Parliament came from remote islands in Shetland as well as from large public meetings in cities. In a land steeped in religion, ministers and church leaders took the lead in giving theological support to the cause of abolition. The contributions of five London Scots who were pivotal to the campaign throughout Britain are set against opposition to abolition from many Scots with commercial interests in the slave trade and the sugar plantations. Missionaries and miners, trades guilds and lawyers all played their parts in challenging slavery. Many of their struggles and frustrations are detailed for the first time in an assessment of the unique contribution made by Scotland and the Scots to the destruction of an institution whose effects are still with us today. *The Caribbean and the Medical Imagination, 1764-1834* Emily Senior, 2018-04-26. During the eighteenth and nineteenth centuries the Caribbean was known as the grave of Europeans. At the apex of British colonialism in the region between 1764 and 1834, the rapid spread of disease amongst colonist, enslaved and indigenous populations made the Caribbean notorious as one of the deadliest places on earth. Drawing on historical accounts from physicians, surgeons and travellers alongside literary works, Emily Senior traces the cultural impact of such widespread disease and death during the Romantic age of exploration and medical and scientific discovery. Focusing on new fields of knowledge such as dermatology, medical geography and anatomy, Senior shows how literature was crucial to the development and circulation of new medical ideas and that the Caribbean, as the hub of empire, played a significant role in the changing disciplines and literary forms associated with the transition to modernity.

Earl Bathurst and British Empire Neville Thompson, 1999-03-16. An accessible scholarly biography of a politician whom Thompson rightly suggests has been largely neglected. The English Historical Review. Earl Bathurst arguably exerted greater influence on the establishment and consolidation of the British Empire than any other single individual. In writing this highly authoritative work, Professor Thompson had access to the previously untapped Bathurst family archives. These private papers clearly established what Bathurst's contemporaries well knew: that he was a very effective administrator of the Colonial Office and a figure of first rank in the war against Napoleon in diplomacy and in domestic politics. This biography also throws fresh light on other leading figures of the period, notably The Duke of Wellington and The Prince Regent.

English Atlantics Revisited Nancy L. Rhoden, 2007-08-09. Inspired by the major themes in Steele's scholarship, the original essays in *English Atlantics Revisited* examine British Atlantic contexts and political economy as well as maritime, military, Amerindian and social history. The contributors offer challenging new findings and perspectives as they revisit the *English Atlantics* chapters on specific personalities, regions and topics; reveal the extent of transatlantic, cross-cultural and trans-national interactions. *English Atlantics Revisited* helps assess the current state of Atlantic history.

Romanticism & Politics 1789-1832 Carol Bolton, 2020-01-08. The history of the Romantic period is often dominated by the cataclysmic political events that occurred within it. The collection is divided into thematically linked sections, each of which is prefaced with brief notes on themes, issues and texts, and lists of books for further study. The dates of the period have

been extended at the beginning to provide extracts from texts that frame the ensuing radical debate that arose around the French Revolution and concludes at the Reform Act of 1832 which can be seen as the culmination of the movement for political reform in the latter half of the Romantic period The division of topic areas within the volumes into specific areas of interest will provide an easy route to negotiate the texts whereas sections such as Women and politics and Colonial politics will highlight previously neglected areas
