Moral Sentimentalism Michael Slote, 2010-01-05. There has recently been a good deal of interest in moral sentimentalism, but most of that interest has been exclusively either in metaethical questions about the meaning of moral terms or in normative issues about benevolence and/or caring and their place in morality. In *Moral Sentimentalism*, Michael Slote attempts to deal with both sorts of issues and to do so primarily in terms of the notion or phenomenon of empathy. Hume sought to do something like this over two centuries ago, though he didn't have the term empathy and used sympathy instead. In effect, Slote is seeking to give moral sentimentalism a second wind in and for contemporary circumstances. By relying systematically on empathy in its account of normative morality and in what it has to say about the meaning of moral vocabulary, *Moral Sentimentalism* offers a unified overall ethical picture that can then be tested against ethical rationalism. Rationalism has recently dominated the scene in ethics, but by showing how sentimentalism can make coherent and intuitive sense of such preferred rationalist notions as autonomy, respect, and justice, and by showing how a sentimentalism based in empathy can deal with ethically significant aspects of the moral life that rationalism tends to ignore or skimp on, Slote hopes a wider and more active debate between rationalism and sentimentalism can be set in motion. There are signs that sentimentalist modes of thought are gaining new footholds on the way ethics is done, and this new book is very hopeful about these possibilities.

Politics of Anxiety Emmy Eklundh, Andreja Zevnik, Emmanuel-Pierre Guittet, 2017-04-26. From the threats posed by austerity and the fears around global migration to the unsettled notion of resistance, our political world is permeated with anxieties. But what does this mean for our everyday lived political experience?

Do governments provoke or encourage a sense of anxiety as a form of control and power How do citizens react to comply with or resist this sense of anxiety This book interrogates the different faces of anxiety and provides a systematic engagement with its different manifestations It uses different disciplinary approaches and methodologies to study political and social phenomena in order to paint a picture of the impact of anxiety and how it governs and mobilises individuals The key strength of these contributions comes from their theoretically informed analysis of empirical problems Moving beyond the concept of the risk society and the recurrence of cyclical capitalist crises this book challenges the notion of the status quo to consider urges and desires for political change By highlighting that anxiety is different from fear the book examines new implications for the study of political events

Holding down the Fort Aaron Bielejewski, 2022-11-26 This Open Access book questions the relationship between institutionalized images and understandings of policing the monolithic ideas common to most if not all Western law enforcement agencies and contextual situative and local interactions where the human representatives of policing street level officers come into contact with residents The political and theoretical association of specific forms of Western policing with democratic society can be illustrated in the case of German integration narratives of reform and essentially forging new democratic police agencies in the new German states stand at odds with much of the experience and statements of officers who continued to serve following Re Unification Officers who present their works primarily in terms of their local responsibilities expectations and more specifically to their unique and individual relationship and connection to their communities downplay the relevance of high level policing policy Based on a two year ethnographic study of policing in a rural county in the German state of Brandenburg this book explores the local nature of policing both in terms of how police officers imagine their communities to be and with reference to broader societal expectations and assumptions of what police essentially are can effectively do and should effectively do
