The Art Of Life:

The Art of Life John Kekes, 2018-08-06 That the art of life is creative imaginative and individual does not mean that it cannot be taught and learned or that individuals cannot improve their mastery of it Teaching it proceeds by way of exemplary lives and learning it consists in coming to appreciate what makes some lives exemplary That imitation here is impossible does not mean one cannot learn from examples The question is How can that be done reasonably how can decisions about how one should live escape being arbitrary if they are left to individual creativity and imagination and are not governed by rules that apply to everyone living in a particular context from The Art of Life The art of life according to John Kekes consists in living a life of personal and moral excellence This art requires continuous creative effort drawing on one's character circumstances experiences and ideals Since these conditions vary with times and places Kekes says there can be no single blueprint for the achievement of excellence We must do it ourselves but we can learn from those who have lived exemplary lives Reflecting on lives of integrity and honor Kekes formulates what we can learn from them and what we can do to adapt the ideals they represent to our personal circumstances Avoiding both the abstractness that characterizes much moral thought and the relativism that recognizes no rational or moral limits Kekes shows how serious philosophical thinking can be readable and helpful to those who struggle with the perennial problems of human existence **The Art of Life** Havelock Ellis, 1929

John Stuart Mill and the Art of Life Ben Eggleston, Dale E. Miller, David Weinstein, 2010-11-10 John Stuart Mill one of the most influential figures in moral and political philosophy saw the doctrines he advanced in Utilitarianism and On Liberty as parts of a larger system he called the Art of Life yet he said surprisingly little about it per se This volume offers original essays on this relatively untapped area of Mill scholarship written by specialists on Mill's practical philosophy

The Art of Life and Death Andrew Irving, 2017-09-15 The Art of Life and Death explores how the world appears to people who have an acute perspective on it those who are close to death Based on extensive ethnographic research Andrew Irving brings to life the lived experiences imaginative lifeworlds and existential concerns of persons confronting their own mortality and non being Encompassing twenty years of working alongside persons living with HIV AIDS in New York Irving documents the radical but often unspoken and unvoiced transformations in perception knowledge and understanding that people experience in the face of death By bringing an experience near ethnographic focus to the streams of inner dialogue imagination and aesthetic expression that are central to the experience of illness and everyday life this monograph offers a theoretical ethnographic and methodological contribution to the anthropology of time finitude and the human condition With relevance well beyond the disciplinary boundaries of anthropology this book ultimately highlights the challenge of capturing the inner experience of human suffering and hope that affect us all of the trauma of the threat of death and the surprise of continued life The art of life and death is unlike anything I have ever read in its combination of theoretical ambition and methodological innovation The book is the fruit of Irving's close collaboration with a remarkable group of men and women

diagnosed with AIDS at a time when there was little hope of surviving the disease With the help of their words and crucially their art Irving illuminates the complex inner life world created by the trauma of threatened death and the surprise of continued life Inner experience and the challenge of capturing it lie at the heart of this book Danilyn Rutherford author of *Laughing at Leviathan* The art of life and death is a monumental anthropological achievement Fusing long term fieldwork deeply sensitive observation and a refined sense the phenomenology of our deep existential fears of illness of death and the emotional quandaries of having survived a confrontation with mortality Andrew Irving demonstrates how imaginative ethnography can reveal to us the deep contours of human being The art of life and death is filled with gripping narratives not only of pain confusion but also of courage and resilience It is a theoretically informed text that will long remain open to the world Paul Stoller author of *Yaya's story* The art of life and death is a brilliantly engaging piece of work that invites us to rethink life itself and introduces new ways of carrying out anthropological research Through a compelling interweaving of ethnography and theory Irving takes us close to lives that have been lived under conditions of existential uncertainty and recovery This book goes beyond conventional anthropology to offer a thoroughly inspiring account from which we learn not only about what it means to live near death but how art and the senses are implicated in life It will endure as an outstanding example of how to do anthropology at its best Sarah Pink coauthor of *Uncertainty and possibility* In this imaginatively conceived book Andrew Irving asks compelling and daring questions on how to think of such categories as experience inner life or subjectivity in the face of imminent death He follows up with a very careful and caring ethnography of how art and life flow into each other Irving achieves perfect pitch in his writing A splendid achievement Veena Das author of *Affliction* Of the utmost importance a very worthwhile introduction to any medical anthropologist because it includes detailed ethnographic descriptions a variety of ethnographic methods and a range of key anthropological themes including a focus on embodied experiences social injustice and how individuals deal with death The narrative style of the book makes it easy to read and relate to This is a great feat given the complex and troubling themes discussed which lead one to question their very perception of life itself *Journal of the Anthropological Society of Oxford* Of interest to anyone looking to explore people's dynamic perceptive and reflective outlook on the world whether looking to the future contemplating death or simply being alive No curious anthropology student or for that matter person would be left un inspired or non transformed by this text and I implore as wide a readership as possible *Anthropology Aging* An exceptional achievement that gets under your skin from beginning to end Outstanding interweaving of theoretical critique and aspiration collaborative ethnography and methodological experimentation and innovation Inspiring essential reading for anyone interested in new ethnographic methods to more deeply access the complex inner dimensions of human experience *American Ethnologist* An excellent thought provoking book Brilliantly succeeding in drawing both a conceptual and empirical portrait of the patterns in which HIV as a socio historically traceable illness tends to articulate the life death dialectical relation on the discovery threshold of

embodied mortality Groundbreaking Mortality This beautifully written and constructed book weaves together sophisticated social theory philosophy art work and vivid biographical narratives to offer insights into how HIV AIDS patients have learned to live a meaningful existence in the pre and post antiretroviral eras while negotiating a terminal illness Basing his book on 20 years of work with adults living with HIV AIDS in New York visual anthropologist Irving has carried out a compelling anthropological study of the complex inner world of those who struggle cope fight and ultimately come to terms with their own impending deaths The author draws on philosophical writings and social theories to contextualize his results but is at his best when allowing his subjects to speak for themselves The evocative words of subjects like artist Albert Velasco provide fascinating insights into the ways that dying persons with HIV AIDS grapple with the mundane like keeping medical appointments as well as the profound reckoning with their own mortality and purpose An engaging read that will enrich upper level and graduate collections on death and dying ethnographic methods and HIV AIDS Highly recommended Choice
