Scenariocommissie Arbeid en Gezondheid,A. Bloemhoff, 1994-02-28 Will the present high work pace and the strong time pressure continue to exist in the coming 20 years In the year 2010 will there be even more employees working under their level of education and suffering from health problems due to stress at work than is the case at the moment Will the physical workload of employees be reduced to a minimum over the next 20 years as a result of further application of ergonomic principles Will the health risks due to working with chemicals increase or decrease And will sickness absenteeism and work disability have increased as a result of these kinds of developments around the year 2010 or will they have been mostly brought under control These and similar questions are dealt with in this book about the quality of the work health and wellbeing of employees in the year 2010 carried out by the TNO Institute of Preventive Health Care NIPG TNO in Leiden assisted by the Scenario Committee Using trend analysis the researchers demonstrate that many aspects of working life have improved in the Netherlands in the last 15 years Needless to say not the past but the exploration of the future of the quality of working life takes a central place in this book Finally the top 20 measures are presented aimed at halving the rate of sickness absenteeism and work disability in the Netherlands suggested by the panel of 88 Dutch experts *Citizen Participation in Decision Making* Kimani Njogu, 2013-12-29 This book is a result of public dialogue forums in pursuit of accountable and transparent governance in Kenya organized by Twaweza Communications with the support of Ford Foundation From the convenings it was evident that the stability of Kenya will be driven by the extent to which citizens feel fully included in the development agenda Quite often

political leaders view the role of citizens in governance as restricted primarily to their participation in the electoral process. This narrow view has led to arrogance and total disregard of citizens after poll results are announced. Under the new political dispensation heralded by the promulgation of the Constitution of Kenya on August 27 2010 this trend must change and the sovereignty of the people in theory and practice must be reinscribed. The publication raises important issues worth serious reflection. It also suggests ways in which citizens can better participate in their own transformation. Case studies highlighted in the book exemplify the importance building the Kenyan nation by addressing patterns of exclusion and glaring inequalities. The topics covered include multipartism natural resource governance gender politics of identity marginalization of Coastal Kenya youth empowerment and investing in knowledge economy among others. The book is a valuable addition to our understanding of the root political and social anxieties in Kenya and how these could be ameliorated.
