Some Far And Distant Place:

Some Far and Distant Place Jonathan S. Addleton, 2010-07-01 Born in Pakistan to Baptist missionaries from rural Georgia Jonathan S Addleton crossed the borders of race culture class and religion from an early age Some Far and Distant Place combines family history social observation current events and deeply personal commentary to tell an unusual coming of age story that has as much to do with the intersection of cultures as it does with one man's life Whether sharing ice cream with a young Benazir Bhutto or selling gospel tracts at the tomb of a Sufi saint Addleton provides insightful and sometimes hilarious glimpses into the Muslim Christian encounter through the eyes of a young child His narrative is rooted in many unlikely sources including a southern storytelling tradition Urdu ghazal revivalist hymnology and the Anglican Book of Common Prayer The natural beauty of the Himalayas also leaves a strong and lasting mark providing solidity in a confusing world that on occasion seems about to tilt out of control This clear eyed insightful memoir describes an experience that will become increasingly more common as cultures that once seemed remote and distant are no longer confined within the bounds of a single nation state

From a Far Distant Time & Place Thomas Peter Glass, 2005-11-01 This book is the genealogical history of the ancestry of Jacob Stephen Gruben and Maria Emilie Krmer who came to the United States from Germany in the early 1880s The book traces each of their ancestries back through German civil registration records and the earlier Catholic Church records to the 17th century The book includes information about the first generation born in the United States Similarly the book traces the family of Johann Gottfried Godfrey Nienhaus a nephew of Jacob Stephen Gruben who also came to the United States at about the same time The book contains information on the first generation of the Nienhaus family that was born in the United States The book is of wider interest because there is a discussion of the nature of and idiosyncrasies of the German civil registration and Catholic records available in the Dsseldorf Cologne area of Germany There is an extensive discussion of a method of determining a family line when faced with the sometimes scant information available in the early Catholic Church records There are large numbers of collateral relatives listed in the lines of descendants contained in the book with over 1800 people listed most of whom were born lived and died in the Dsseldorf Cologne area of Germany There is a surname index to the lines of descendants in the Gruben section and a surname index to the lines of descendants in the Krmer section of the book

Winning the West with Words James Joseph Buss, 2013-07-29 Indian Removal was a process both physical and symbolic accomplished not only at gunpoint but also through language In the Midwest white settlers came to speak and write of Indians in the past tense even though they were still present Winning the West with Words explores the ways nineteenth century Anglo Americans used language rhetoric and narrative to claim cultural ownership of the region that comprises present day Ohio Indiana and Illinois Historian James Joseph Buss borrows from literary studies geography and anthropology to examine images of stalwart pioneers and vanished Indians used by American settlers in portraying an empty landscape in which they established farms towns and civilized governments He demonstrates

how this now familiar narrative came to replace a more complicated history of cooperation adaptation and violence between peoples of different cultures Buss scrutinizes a wide range of sources travel journals captivity narratives treaty council ceremonies settler petitions artistic representations newspaper editorials late nineteenth century county histories and public celebrations such as regional fairs and centennial pageants and parades to show how white Americans used language metaphor and imagery to accomplish the symbolic removal of Native peoples from the region south of the Great Lakes Ultimately he concludes that the popular image of the white yeoman pioneer was employed to support powerful narratives about westward expansion American democracy and unlimited national progress Buss probes beneath this narrative of conquest to show the ways Indians far from being passive participated in shaping historical memory and often used Anglo Americans own words to subvert removal attempts By grounding his study in place rather than focusing on a single group of people Buss goes beyond the conventional uses of history giving readers a new understanding not just of the history of the Midwest but of the power of creation narratives
