Snap out of It Barry Bragg,2005-03-16 In the short but powerful book Snap Out of It author Barry Bragg invites you to discover that a questioning mind an independent spirit and a sense of humor are the holy trinity of spiritual sanity An honest examination of religion takes us to a place of humility not rigid dogma or superiority We discover at long last that the Universe does not behave in a way that makes us comfortable and in fact is bursting with unpredictability and diversity Doubt is essential for illusion and self deception are the hallmarks of the human mind With wishful thinking on one end and paranoid delusion on the other the ability to see through these products of human imagination takes us to safety and sanity This book gives you the information and inspiration to resist the pressure to

conform to shoulds either from religion or society Refuse to pretend you know when you don't know Stand tall and celebrate the gifts of your innate reason intuition and individuality If you walk a spiritual path make sure it comes from the light of your own being a spontaneous personal free flowing natural spirituality Traditional religion tells us the word of God is true However if you begin with the idea that whatever is true is the word of God and make that search for yourself you're on the journey to inner freedom May this book be a source of light and liberation and yes laughter Reclaim your spiritual sanity and integrity and know that the true will set you free

How Time Passes Thomas Sattig, 2025-04-01 Time organizes things in a dynamic fashion whereas space organizes things in a static fashion so things in time undergo passage whereas things in space do not What makes the temporal organization of things dynamic What is the nature of the passage of time Traditional discussions of passage have taken one of two perspectives Some philosophers start with passage as a phenomenon that occurs in the physical world They ask what constitutes this objective phenomenon Theirs is a project in metaphysics and the foundations of physics Others begin with passage as a phenomenon that is given in our experiences of the world They ask what constitutes this subjective phenomenon Theirs is a project in philosophy of mind and cognitive science In *How Time Passes* Thomas Sattig gives both perspectives on passage equal weight The first part of the book concerns the existence and nature of physical passage The second part is concerned with the existence and nature of experiential passage In both parts the standard kind of explanation of passage is juxtaposed with a new kind of explanation On the tripartite approach which has dominated classical and contemporary philosophy of time the denizens of time undergo passage in virtue of changing with respect to what is past what is present and what is future On the geometrical approach the denizens of time undergo passage in virtue of being temporally organized in a manner that does not involve the holding of any geometrical relations between them

The Timeless Love of Twin Souls Janet Kay Darling, Phillip George, 2014-06 A truly amazing story which shows how love transcends all time A personal testament to the fact that love is eternal that love endures and does not die when the physical body does Love transports us through all of our journeys but we need to remember this Twin soul love is powerful and a part of every individual where each of us seeks to

find what we feel to be missing But how do you know when it s found How can you be sure about love when you have forgotten how it truly feels When two people discover their twin soul love for one another not only in this lifetime but also remember it from a previous lifetime then they can guide us all Finding love understanding love as well as appreciating our true self for who we really are continues to be shrouded in the mystery of our day to day earthly existence This enduring lack of understanding only serves to perpetuate an unwarranted sense of incompleteness and loneliness deep within us which all too often gives rise to feelings of fear despair and discontent So as a consequence we experience an insatiable desire to search for a mystifying something which we somehow instinctively know we need but have little or no idea where to even begin looking Concealed within this dilemma and even more perplexing lies the concept of our eternal soul This elemental but powerful you resides unacknowledged at the core of your very being while remaining seemingly silent as you journey in search of your ultimate happiness This subject alone has occupied the minds of philosophers throughout the ages but to be aware that we have another aspect to compliment our earthly existence is as intriguing as it is confusing To appreciate that each soul is but one half of its twin gives rise to an important insight into what motivates our need to do the things that we do or to search for what we feel driven to find This remarkable story tells of two people Ron and Janet who not only found each other in this lifetime but were also together in a previous and very dramatic lifetime while being caught up in the revolutionary war which ultimately gave birth to the USA of today Through following their experiences trials traumas and triumphs plus journeys into the afterlife you will learn more about not only how they discovered themselves to be twin souls but how important this whole subject is and what it means to you In trying to figure out what compels you to do the things that you do while making the choices that you do then having an appreciation of the twin soul that you are brings an extra dimension of clarity Through coming to know yourself better then this inevitably leads to discovering your path towards your greatest happiness while attracting and expressing the love which you so dearly wish to experience along the way While reading an entertaining story you will find yourself being drawn in to a process which poses many questions about the life that we lead as well as what makes you who you are Combining real life experience with that of a fascinating journey into a world which we have virtually no understanding of then you will be led towards a greater appreciation of the love which is so important to you

