Skilful Means A Concept In Mahayana Buddhism:

Skilful Means Michael Pye, 2003-01-01 A journey through inhospitable landscapes proves to be challenging in the extreme While employed by the Cameroons Development Corporation CDC the author who finds herself drawn to hot arid and sandy places cherishes a seemingly impossible ambition to return to Europe via the Sahara when her contract ends As the fates would have it a Dutch journalist materializes one day in this small close knit Cameroons community Named Pete he has just traversed the Sahara in a southerly direction alone with a motor cycle with sidecar Serious planning began and an apparently suitable pick up truck became available in Douala Paul Tillich and Asian Religions Ka-fu Keith Chan, Yau-nang William Ng, 2017-08-21 This volume investigates Paul Tillich's relationship to Asian religions and locates Tillich in a global religious context It appreciates Tillich's heritage within the western and eastern religious contexts and explores the possibility of global religious cultural understanding through the dialogue of Tillich's thought and East West religious cultural matrix Transforming Buddhism Andre Van Der Braak, Paul Van Der Velde, Tristan Letzer, 2021-11-30 The world of Buddhism has always been a dynamic one There are endless developments and interactions as the dharma spread throughout Asia In more recent times Buddhism has even made a more global appeal dharma centers are everywhere nowadays Transforming Buddhism presents a number of case studies of a group of scholars who each of them focus on the ways how Buddhism transforms and is transformed both in the past and in modernity The book presents results of research performed in Asia for instance on women in the Buddhist monastic tradition of Thailand foreigners living in the harsh conditions of specific Thai Theravada monasteries and child monks in Tibet Other subjects are developments within Japanese Zen Buddhism in interaction with modern western philosophy and the Japanese Buddhism incited by K b Daishi 774 835 Next there is the inspiration for modernity that can be found in the works of the Korean monk Chinul 1158 1210 and themes in Buddhist life histories legendary historical and personal As such Transforming Buddhism gives a broad view on a number of transformations of the Buddhist dharma from various perspectives **A Chinese Paradigm of the Jingtu Famen** Kwong Chuen Ching, 2023-07-17 This vigorously researched publication for advanced graduate students and fellow scholars of the Chinese Pure Land tradition Jingtu famen in the wider context of Chinese Buddhism extends the horizon opened up by recent leading scholars to reconstruct a more insightful understanding of the Jingtu famen and the notion of zong Focusing on previously unstudied writings of Sheng an Shixian 1686 1734 the findings support the argument that the Jingtu famen is an advanced form of Mahayana meditation rooted in the M dhyamika and Yogic traditions The original English translation of Master Shixian's writings provided also paves the way for other researchers to conduct new and extended studies

Buddhist Practice and Visual Culture Julie Gifford, 2011-03-16 This is the first study to provide an overall interpretation of the Buddhist monument Borobudur in Indonesia Including both the narrative reliefs and the Buddha images the book opens up a wealth of information on Mahayana Buddhist religious ideas and practices that could have informed

Borobudur and it convincingly interprets Borobudur within that context Presenting new material the book contributes immensely to a new and better understanding of the significance of the Borobudur for the field of Buddhist and Religious Studies *Pneumatology and the Christian-Buddhist Dialogue* Amos Yong, 2012-07-26 This project at the interface of Buddhist Christian studies comparative theology and Christian systematic theology proceeds by way of exploring questions related to the presence and activity of the Holy Spirit in a 21st century world of many faiths **Augustine and World Religions** Brian Brown, John A. Doody, Kim Paffenroth, 2008-05-30 Augustine and World Religions examines Augustine's thought for how it can inform modern inter religious dialogue Despite Augustine's reputation as the father of Christian intolerance one finds in his thought the surprising claim that within non Christian writings there are some truths in regard even to the worship of the One God This it seems hints at a deeper level of respect and dialogue between religions because one engages in such dialogue in order to better understand and worship God The essays here uncover provocative points of comparison and similarity between Christianity and other religions to further such an Augustinian dialogue **Disputed Questions in Theology and the Philosophy of Religion** J. Hick, 1997-04-23 Hick gives a personal account of how he has come to accept religious pluralism that the major world faiths are different but equally valid responses to ultimate Reality He considers how much Christians have to learn from Buddhism discusses the ongoing dialogue among Jews Christians and Muslims and outlines a philosophy of religions a conception of the relationship between world religions and between them and the ultimately Real Finally he turns to the mystery of death and using the resources of the world religions and of parapsychology suggests a possible conception of life after death *The Bodhisattva Path*, 2007 The Inquiry of Ugra Ugrapariproccha is one of the most influential Mahayana sutras preserved and transmitted in both India and China over many centuries and actively quoted in treatises on the bodhisattva path It is nevertheless one of the most neglected texts in Western treatments of Buddhism The Ugra appears to be one of the earliest bodhisattva scriptures to come down to us and as such it offers a particularly valuable window on the process by which the bodhisattva path came to be seen as a distinct vocational alternative within certain Indian Buddhist communities The Bodhisattva Path is a study and translation of the Ugra that will fundamentally alter previous perceptions of the way in which Mahayana was viewed and practiced by its earliest adherents To achieve a better understanding of the universe of ideas activities and institutional structures within which early self proclaimed bodhisattvas lived the author first considers the Ugra as a literary document employing new methodological tools to examine the genre to which it belongs the age of its extant versions and their relationships to one another She goes on to challenge the dominant notions that the Mahayana emerged as a reform of earlier Buddhism and offered lay people an easier option On the contrary the picture that emerges is of the early Mahayana as a more difficult and demanding vocation initially limited to a small contingent of monastic males Combining a detailed critical study and translation of an important Buddhist scripture with a sweeping re examination of the relationship between the Buddha and the practitioners alike and

other interested in the history of Indian Buddhism and the formation of Mahayana
