Dream In The Gifted Generation historian David Goldfield examines the generation immediately after World War II and argues that the federal government was instrumental in the great economic social and environmental progress of the era Following the sacrifices of the Greatest Generation the returning vets and their children took the unprecedented economic growth and federal activism to new heights This generation was led by presidents who believed in the commonwealth ideal the belief that federal legislation by encouraging individual opportunity would result in the betterment of the entire nation In the years after the war these presidents created an outpouring of federal legislation that changed how and where people lived their access to higher education and their stewardship of the environment They also spearheaded historic efforts to level the playing field for minorities women and immigrants But this dynamic did not last and Goldfield shows how the shrinking of the federal government shut subsequent generations off from those gifts David Goldfield brings this unprecedented surge in American legislative and cultural history to life as he explores the presidencies of Harry S Truman Dwight D Eisenhower and Lyndon Baines Johnson He brilliantly shows how the nation s leaders persevered to create the conditions for the most gifted generation in U S history

Engaging Comparative Urbanism Julie Ren, 2020-12-09 Julie Ren investigates the motivations and practices of making art spaces in Beijing and Berlin to engage with comparative urbanism as a framework for doing research beyond its significance as a critical intervention Across vastly different contexts where universal theories of modernity or development seem increasingly misplaced she innovatively explores the ways that art spaces employ creative capital to sustain themselves in a competitive urban landscape She shows how these art spaces are embedded within a politics of aspiration and demonstrates that aspiration is an important lens through which to understand the nature of and possibilities for urban change

Imagining a Nation Ruramisai Charumbira, 2015-09-29 In *Imagining a Nation* Ruramisai Charumbira analyzes competing narratives of the founding of Rhodesia Zimbabwe constructed by political and cultural nationalists both black and white since occupation in 1890 The book uses a wide array of sources including archives oral histories and a national monument to explore the birth of the racialized national memories and parallel identities that were in vigorous contention as memory sought to present itself as history In contrast with current global politics plagued by divisions of outsider and insider patriot and traitor Charumbira invites the reader into the liminal spaces of the region s history and questions the centrality of the nation state in understanding African or postcolonial history today Using an interdisciplinary methodology Charumbira offers a series of case studies bringing in characters from far flung places to show that history and memory in and of one small place can have a far reaching impact in the wider world The questions raised by these stories go beyond the history of colonized or colonizer in one former colony to illuminate contemporary vexations about what it means to be a citizen patriot or member of a nation in an ever globalizing world Rather than a history of how the rulers of Rhodesia or Zimbabwe marshaled state power to force citizens to accept a single definition of national memory and identity *Imagining a Nation* shows how ordinary people invested in the soft power of individual social

and collective memories to create and perpetuate exclusionary national myths Reconsiderations in Southern African History
Beyond Atlanta Stephen G. N. Tuck, 2001 Beyond Atlanta draws on interviews with almost two hundred people black and white who worked for or actively resisted the freedom movement Among the topics Stephen Tuck covers are the absence of consistent support from the movement's national leadership and the frustration and innovation it alternately inspired at the local level In addition Tuck reveals friction along urban rural and poor prosperous lines about movement goals and tactics and he highlights the often unheralded roles played by African American women veterans masons unions neighborhood clubs and local NAACP branches BOOK JACKET
The Shaping of a Life Phyllis Tickle, 2009-03-25 Lively entertaining and inspiring THE SHAPING OF A LIFE is in the tradition of the beloved bestsellers by Kathleen Norris and Anne Lamott an intimate lyrical and thought provoking memoir from one of the most respected and admired writers on religion in America today In THE SHAPING OF A LIFE Phyllis Tickle recounts her life with honesty and humor richly conveying both the external events and the internal insights and emotions She shares stories of her childhood in eastern Tennessee as the only child of the dean at the local college including her first inkling of the power and comfort of prayer and her realization that prayer required a disciplined routine that it is best practiced by a composed mind and spirit She writes of the sense of freedom and independence she discovered at college where she fell in love with the language and the teachings of The Book of Common Prayer and decided to leave the Presbyterianism of her childhood and join the Episcopal Church As Tickle chronicles her deepening understanding of prayer and the rewards of marriage family and a spiritual life she reaches across the boundaries that separate one denomination from another and presents a portrait of spiritual growth and transformation that will appeal to devout practitioners and their less religious neighbors as well Within a very personal story Tickle reveals the keys that will help readers of all faiths find the path that leads from the everyday world of doing to the special place of simply being
