**Small Wonder** Barbara Kingsolver, 2009-10-13 Soulful and soul searching a passionate invitation to readers to be part of the crowd that cares about the environment peace and family San Francisco Chronicle Book Review In this moving essay collection the acclaimed author of bestselling works such as *Demon Copperhead* and *Animal Vegetable Miracle* raises her voice in praise of nature family literature and the joys of everyday life while examining the genesis of war violence and poverty in our world Whether Barbara Kingsolver is contemplating the Grand Canyon her vegetable garden motherhood genetic engineering or the future of a nation founded on the best of all human impulses her writings are grounded in the belief that our largest problems have grown from the earth's remotest corners as well as our own backyards and that answers may lie in both those places Sometimes grave occasionally hilarious and ultimately persuasive *Small Wonder* is a hopeful examination of the people we seem to be and what we might yet make of ourselves **Small Wonder** Barbara Kingsolver, 2003

Small Wonder Barbara Kingsolver, 2002-04-02 In her new essay collection the beloved author of *High Tide in Tucson* brings to us out of one of history's darker moments an extended love song to the world we still have From its opening parable gleaned from recent news about a lost child saved in an astonishing way the book moves on to consider a world of surprising and hopeful prospects ranging from an inventive conservation scheme in a remote jungle to the backyard flock of chickens tended by the author's small daughter Whether she is contemplating the Grand Canyon her vegetable garden motherhood adolescence genetic engineering TV watching the history of civil rights or the future of a nation founded on the best of all human impulses these essays are grounded in the author's belief that our largest problems have grown from the earth's remotest corners as well as our own backyards and that answers may lie in those places too In the voice Kingsolver's readers have come to rely on sometimes grave occasionally hilarious and ultimately persuasive *Small Wonder* is a hopeful examination of the people we seem to be and what we might yet make of ourselves Rhetorics of Religion in American Fiction Liliana M. Naydan, 2016-05-23 *Rhetorics of Religion in American Fiction* considers the way in which contemporary American authors address the subject of belief in the post 9/11 Age of Terror Naydan suggests that after 9/11 fiction by Mohsin Hamid Laila Halaby Philip Roth Don DeLillo John Updike and Barbara Kingsolver dramatizes and works to resolve impassés that exist between believers of different kinds at the extremes These impassés emerge out of the religious paradox that shapes America as simultaneously theocratic and secular and they exist for instance between liberals and fundamentalists between liberals and certain evangelicals between fundamentalists and artists and between fundamentalists of different varieties Ultimately Naydan argues that these authors function as literary theologians of sorts and forge a relevant space beyond or between extremes They fashion faith or lack thereof as hybridized and hence as a negotiation among secularism atheism faith fundamentalism and fanaticism In so doing they invite their readers into contemplations of religious difference and new ways of memorializing 9/11 **Barbara Kingsolver's World** Linda Wagner-Martin, 2014-05-08

Since Barbara Kingsolver published *The Bean Trees* in 1988 her work has been of great interest to readers first American readers then British and South African readers and finally to readers the world over With incredible speed Kingsolver became one of the best known United States writers a person who collected honors and awards as if she were a much more mature literary producer From the beginning Kingsolver touched an elbow of keen interest in her readers hers was the voice of world awareness a conscientious voice that demanded attention for the narratives of the disadvantaged the politically troubled the humanly silenced By paying special attention to her non fiction essays and books this new study by renowned literary critic Linda Wagner Martin highlights the way Kingsolver has become a kind of public intellectual particularly in the 21st century It provides fresh readings of each of her novels stories and poems

### **Emerson and Environmental Ethics**

Susan Dunston, 2018-09-15 At the core of Emerson's philosophy is his view as a naturalist that we are made of the same atoms as the world is In counterpoint to this identity he noted the fluid evolution and diversity of combinations and configurations of those atoms Thus he argued our relation and connection to the world are not occasional or recreational but everywhere and always and also reciprocal ongoing and creative He declared he would be a naturalist which for him meant being a knowledgeable lover of nature Emerson's famous insistence on an original relation to the universe centered on morally creative engagement with the environment It took the form of a nature literacy that has become central to contemporary environmental ethics The essential argument of this book is that Emerson's integrated philosophy of nature ethics and creativity is a powerful prototype for a diverse range of contemporary environmental ethics After describing Emerson's own environmental literacy and ethical aesthetic and creative practices of relating to the natural world Dunston delineates a web of environmental ethics that connects Emerson to contemporary eco feminism living systems theory Native American science Asian philosophy and environmental activism

### **Behind the Times**

Mary Jean Corbett, 2020-11-15 Virginia Woolf throughout her career as a novelist and critic deliberately framed herself as a modern writer invested in literary tradition but not bound to its conventions engaged with politics but not a propagandist a woman of letters but not a lady novelist As a result Woolf ignored or disparaged most of the women writers of her parents generation leading feminist critics to position her primarily as a forward thinking modernist who rejected a stultifying Victorian past In *Behind the Times* Mary Jean Corbett finds that Woolf did not dismiss this history as much as she boldly rewrote it Exploring the connections between Woolf's immediate and extended family and the broader contexts of late Victorian literary and political culture Corbett emphasizes the ongoing significance of the previous generation's concerns and controversies to Woolf's considerable achievements *Behind the Times* rereads and revises Woolf's creative works politics and criticism in relation to women writers including the New Woman novelist Sarah Grand the novelist and playwright Lucy Clifford the novelist and anti suffragist Mary Augusta Ward It explores Woolf's attitudes to late Victorian women's philanthropy the social purity movement and women's suffrage Closely tracking the ways in which Woolf both followed and departed from these predecessors Corbett

complicates Woolf's identity as a modernist her navigation of the literary marketplace her ambivalence about literary professionalism and the mixing of art and politics and the emergence of feminism as a persistent concern of her work

Clark, 2024-09-03 A photographic celebration of the landscapes that have influenced some of America's most important nature writers from John Muir to Terry Tempest Williams to Barbara Kingsolver Since 2019 Donald S. Clark has documented the places that have been instrumental in influencing the lives and words of both historic and contemporary nature and environmental writers throughout the United States While we have always felt their passionate connection to their own environments no book has ever made this visual connection between writers and their land before the relationship between prose and place Featuring more than 40 of America's most important writers the content is as far reaching as America itself from sea to shining sea forest to prairie and mountain to coastline Accompanying each gallery of stunning photography is a selected excerpt by the writer about their land With the increasingly noticeable effects of climate change the significance of these writers and their personal connections to the environment is

even more timely This unique and compelling story of the land and how it has inspired some of our greatest poets and authors will make a wonderful gift for budding environmentalists students of nature writing or anyone interested in conservation     *Engaging Worlds* J.
