**Can You Hear Me Now** Mary Elizabeth Dennison, *Crowman* David Rae, 2020-03-13 Touch the light Hold the light The light burns The light runs away Hold the light Lock the light away The great spirit Vatu keeps the Sun in a box where no thief can steal it Once a year the box is opened and life springs across the dark lands The whole world belongs to Vatu He is darkness he is master of all There is no hiding from him But Utas must try for his daughter's sake She is sick from darkness and yet she glows with a mysterious light If Vatu can find them he will destroy them or worse drag them back into his mad dark world Torn between duty and mercy between justice and freedom Utas tries to escape but it seems inevitable that the darkness will reclaim him For the greatest mercy and the greatest punishment Utas can suffer is to return to his true self

**Savage Attack** Crispin Bates, Alpa Shah, 2017-07-06 In *Savage Attack Tribal Insurgency in India* the authors ask whether there is anything particularly adivasi about the forms of resistance that have been labelled as adivasi movements What does it mean to speak about adivasi as opposed to peasant resistance Can one differentiate adivasi resistance from that of other lower castes such as the dalits In this volume the authors move beyond stereotypes of tribal rebellion to argue that it is important to explore how and why particular forms of resistance are depicted as adivasi issues at particular points in time Interpretations that have depicted adivasis as a united and highly politicised group of people have romanticised and demonized tribal society and history thus denying the individuals and communities involved any real agency Both the interpretations of the state and of left wing supporters of tribal insurgencies have continued to ignore the complex realities of tribal life and the variety in the expressions of political activism that have resulted across the length and breadth of the Indian subcontinent

**Poetics of Migration** Parin Dossa,2004-03-01 This book uses gendered stories of displacement and re settlement to interrogate our understanding of social suffering and justice Parin Dossa an anthropologist argues that systemic inequity and exclusionary practices impact the health and well being of marginalized people Using narrative accounts of Canadian Iranian women this book links individual experiences of migration to social and political factors Dossa challenges conventional thinking that interprets social suffering in terms of personal stake and individual accountability She questions the ways in which racialized and gendered inequality in Canada are perceived as cultural differences instead of social oppression Yet this book is far from a laundry list of social determinants of migration and health Dossa s illustrative stories are linked to a poetics of migration that shows the remaking of a world with a more informed sense of social justice A pioneering study on migration and storytelling this book is an important contribution to medical anthropology migration and gender studies

**Staging Revolution** Xing Fan, 2018-01-11 Staging Revolution refutes the deep rooted notion that art overtly in the service of politics is by definition devoid of artistic merits As a prominent component shaping the culture of the Cultural Revolution model Beijing Opera jingju is the epitome of art used for political ends Arguing against commonly accepted interpretations Xing Fan demonstrates that in a performance of model jingju political messages could only be realized through the most rigorously formulated artistic choices and conveyed by performers possessing exceptional techniques Fan contextualizes model jingju at the intersection of history artistry and aesthetics Integral to jingju s interactions with politics are the practitioners constant artistic experimentations to accommodate the modern stories and characters within the jingju framework and the eventual formation of a new sense of beauty Therefore a thorough understanding of model jingju demands close attention to how the artists resolved actual production problems which is a critical perspective missing in earlier studies This book provides exactly this much needed dimension of analysis by scrutinizing the decisions made in the real practical context of bringing dramatic characters to life on stage and by examining how major artistic elements interacted with each other sometimes harmoniously sometimes antagonistically Such an approach necessarily places jingju artists center stage Making use of first person accounts of the creative process including numerous interviews conducted by the author Fan presents a new appreciation of a lived experience that on a harrowing journey of coping with political interference was also filled with inspiration and excitement This fascinating study is ground breaking and timely Xing Fan masterfully demonstrates how the creative choices made by playwrights directors musicians actors and designers intersected with one another in creating an aesthetics of the model theater during the Cultural Revolution A must read for anyone interested in Chinese literature and drama theater studies and comparative literature Xiaomei Chen University of California Davis Though no longer in fashion the model revolutionary operas of the Cultural Revolution are still occasionally performed Xing Fan has done us a great service by analyzing them in detail and reminding us of their merits I thoroughly enjoyed this engaging book and learned a lot from it I recommend it strongly Colin Mackerras Griffith University
