed forces even as they have remained involved in national policy making To account for the success of civilian politicians Hunter invokes rational choice theory in arguing that politicians will contest even powerful forces in order to gain widespread electoral support Many observers expected Brazil's fledgling democracy to remain under the firm direction of the military which had tightly controlled the transition from authoritarian to civilian rule Hunter carefully refutes this conventional wisdom by demonstrating the ability of

even a weak democratic regime to expand its autonomy relative to a once powerful military thanks to the electoral incentives that motivate civilian politicians Based on interviews with key participants and on extensive archival research Hunter's analysis of developments in Brazil suggests a more optimistic view of the future of civilian democratic rule in Latin America

Brazil Ronald M. Schneider, 2018-02-22 Myths and misconceptions about Brazil the world's fifth largest and most populous country are long standing Far from a sleeping giant Brazil is the southern hemisphere's most important country Entering its second decade of civilian constitutional government after a protracted period of military rule it has also recently achieved sustained economic growth Nevertheless the nation's population of 157 million is divided by huge inequities in income and education which are largely correlated with race and crime rates have spiraled as a result of conflicts over land and resources Ronald Schneider a close observer of Brazilian society and politics for many decades provides a comprehensive multidimensional portrait of this Latin America's most complex country He begins with an insightful description of its diverse regions and then analyzes the historical processes of Brazil's development from the European encounter in 1500 to independence in 1822 the middle class revolution in 1930 the military takeover in 1964 and the return to democracy after 1984 Schneider goes on to offer a detailed treatment of contemporary government and politics including the 1994 elections His closing chapters analyze the economy and society and explore Brazil's rich cultural heritage and assess Brazil's place in the international arena

A History of Brazil Joseph Smith, 2014-04-23 A clearly structured and well informed synthesis of developments and events in Brazilian history from the colonial period to the present this volume is aimed at non specialized readers and students seeking a straightforward introduction to this unique Latin American country Divided chronologically into five main historical periods Colonial Brazil Empire the First Republic the Estado Novo and events from 1964 to the present the book explores the politics economy society and diplomacy during each phase The emphasis on diplomacy is particularly original and adds an unusual dimension to the book

Race, State, and Armed Forces in Independence-Era Brazil Hendrik Kraay, 2004-08-01 Focusing on the military institutions army militia and National Guard of Bahia Brazil this book analyzes the region's transition from Portuguese colony to province of the Brazilian Empire It examines the social racial and cultural dimensions of post independence state building in one of the principal slave plantation regions of the Americas Contrary to those who stress the autonomy of the Brazilian state this book documents the close connections between the locally organized armed forces and society in the late colonial period Racially segregated and mirroring the class hierarchies of the larger society these military institutions were profoundly transformed by the war for independence in the early 1820s In its aftermath the new Brazilian state gradually built a national army breaking the local orientation of the Bahian regulars by the 1840s The National Guard locally oriented and democratic in its 1831 organization was turned into a state controlled corporation in the 1840s These developments deeply affected the lives of the men and women involved in the armed forces and a main aim of this book is to examine their participation in the complex and

convoluted process of state building The liberalism used to justify independence and the creation of an imperial state resonated among ordinary soldiers and officers as it provided an ideology and language with which to challenge important features of late colonial military organization such as racial segregation and corporal punishment Racial discrimination formally eliminated in the 1830s shaped racial politics in the military while the construction of a national army undermined the previously close connections of officers and soldiers to the mainstream of Bahian society State-Directed Development Atul Kohli,2004-08-30 Why have some developing country states been more successful at facilitating industrialization than others An answer to this question is developed by focusing both on patterns of state construction and intervention aimed at promoting industrialization Four countries are analyzed in detail South Korea Brazil India and Nigeria over the twentieth century The states in these countries varied from cohesive capitalist mainly in Korea through fragmented multiclass mainly in India to neo patrimonial mainly in Nigeria It is argued that cohesive capitalist states have been most effective at promoting industrialization and neo patrimonial states the least The performance of fragmented multiclass states falls somewhere in the middle After explaining in detail as to why this should be so the study traces the origins of these different state types historically emphasizing the role of different types of colonialisms in the process of state construction in the developing world

