

The Discovery Of Kentucky

John Filson

The Discovery Of Kentucky:

The Discovery, Settlement and Present State of Kentucke (1784) John Filson, 2017-09-13 Filson's seminal work on the early history of Kentucky including the first published account of the life and adventures of Daniel Boone. Filson's work was an unabashedly optimistic account of the western territory where Filson had acquired large land claims whose value he sought to enhance by the publication of this advertisement and incitement for further settlement. Scarcely two years after the violent and tragic British and Indian invasion of 1782, Filson portrayed Kentucky as a natural paradise where peace, plenty, and security reigned. Of some significance is Filson's recognition that the territory would be economically tied to the West and especially the river ports of Natchez and New Orleans rather than the Eastern seaboard. His reflections on the interests of the United States in acquiring and securing the western regions of North America predate the Louisiana Purchase by 18 years. The work and especially the narrative of Daniel Boone proved extremely popular and was frequently reprinted and translated into French and German. It proved to be the first in a long tradition of rousing Western adventures associated with the westward migration of the Americans. This edition includes the complete text of the first edition, some notes, a biographical sketch of John Filson, and a discussion of the editorial procedures. It also includes the Map of Kentucke published in 1784 along with the book.

The Discovery, Settlement and Present State of Kentucke: And an Essay Towards the Topography, and Natural History of That Important Country John Filson, 2011-06 John Filson's *The Discovery, Settlement and Present State of Kentucky And an Essay Towards the Topography and Natural History of that Important Country To Which is Added an Appendix Containing The Adventures of Col Daniel Boone*. One of the first settlers comprehending every important occurrence in the political history of that province, published in 1784 is the first descriptive account of Kentucky and the first narrative of Daniel Boone. The book was immensely popular and was translated into French and German numerous times, with a Paris edition appearing in 1785. Topics addressed include Kentucky's discovery and purchase as well as boundaries, topography, and terrain, climate, rivers, soil, inhabitants, rights of land, and trade. The 32-page Appendix outlining the Adventures of Col Daniel Boone, containing a narrative of the Wars of Kentucke, is the first known narrative of Daniel Boone, and the portion of the book believed to be most responsible for drawing so much attention to the work. The Appendix also contains The Minutes of the Piankashaw council held in 1784, An Account of the Indian Nations inhabiting within the Limits of the Thirteen United States, their Manners and Customs, and Reflections on their Origin, and The Stages and Distances between Philadelphia and the Falls of the Ohio, as well as other geographical topics. Included is a drawing of Daniel Boone and a Map of Kentucky which was drawn by Filson and was the best up to that time for the topography of Kentucky country. Paperback 1784 repr 2011 Illus Map Appendix 124 pp
