The Herdsmans:

The Herdsman's Song Jakob Niklas Ahlström, 1850 *The herdsman's song* Waldemar Thrane, 1850 **Hirten**
Frühlings Gesang. The Herdsman's Spring Song ... Swiss Air ... Words by W. Ball, the Swiss Melody
arranged&partly Composed with Symphonies&Accompaniments for the Harp or Piano Forte, by F. Stockhausen,
etc Franz Stockhausen, 1835 **The Herdsman's Book** Kenneth N. Russell, Stephen Williams, 1974 **The Herdsman's**
Mountain Home Franz Abt, 1856 **The Herdsman's Daughter** Bernard P. Chahilu, 1974 *Idylls* Theocritus, 2003
Eucritus and I and pretty Amyntas turned asideTo the farm of Phrasidamus where we sank downWith pleasure on deep piled
couches of sweet rushes And vine leaves freshly stripped from the bush The Greek poet Theocritus of Syracuse first half of
the third century BC was the inventor of bucolic poetry These vignettes of country life centred on competitions in song and
love are the foundational poems of the western pastoral tradition They were the principal model for Virgil in theEclogues and
their influence can be seen in the work of Petrarch and Milton Although it is the pastoral poems for which he is chiefly
famous Theocritus also wrote hymns to the gods brilliant mime depictions of everyday life short narrative epics epigrams and
encomia of the powerful Thegreat variety of his poems illustrates the rich and flourishing poetic culture of what was a golden
age for Greek poetry *Storied and Supernatural Places* Ülo Valk, Daniel Sävborg, 2018-05-09 This book addresses the
narrative construction of places the relationship between tradition communities and their environments the supernatural
dimensions of cultural landscapes and wilderness as they are manifested in European folklore and in early literary sources
such as the Old Norse sagas The first section Explorations in Place Lore discusses cursed and sacred places churches
graveyards haunted houses cemeteries grave mounds hill forts and other tradition dominants in the micro geography of the
Nordic and Baltic countries both retrospectively and from synchronous perspectives The supernaturalisation of places
appears as a socially embedded set of practices that involves storytelling and ritual behaviour Articles show how places
accumulate meanings as they are layered by stories and how this shared knowledge about environments can actualise in
personal experiences Articles in the second section Regional Variation Environment and Spatial Dimensions address ecotypes
milieu morphological adaptation in Nordic and Baltic Finnic folklores and the active role of tradition bearers in shaping
beliefs about nature as well as attitudes towards the environment The meaning of places and spatial distance as the marker
of otherness and sacrality in Old Norse sagas is also discussed here The third section of the book Traditions and Histories
Reconsidered addresses major developments within the European social histories and mentalities It scrutinizes the history of
folkloristics its geopolitical dimensions and its connection with nation building as well as looking at constructions of the
concepts Baltic Nordic and Celtic It also sheds light on the social base of folklore and examines vernacular views toward
legendry and the supernatural *The Shamanic Themes in Chechen Folktales* Michael Berman, 2009-03-26 All intellectuals
driven by nationalist sentiments directly or indirectly are always preoccupied with searching for the most ancient roots of

their budding nations in order to ground their compatriots in particular soil and to make them more indigenous Znamenski 2007 p 28 In Chechnya as in the neighbouring countries of Georgia and Armenia these roots lie in shamanism and the stories in this collection clearly show this to be the case The history of the Nokhchii the name the Chechens have given themselves and their land is filled with rich and colourful stories which have survived for thousands of years through oral traditions that have been passed down generation by generation through clan elders However legends have blended with actual events so that the true history is difficult to write The 1994 1996 war destroyed most of Chechnya's treasured archaeological and historical sites though fortunately ancient burial sites architectural monuments and several prehistoric cave petroglyphs still remain in the mountains These valuable relics coupled with the histories and stories of the elders provide the people with virtually the only remaining evidence of who their ancient ancestors were This book contains both the texts of some of the tales and commentaries on them focusing in particular on their shamanic elements Constructing Authors and Readers in the Appendices Vergiliana, Tibulliana, and Ovidiana Tristan E. Franklin, Laurel Fulkerson, 2020-08-27 The Augustan period in Rome was a golden age for poetry and also the age in which the cult of the author began in the west By examining some early poetic understandings of what it might have meant to be Vergil Ovid and Tibullus Constructing Authors and Readers in the Appendices Vergiliana Tibulliana and Ovidiana explores what those authors meant to near contemporaries and what the construction of authorship they were a part of meant to the later western tradition Constructing Authors and Readers in the Appendices Vergiliana Tibulliana and Ovidiana takes its starting point from the Appendices attached to three major Augustan poets exploring how their different conditions of production and the differences between their authorising authors result in different notions of what an appendical text ought to contain So for instance Vergil's biography leaves ample room for juvenilia while Ovid's does not the Tibullan appendix explicitly engages with a wider poetic community Moving beyond questions of forgery and deception some chapters ask how we would be able to know the difference between texts of genuine and of disputed authorship given that most of the stylistic features that distinguish authors are replicable Other chapters make the case for re-evaluation of poems that have been neglected or disparaged and still others make sense of individual works in their likely context of composition The volume is the first to treat in conjunction the majority of the appendical works ascribed to Vergil Ovid and Tibullus and to draw connections across corpora **The Histories** Herodotus, 2008-04-17 Herodotus is not only known as the father of history as Cicero called him but also the father of ethnography as well as charting the historical background to the Persian Wars his curiosity also prompts frequent digression on the cultures of the peoples he introduces While much of the information he gives has proved to be astonishingly accurate he also entertains us with delightful tales of one-eyed men and gold-digging ants This readable new translation is supplemented with expansive notes that provide readers the background that they need to appreciate the book in depth ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable

volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

One Who Loves Knowledge Betsy Bryan, Christina DiCerbo, Marina Escolano-Poveda, Mark Smith, Jill S. Waller, 2022-12-01 The thirty nine articles in this volume One Who Loves Knowledge have been contributed by colleagues students friends and family in honor of Richard Jasnow professor of Egyptology at Johns Hopkins University Despite his claiming to be just a demoticist Richard Jasnow's research interests and specialties are broad spanning religious and historical topics along with new editions of demotic texts including most particularly the Book of Thoth A number of the authors demonstrate their appreciation for Jasnow's contributions to the understanding of this difficult text The volume also includes other studies on literature Ptolemaic history and even the god Thoth himself and features detailed images and abundant hieroglyphic hieratic demotic Coptic and Greek texts

Sophocles: Oedipus the King, 2018-04-05 For centuries the myth of Oedipus the man who unwittingly killed his father and married his mother has exerted a powerful hold on the human imagination but no retelling of that myth has ever come close in passion drama and menace to the one that we find in Sophocles Oedipus the King This new full scale edition of that classic play the first in any language since 1883 offers a freshly constituted text based on consultation of manuscripts ancient and mediaeval The Introduction explores the play's dating and production its creative engagement with pre Sophoclean versions its major themes and its reception during antiquity The Commentary offers a detailed analysis line by line and scene by scene of the play's language staging and dramatic impact The translation incorporated into the commentary ensures that the book will be accessible to all readers interested in what is arguably the greatest Greek tragedy of all