Soldiers of the Pátria Frank D. McCann,2004 This book provides an authoritative history of the Brazilian army from the army's overthrow of the monarchy in 1889 to its support of the coup that established Brazil's first civilian dictatorship in 1937 The period between these two events laid the political foundations of modern Brazil a period in which the army served as the core institution of an expanding and modernizing Brazilian state The book is based on detailed research in Brazilian British American and French archives and on numerous interviews with surviving military and civilian leaders It also makes extensive use of hitherto unused internal army documents as well as of private correspondence and diaries It is thus able to shed new light on the army's personnel and ethos on its ties with civilian elites on the consequences of military professionalization and on how the army reinvented itself after the collapse of its command structure in the crisis of 1930 a reinvention that allowed the army to become the backbone of the post 1937 dictatorship of Getulio Vargas *Envisioning Brazil* Marshall C. Eakin,Paulo Roberto de Almeida,2005-09-16 *Envisioning Brazil* is a comprehensive and sweeping assessment of Brazilian studies in the United States Focusing on synthesis and interpretation and assessing trends and perspectives this reference work provides an overview of the writings on Brazil by United States scholars since 1945 The Development of Brazilian Studies in the United States provides an overview of Brazilian Studies in North American universities Perspectives from the Disciplines surveys the various academic disciplines that cultivate Brazilian studies Portuguese language studies Brazilian literature art music history anthropology Amazonian ethnology economics politics and sociology Counterpoints Brazilian Studies in Britain and France places the contributions of U S scholars in an international perspective Bibliographic and Reference Sources offers a chronology of key publications an essay on the impact of the digital

age on Brazilian sources and a selective bibliography *Brazil Today* John J. Crocitti, Monique Vallance, 2011-12-12 For students business people government officials artists and tourists in short anyone traveling to or wishing to know more about contemporary Brazil this is an essential resource The two volume Brazil Today An Encyclopedia of Life in the Republic is an introductory work intended for those in search of basic information about Brazilian institutions businesses social issues and culture At the same time it is a work that reflects the nation's geographic demographic economic and cultural diversity The wide reaching encyclopedia offers an entry for each Brazilian state with information about the land climate economy and culture It also offers extensive coverage of the country's political parties and leaders its governmental and non governmental organizations and the environmental issues and social problems that shape Brazilian politics today In addition the work pays considerable attention to the economy and business through entries on industry agriculture commerce banking and economic policies Finally there are entries that illuminate various aspects of Brazil's culture including the nation's social movements religion education music cuisine and literature as well as personalities from sports and entertainment Ideas and Armaments David M. Schwam-Baird, 1997 In the short space of 20 years Brazil emerged from relative technological backwardness to become a major exporter of tanks rockets and aircraft This book examines the various ideologies strategies and conflicts of Brazil's military leaders of the period that lay behind this phenomenon Building upon two schools of thought this book explains the phenomenal emergence of the Brazilian arms industry The first school of thought attributes its success to the implementation of the National Security Doctrine by many of Brazil's leading officers The other attributes the success to the pursuit of the corporate interests of the military A discussion both of the articulated ideology found in the National Security Doctrine and the corporate ideology of the Brazilian military set against the development of governmental policy and factional in fighting among groups of officers will reveal that neither of these theories alone provide an adequate explanation A third element the corporate ideology of the civilian technicos must also be taken into account The Armed Forces and Democracy in Latin America John Samuel Fitch, 1998 The book tackles the subject of the military and politics in Latin America from a broad historical perspective drawing on literature in the field and other information based on personal interviews with officers **Air University Library Index to Military Periodicals**, 1990 **The Development of Brazil's Arms Exporting Industry and Its Roots in Geopolitical and National Security Doctrines** David Michael Schwam-Baird, 1993 *Policing Rio de Janeiro*, 1993-09 When in 1808 members of the Portuguese royal entourage arrived in Rio de Janeiro the capital of a colony most had previously known only through administrative reports and balance sheets they encountered a hostile and dangerous population that included a large number of African slaves One of the institutions they brought from Lisbon was the General Intendancy of Police which was the foundation on which the city's police institutions were built The government met the challenge of bringing the inhabitants of Rio de Janeiro under control with a repressive apparatus that grew along with the problem it was created to solve Policing Rio de Janeiro is a history of one of

the fundamental institutions of the modern world through which the power of the state intrudes on public space to control and direct behavior It is also a study of the way people resisted the repressive arm of the state including heretofore unreported cases of slave rebellion as well as forms of everyday resistance The author shows how the historical development of the police of Rio de Janeiro through a dialectic of repression and resistance was part of a more general transition from the traditional application of control through private hierarchies to the modern exercise of power through public institutions Using the rich records which include internal correspondence and official reports of the police system and its civilian counterparts the judicial and jail systems the author explores the point at which repression and resistance collided on the squares streets and back alleys of Brazil's capital city The resulting disturbances served as a catalyst for the formation of institutions and procedures that provided a veneer of modernity over traditional attitudes and relationships protecting and strengthening them In a conceptual context that includes the ideas of Foucault Weber and Gramsci the author goes beyond institutional history to examine the changing social conditions of Rio de Janeiro and the exercise of power by its elites

