### **Some Action Of Her Own The Adult Woman And Higher Education:**

*Some Action of Her Own* Helen S. Astin, 1976      Higher Education for Women in Postwar America, 1945-1965 Linda Eisenmann, 2006-01-19 Outstanding Academic Title for 2007 Choice Magazine This history explores the nature of postwar advocacy for women's higher education acknowledging its unique relationship to the expectations of the era and recognizing its particular type of adaptive activism Linda Eisenmann illuminates the impact of this advocacy in the postwar era identifying a link between women's activism during World War II and the women's movement of the late 1960s Though the postwar period has been portrayed as an era of domestic retreat for women Eisenmann finds otherwise as she explores areas of institution building and gender awareness In an era uncomfortable with feminism this generation advocated individual decision making rather than collective action by professional women generally conceding their complicated responsibilities as wives and mothers By redefining our understanding of activism and assessing women's efforts within the context of their milieu this innovative work reclaims an era often denigrated for its lack of attention to women      *Women in Academe* Mariam K. Chamberlain, 1989-03-16 The role of women in higher education as in many other settings has undergone dramatic changes during the past two decades This significant period of progress and transition is definitively assessed in the landmark volume *Women in Academe* Crowded out by returning veterans and pressed by social expectations to marry early and raise children women in the 1940s and 1950s lost many of the educational gains they had made in previous decades In the 1960s women began to catch up and by the 1970s women were taking rapid strides in academic life As documented in this comprehensive study the combined impact of the women's movement and increased legislative attention to issues of equality enabled women to make significant advances as students and to a lesser extent in teaching and academic administration *Women in Academe* traces the phenomenal growth of women's studies programs the notable gains of women in non traditional fields the emergence of campus women's centers and research institutes and the increasing presence of minority and re entry women Also examined are the uncertain future of women's colleges and the disappointingly slow movement of women into faculty and administrative positions This authoritative volume provides more current and extensive data on its subject than any other study now available Clearly and objectively it tells an impressive story of progress achieved and of important work still to be done      *Historical Dictionary of Women's Education in the United States* Linda Eisenmann, 1998-07-17 The history of women's education in the United States presents a continuous effort to move from the periphery to the mainstream and this book examines both formal and informal opportunities for girls and women Through an introductory essay and nearly 250 alphabetically arranged entries this reference book examines institutions persons ideas events and movements in the history of women's education in the United States The volume spans the colonial era to the present exploring settings from formal institutions such as schools and colleges to informal associations such as suffrage groups and reform organizations where women gained skills and used knowledge A full picture of women's educational

history presents their work in mainstream institutions sex segregated schools and informal organizations that served as alternative educational settings Educational history varies greatly for women of different races classes and ethnicities The experience of some groups has been well documented Thus entries on the Seven Sisters women s colleges and the reform organizations of the Progressive Era convey wide historical detail Other women have been studied only recently Thus entries on African American school founders or women teachers present considerable new information that scholars interpret against a wider context Finally some women s history has yet to be adequately explored Hispanic American women and Catholic teaching sisters are discussed in entries that highlight historical questions still remaining Each entry is written by an expert contributor and concludes with a brief bibliography The volume closes with a timeline of women s educational history and a list of important general works for further reading

*Deans of Women and the Feminist Movement* K. Sartorius, 2014-12-10 This book explores how deans of women actively fostered feminism in the mid twentieth century through a study of the career of Dr Emily Taylor the University of Kansas dean of women from 1956 1974 Sartorius links feminist activism by deans of women with labor activism the New Left movement and the later rise of women s studies as a discipline

