The title addresses the shortcomings of the psychoanalytic theory, particularly the lack of scientific literature. The first part of the text covers the critical concepts in psychoanalytic theory, such as the psychological forces, defense mechanisms, superego, and primal desires. In the second part, the selection details the theory at work; this part discusses the major stages of life from a psychoanalytic perspective. The text also talks about a system of psychopathology along with the consideration to take in psychotherapy. Nietzsche and the Problem of Subjectivity João Constâncio,Maria João Mayer Branco,Bartholomew Ryan,2015-10-16 Nietzsche's critique of the modern

subject is often presented as a radical break with modern philosophy and associated with the so called death of the subject in 20th century philosophy But Nietzsche claimed to be a psychologist who was trying to open up the path for new versions and sophistications of the soul hypothesis Although there is no doubt that Nietzsche gave expression to a fundamental crisis of the modern conception of subjectivity both from a theoretical and from a practical existential perspective it is open to debate whether he wanted to abandon the very idea of subjectivity or only to pose the problem of subjectivity in new terms The volume includes 26 articles by top Nietzsche scholars The chapters in Part I Tradition and Context deal with the relationship between Nietzsche s views on subjectivity and modern philosophy as well as with the late 19th century context in which his thought emerged Part II The Crisis of the Subject examines the impact of Nietzsche s critique of the subject on 20th century philosophy from Freud to Heidegger to Dennett but also in such authors as Deleuze Foucault Derrida or Luhmann Part III Current Debates From Embodiment and Consciousness to Agency shows that the way in which Nietzsche engaged with such themes as the self agency consciousness embodiment and self knowledge makes his thought highly relevant for philosophy today especially for philosophy of mind and ethics