Latin American Military and Politics in the Twenty-first Century Dirk Kruijt, Kees Koonings, 2022-07-22 This volume offers a comparative analysis of the role of the military in Latin America in domestic politics and governance after 2000 Divided into four parts covering the entirety of Latin America the book argues that the Latin American military as semi autonomous political actors have not faded away since 2000 and may even have been making a comeback in various countries Each part outlines scenarios which effectively frame the various pathways taken to post military democratic society Part 1 critically examines textbook cases of political demilitarization in the Southern Cone Peru and Costa Rica Part 2 contrasts the role of the military in the post 2000 politics of two regional powers Brazil and Mexico Part 3 examines the political role of the military facing violent pluralism in Colombia and the Northern triangle of Central America Finally Part 4 identifies country cases in which the military have been instrumental in the rise sustenance and occasional demise of left wing revolutionary projects within Venezuela Cuba Nicaragua and Bolivia Latin American Military and Politics in the Twenty First Century will be of interest to scholars students and professionals in the fields of Latin American history international relations military studies and studies concerning democracy political violence and revolution in Latin America elsewhere

Bridling Dictators Graeme Gill, 2021-11-20 Galtieri Lukashenka and Putin are some of the dictators whose untrammelled personal power has been seen as typical of the dog eat dog nature of leadership in authoritarian political systems This book provides an innovative argument that rather than being characterised by permanent insecurity fear and arbitrariness the leadership of dictatorships is actually governed by a series of rules The rules are identified and their operation is shown in a range of different types of authoritarian regime The operation of the rules is explained in ten different countries across five different regime types the Soviet Union and China as communist single party regimes Argentina Brazil and Chile as military regimes electoral authoritarian Malaysia and Mexico personalist dictatorships in

Belarus and Russia and the Gulf monarchies Through close analysis of the way leadership functions in these different countries the book shows how the rules have worked in different institutional settings It also shows how the power distribution in authoritarian oligarchies is related to the rules The book transforms our understanding of how authoritarian systems work Luso-Braz. Rev ,1991 **Las sociedades del miedo. El legado de la guerra civil, la violencia y el terror en América latina** Kees Koonings,Dirk Kruijt,2002

This Enthralling World of E-book Books: A Detailed Guide Revealing the Advantages of E-book Books: A Realm of Ease and Versatility E-book books, with their inherent portability and ease of access, have freed readers from the constraints of hardcopy books. Done are the days of carrying bulky novels or carefully searching for specific titles in bookstores. E-book devices, stylish and portable, seamlessly store an extensive library of books, allowing readers to indulge in their preferred reads anytime, everywhere. Whether traveling on a bustling train, relaxing on a sunny beach, or simply cozying up in bed, E-book books provide an unparalleled level of ease. A Literary World Unfolded: Discovering the Vast Array of Kindle The Armed Nation The Brazilian Corporate Mystique The Armed Nation The Brazilian Corporate Mystique The E-book Shop, a virtual treasure trove of bookish gems, boasts an extensive collection of books spanning varied genres, catering to every readers taste and preference. From captivating fiction and mind-stimulating non-fiction to timeless classics and modern bestsellers, the Kindle Store offers an unparalleled abundance of titles to discover. Whether seeking escape through immersive tales of fantasy and adventure, delving into the depths of past narratives, or broadening ones understanding with insightful works of science and philosophical, the Kindle Store provides a gateway to a literary world brimming with limitless possibilities. A Game-changing Factor in the Bookish Scene: The Persistent Impact of Kindle Books The Armed Nation The Brazilian Corporate Mystique The advent of E-book books has undoubtedly reshaped the literary scene, introducing a model shift in the way books are released, distributed, and read. Traditional publication houses have embraced the digital revolution, adapting their approaches to accommodate the growing demand for e-books. This has led to a rise in the availability of E-book titles, ensuring that readers have access to a vast array of literary works at their fingertips. Moreover, Kindle books have democratized access to books, breaking down geographical barriers and providing readers worldwide with equal opportunities to engage with the written word. Irrespective of their place or socioeconomic background, individuals can now engross themselves in the intriguing world of literature, fostering a global community of readers. Conclusion: Embracing the E-book Experience The Armed Nation The Brazilian Corporate Mystique Kindle books The Armed Nation The Brazilian Corporate Mystique, with their inherent convenience, flexibility, and vast array of titles, have unquestionably transformed the way we experience literature. They offer readers the freedom to explore the boundless realm of written expression, anytime, anywhere. As we continue to travel the ever-evolving online scene, E-book books stand as testament to the lasting power of storytelling, ensuring that the joy of reading remains reachable to all.
