First Responder Careers Expose Individuals to Higher Risks of Developing Trauma Some careers include a higher likelihood of experiencing traumatic events that can lead to the development of PTSD Serving in the military is a high risk factor for developing PTSD However combat veterans develop PTSD at different rates depending on the severity and length of exposure to traumatic experiences There are also high incidences of reported sexual harassment and sexual abuse in the military As a result the rates of PTSD are relatively high compared to the overall prevalence in the general population Not only can law enforcement officers experience direct threats and stressful conditions but they also regularly witness the devastating effects of assaults robberies kidnappings and violent events However individuals in this profession have lower than expected rates of PTSD surprisingly An estimated 20 percent overall may result from having access to counseling and rigorous pre employment screenings EMTs and paramedics are routinely exposed to life threatening incidents and have more health problems than individuals in other occupations PTSD rates in this group are as high as 20 percent PTSD prevalence in this profession is comparable to law enforcement Firefighters conduct paramedic activities and are the first responders to natural disasters Firefighting is a dangerous profession that exposes workers to stressful conditions and traumatic events

ranging from threats to their safety and experiencing the devastating effects of catastrophes As a result the prevalence of PTSD in this group can be as high as 20 percent Volunteer firefighters may have even higher rates because they don't have access to the same level of support as career firefighters Healthcare workers especially those working in emergency rooms and intensive care units are also at higher risk For example nurses working in critical care units are more likely to develop PTSD than nurses in other groups In addition while senior level nurses report fewer PTSD symptoms than junior ones they report higher rates of burnout Finally healthcare workers exposed to patients that have experienced violence such as an assault victim are more likely to develop PTSD than surgeons who treat assault victims Rescue workers medical workers and volunteers who act as first responders during disasters witness the aftermath of horrific events and can even become involved in severe traumatic events The prevalence of PTSD in these individuals has been estimated to be between 15 and 30 percent Journalists who work as war correspondents are at higher risk of being injured killed or kidnapped Their lifetime prevalence of PTSD which can be as high as 30 percent reflects their lack of access to support and PTSD treatment options Transit and train operators are frequently exposed to physical threats and witness suicide incidents such as person under train events Exposure to these traumatic and threatening circumstances can be a daily or weekly occurrence Bus drivers are more prone to PTSD because they have more direct contact with the general public than train drivers locked in secure train cabs In these high risk professions the incidence of trauma declines when policies are in place to debrief victims give victims immediate access to counseling and screen for individuals at high risk of having adverse reactions to traumatic conditions

Women and Miracle Stories Anna Korte, 2018-11-13 This book contains a multidisciplinary collection of studies on women in miracle stories found in texts ranging from religious classics to contemporary literary fiction Miracle stories are a genre of great importance for the study of women's religious inheritance and for the historical and cultural understanding of women as makers of faith Miracle stories are very generally speaking more open to popular religion and culture than for instance doctrinal and official ecclesiastical texts and as such they can be of special interest to the study of women's lives and religious aspirations Remarkably up till now this genre has not been looked at from this point of view This book aims to open this field for further research by presenting case studies from diverse angles and disciplines Some of the questions this book tries to answer are What do miracle stories specifically tell us about women Are there some types of miracles that are in particular related to certain groups of women What do these stories tell us about women as performers and or subjects of miracles What can be said about the social function and religious meaning of miracles by specifically looking at the way certain groups of women are practising and experiencing miracles By including research on miracle stories in contemporary fiction written by women this book also wants to acknowledge and research the disputed status of miracles as well of women in our present society which is moving from modernity to post modernity Please note that *Women and Miracle Stories* is previously published by Brill in hardback ISBN 90 04 16681 8 still available **Printers' Ink**, 1902 **Resources in**

education ,1984-09 *Confessions of a Surviving Alien* Jon Meade,2016-03-17 More than a book more than a non fiction read more than a memoir CONFESSIONS OF A SURVIVING ALIEN will engage the reader like most have never experienced It will take them through a maze of lifes pathos and elicit the emotions of sadness joy pain regret guilt remorse pride fear revenge happiness forgiveness evil good and much uniquely intertwined with humor often times outrageously so Although defined by the premise of Vietnam it is much more than another war account to the contrary It is more often the dredge of a neophyte Marine trying to get more into the war and action than out of it It is more about his disillusionment in practically every aspect of that officially declared police action but not in ways one might expect It is more about his evolution and regression as a human being and inner torment including feelings of alienation The book starts at the end and ends with the start with a chronological account in between covering four parts Before Vietnam BV During Vietnam DV After Vietnam AV and finally After Marines AM The story covers the life of a young American and follows his incredible journey through the decades to find himself to explore every possibility of livingand nearly dyingand reach some hopeful level of success however that is defined From having a unique tour in Vietnam to escorting deceased Marines to their families and final resting place to his life threatened by a mob guy to learning about a deeply held family secret concerning his father to experiencing a profound spiritual experience in the unlikely locale of Beverly Hills California and much more author Jon Meades biggest challenge may be getting readers to believe his surreal story He merely shrugs and says I am just a very ordinary guy with an extraordinary life to convey It is nothing less nor more than that Maybe he admits in the end analysis success in life is merely surviving life failures and all With that admission and a very personal and engaging approach and writing style the genre of Memoirs may never be the same The Cabinet Manual Great Britain: Parliament: House of Lords: Select Committee on the Constitution,Baroness Margaret Jay Jay of Paddington,2011-03-07 The draft Cabinet Manual was published by the Cabinet Office on 14 December 2010 Its development was first announced in February 2010 when in a speech to the Institute for Public Policy Research the then Prime Minister Gordon Brown stated that he had asked the Cabinet Secretary Sir Gus O Donnell to lead work to consolidate the existing unwritten piecemeal conventions that govern much of the way central government operates under our existing constitution into a single written document The concept of a Cabinet Manual appears to have drawn extensively upon experience in New Zealand The full draft of the Manual incorporating a revised version of the chapter on elections and government formation was published with the agreement of the new Prime Minister David Cameron and the Deputy Prime Minister Nick Clegg and after its text had been approved by the Cabinet following consideration by the relevant Cabinet sub committee and was made subject to public consultation The Cabinet Secretary has stated that he expects to invite Cabinet to endorse a revised version of the Cabinet Manual in the spring of 2011 This report forms the Select Committee on the Constitution s response to the consultation It is also intended to inform Members of the House about the issues which arise from the Manual s publication Mannin ,1913 Otherwise Known as the Human
