Adapting to America William P. Leahy, 1991 Catholic Higher Education in Protestant America Kathleen A. Mahoney, 2004-12-01 Winner of the 2005 New Scholar Book Award given by Division F History and Historiography of the American Educational Research Association In 1893 Harvard University president Charles W Eliot the father of the modern university helped implement a policy that in effect barred graduates of Jesuit colleges from regular admission to Harvard Law School The resulting controversy bitterly contentious and widely publicized was a defining moment in the history of American Catholic education illuminating on whose terms and on what basis Catholics and Catholic colleges would participate in higher education in the twentieth century In *Catholic Higher Education in Protestant America* Kathleen Mahoney considers the challenges faced by Catholics as the age of the university opened She describes how liberal Protestant educators such as Eliot linked the modern university with the cause of a Protestant America and how Catholic students and educators variously resisted accommodated or embraced Protestant inspired educational reforms Drawing on social theories of cultural hegemony and insider outsider roles Mahoney traces the rise of the Law School controversy to the interplay of three powerful forces the emergence of the liberal nonsectarian research university the development of a Catholic middle class whose aspirations included attendance at such institutions and the Catholic church's increasingly strident campaign against modernism and by extension the intellectual foundations of modern academic life

The Ethical Challenges of Academic Administration Elaine E. Englehardt, Michael S. Pritchard, Kerry D. Romesburg, Brian Schrag, 2009-09-18 This book is an invitation to academic administrators at every level to engage in reflection on the ethical dimensions of their working lives Academics are very good at reflecting on the ethical issues in other professions but not so

interested in reflecting on those in their own including those faced by faculty and administrators Yet it is a topic of great importance Academic institutions are value driven hence virtually every decision made by an academic administrator has an ethical component with implications for students faculty the institution and the broader community Despite this they receive little systematic preparation for this aspect of their professional lives when they take up administrative posts especially when compared to say medical or legal training Surprisingly little has been written about the ethical challenges that academic administrators are likely to face Most of the literature relating to academic administration focuses on leadership and draws heavily on management and social science theory The importance of focusing on ethical deliberation and decision making often goes unrecognized