Social Media

During the Egyptian Revolution: A Study of Collective Identity and Organizational Function of Facebook & Co Eira Martens-Edwards, 2014-04-10 With the fall of the regimes in Tunisia and Egypt the term Facebook Revolution was coined depicting the world s most popular social media platform as a condition sine qua non for the Arab revolutions Moving on from the extreme positions of cyber utopians and pessimists this study identifies and analyses mechanisms of use and potential

intermediary effects of social media in connection with other driving factors of mass demonstrations that led to the fall of the Mubarak regime in early 2011. Semi structured focus interviews were carried out with social media activists in Cairo between November 20th and 24th 2011. The qualitative content analysis of eight interviews allowed for the identification of relevant categories and sub categories as well as possible connections between them. Additionally a thorough analysis of the Egyptian socio economic political and media system in the years leading up to the revolution provides the basis for valuable and contextual conclusions. Among the key findings is the accelerating effect of social media in mobilizing the Egyptian population to take part in mass demonstrations. Whereas the organizational function is limited to online network effects rather than facilitating the coordination of protesters on the ground a significant impact of social media on the perception of a collective identity and threshold levels relevant for individual protest behavior was identified through this research. Moreover the findings implicate a mutual dependency between new social media and traditional mass media. **The**

Decision-Making in Human-Systems Joseph Riggio, 2007-06. Decision Making gets significant coverage in the business press and as an academic topic in business schools. However there is a dearth of information on the transpersonal consideration on decision making and how it effects leaders and leadership in human systems. Maximizing positive results in human systems requires the decision maker to maintain a constant consideration of both local and non local elements.

impacting and being impacted by the decisions being made This book introduces the concept of Scope of Decision as a way of arriving at higher quality decisions by considering them from a greater distance from the decision maker in the time space continuum The author designed and used a unique exemplar modeling paradigm to conduct the research using the proven methodologies of phenomenography and neurolinguistic modeling This study presented in this book attempts to offer some insight on the transpersonal process of intentionality in decision making specifically as it applies to making high quality decisions in human systems As stated in the title this study was not intended to be exhaustive but rather to open new pathways of consideration and knowing in regard to the topic of decision making The conclusions arrived at read like a compass pointing to the means for dramatically improving your decision making and are best described in the sometimes hauntingly poetic language of the participants as they explore and discover their own processes for what goes into making exquisite decisions *Neurogenic Communication Disorders: Life Stories and the Narrative Self* Plural Publishing, Incorporated, 2008-07

There is currently considerable focus on psychosocial issues for persons with aphasia and their significant others However there has been little unifying work that brings diverse interdisciplinary perspectives together to understand the impact of aphasia and other neurogenic communication disorders on the social construction and mediation of self or identity In this book the authors explore this idea of social construction of self as it relates to the human need to create share and modify life stories particularly when confronting major life changes Their premise is that impaired communication can have a profound impact on one's perception of self and one's ability to negotiate the social reconstruction of self in the context of a neurological disorder The nature and extent of impact varies as seen in the book's in depth examination of narrative self for persons living with aphasia ALS Parkinson's disease and dementia as well as those aging without impairment The authors present theoretical grounding for using the concepts of self and the idea of a social and cultural tool kit that enables clients to interact with others and to define themselves in the context of those around them The text moves from theory to qualitative analyses of living with neurogenic disorders to implications for clinical interventions for individual clients and their significant others **The Crossing Point** Mary Caroline Richards, 1973
