Some Problems of Lotze's Theory of Knowledge Edwin Proctor Robins, 1900 *Some Problems of Lotze's Theory of Knowledge* Edwin Proctor Robins, J. E. Creighton, 2014-03 This Is A New Release Of The Original 1900 Edition **Some Problems of Lotze's Theory of Knowledge** HardPress, Robins Edwin Proctor 1872-1899, 2013-06 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy *Some Problems of Lotze's Theory of Knowledge ... Edited with a Biographical Introduction by J.E. Creighton* Edwin Proctor ROBINS, Hermann Lotze, *The Project of Positivism in International Law* Mónica García-Salmones Rovira, 2013-11-28 International legal positivism has been crucial to the development of international law since the nineteenth century It is often seen as the basis of mainstream or traditional international legal thought The Project of Positivism in International Law addresses this theory in the long standing tradition of critical intellectual histories of international law It provides a nuanced analysis of the resilience of the economic positivist theory and shows how influential its role was in shaping the modern frameworks of international law The book argues that the rise of positivist international law was inseparable from philosophical developments placing the notion of conflict of interests at the centre of collective life Where previously international thought was dominated by notions of the right the just and the good increasingly international relations became viewed as interests in need of harmonisation In this context international law was re founded as the universal law that could harmonise the interests of both public and private international entities The book argues that these evolutions in philosophical thought were bound up with the consolidation of capitalism and with the ideas about human existence and human nature which emerged in that process It provides an innovative analysis of the selected biography of ideas which it presents including a detailed focus on the work of Hans Kelsen one of the leading positivist thinkers of the twentieth century It also argues that the work of Lassa Oppenheim should be included within this analysis as providing some of the key founding texts of positivism in international law This book will be a fascinating read for scholars and students of international legal theory historians of ideas and legal philosophers **Author Finding List for Seminary Libraries. 1911** Princeton University. List, 1921 The Publishers Weekly, 1900 **Hegel and the Sciences of Spirit (Geisteswissenschaften)** Madalin Onu, 2018-05-01 In the context of increasingly numerous cultural and political contradictory debates humanities are facing the difficult responsibility of removing the veil of ambiguity and doubt However they cannot fulfil this task without first undertaking a rigorous return upon themselves their own fundamentals methods and targeted objects This book investigates the influence of G W F Hegel on these sciences during their long and controversial process of transformation and consolidation For this purpose the author developed on Gadamer's suggestions a dialectical hermeneutical method able to overcome the insufficiencies of both historical and systematic approaches and to properly take into account the significant references to authors of the Modern Age and the Contemporary Era In his attempt to advance a speculative model for the present day social and political sciences the author brings a new light on some renowned topics including agency in history Napoleon Weltgeist or Weltseele on horseback the inner structure of the interpreter Gadamer between Hegel and Heidegger and the critical concept of alienation an overthrow or continuity of absolute idealism among others Culture and Media Rayson K. Alex, S. Susan Deborah, Sachindev P.S., 2014-06-19 Indian ecocriticism has not yet adequately demonstrated the applicability of ecological deep ecological tinai principles to visual texts Culture and Media Ecocritical Explorations closes this gap at the most opportune moment Though this volume accommodates ecologically oriented interpretations from several cultures across the world it reserves the centre stage for Indian ecocriticism and ecotheory quite appropriately The volume effectively challenges the major documents on ecocriticism and theory published by international presses which have been reluctant to give space to tinai criticism and theory that transcend Dravidian or Tamil boundaries The day is not far when cinema of the world shaped by tinai theory will employ tinai hermeneutics to gain fresh insight which in turn will feed into the processes of creation and production of relevant and great movies