**Women and Philanthropy in Education** Andrea Walton, 2005-02-15 This book illuminates the philanthropic impulse that has influenced women s education and its place in the broader history of philanthropy in America Contributing to the history of women education and philanthropy the book shows how voluntary activity and home grown educational enterprise were as important as big donors in the development of philanthropy The essays in *Women and Philanthropy in Education* are generally concerned with local rather than national effects of philanthropy and the giving of time rather than monetary support Many of the essays focus on the individual lives of female philanthropists Olivia Sage Martha Berry and teachers Tsuda Umeko Catharine Beecher offering personal portraits of philanthropy in the 19th and 20th centuries These stories provide evidence of the key role played by women in the development of philanthropy and its importance to the education of women

*Equal Rites, Unequal Outcomes* Lilli S. Hornig, 2012-12-06 Thirteen years ago in June 1988 the Radcliffe Class of 1953 celebrated its 35th Reunion Amidst the festivities we who participated repeatedly asked ourselves the same two questions Is Harvard as sexist as it was when we were undergraduates If not what is the status of women at Harvard today To find the answers we formed an ad hoc committee and charged the members to report back to the class in five years The committee interviewed selected senior and junior Harvard faculty Harvard and Radcliffe administrators students and alumni ae We identified and studied Harvard and Radcliffe reports on their institutions and on their student organizations We contributed to and participated in a 1990 Radcliffe Focus Group A Survey of Alumnae and Undergraduate Perceptions We found that the University was not as sexist in 1988 as it had been in 1953 Yet the status of women though improved remained quite unequal to that of men Radcliffe College was organizationally separate from Harvard University until 1977 when a non merger merger

was implemented However Radcliffe had no faculty of its own and employed Harvard faculty to teach its students in strictly separate classes until World War II The merger effort was completed in 1999 with the complete integration of the two institutions and the formation of the Radcliffe Institute for Advanced Study a tub on its own bottom like other Harvard graduate and professional schools In 1993 the Class of 53 voted unanimously to form the Committee for the

Equality of Women at Harvard CEWH Cultivating the Spirit Alexander W. Astin, Helen S. Astin, Jennifer A.

Lindholm, 2010-10-26 Cultivating the Spirit THIS GROUNDBREAKING WORK IS BASED on a five year study of how students change during the college years and the role college plays in facilitating the development of their spiritual qualities Students the authors argue grapple with the big questions in life Who am I What are my values Do I have a mission in life Why am I in college What kind of person do I want to be What sort of world do I want to help to create Their answers to these questions help determine their academic and career choices and are tied to the development of personal qualities such as empathy caring and social responsibility The study finds that while students religious engagement declines during college at the same time they become substantially more caring tolerant connected with others and actively engaged in a spiritual quest Spiritual growth also enhances academic performance leadership development and satisfaction with college The study provides strong evidence pointing to specific experiences during college that can contribute to students spiritual growth The need for spiritual development in college is apparent Two thirds of the students in the study express a strong interest in spiritual matters well over half report that their professors never encourage discussions of religious or spiritual matters and about the same proportion report that professors never provide opportunities to discuss the purpose and meaning of life Cultivating the Spirit aims to raise the awareness of academic administrators faculty and the public at large to the vital role that spirituality plays in student learning and development Throughout the book the authors identify strategies for enhancing students development and encourage the academy to give greater priority to the spiritual aspects of students educational and personal development Re-entry Women Involved in Women's Studies Blanche Glassman Hersch, 1980 **Gender, Class**

**and Education (Routledge Revivals)** Stephen Walker, Len Barton, 2013-11-05 First published in 1983 Gender Class and Education is a collection of papers that formed presentations at the Westhill Sociology of Education Conference in January 1982 and is the fifth such collection to emerge from the annual conference The conference theme Race Class and Gender was not only chosen because of its topicality but also to provide a framework for debate between educational researchers and teachers The papers focus on the reproduction of gender relations through education and provide important insights into how this process works how it is resisted in schools and colleges and the possibilities for radical intervention This volume includes three teaching bibliographies on gender and education which were not presented at the conference but were compiled specially for the book Equity Counseling for Community College Women Carol Eliason, 1979 **Female World**
