Sometimes A Circle:

Circle's End Delwyn McPhun, 2010-05 Crop circles Hundreds of these strange patterns appear in our fields each year their vast beauty inspiring awe and wonder A sudden increase in their number throws Matt Lancing maths student and amateur symbologist into a world of intrigue What is creating them What is their message Matt deciphers crop circles for a secret military group led by the mysterious Ember a determined redhead with strange spiritual beliefs Uncovering what makes the circles is just the beginning of his journey to a terrifying discovery Warning This well documented enigma will question your deepest illusions *Full Circle* Tsunyota Kohe't, 2003 The Power of Joy in Giving to Animals Linda R. Harper, Ph.D., 2014-09-02 The Secret to Helping More Animals What would it take to give all the animals the kind of lives that they deserve How do we work together to attain this vision The answer to both of these questions can be found within the hearts of the animal advocates and the beloved furry friends they help The secret is joy Read on and uncover the infinite power of joy that is already present on your life saving and life enhancing journey of giving to the animals A life of giving to animals offers amazing gifts of love purpose and contentment But instead of experiencing joy and fulfillment animal advocates often find themselves overwhelmed sad and depleted Clinical psychologist and lifelong animal lover Dr Linda Harper offers insight into the personality of the animal advocate and provides strategies to help face the challenges and find the gifts of their life saving and life enhancing journey When we balance the desires and needs of each unique giving heart we are at our best and joy flows freely and abundantly Joy is the self perpetuating contagious and powerful energy that is needed to bring us together to create a better world With a foreword and contributions by animal advocate Faith Maloney Dr Harper s newest book aims to help individuals realize the gifts of their purposeful journey of helping animals replenish their giving hearts and become their best as they work toward creating a kinder world not only for animals but for all living beings Trusting Teachers with School Success Kim Farris-Berg, Edward J. Dirks, Amy Junge, 2013 Lately our nation s strategy for improving our schools is mostly limited to getting tough with teachers Blaming teachers for poor outcomes we spend almost all of our energy trying to control teachers behavior and school operations But what if all of this is exactly the opposite of what is needed What if teachers are the answer and not the problem What if trusting teachers and not controlling them is the key to school success Examining the experiences of teachers who are already trusted to call the shots this book answers What would teachers do if they had the autonomy not just to make classroom decisions but to collectively with their colleagues make the decisions influencing whole school success Decisions such as school curriculum how to allocate the school budget and whom to hire Teachers with decision making authority create the schools that many of us profess to want They individualize learning Their students are active not passive learners who gain academic and life skills The teachers create school cultures that are the same as those in high performing organizations They accept accountability and innovate and make efficient use of resources These promising results suggest it s time to trust teachers Icons of Mathematics: An

Exploration of Twenty Key Images Claudi Alsina ,Roger B. Nelsen,2020-06-01 The authors present twenty icons of mathematics that is geometrical shapes such as the right triangle the Venn diagram and the yang and yin symbol and explore mathematical results associated with them As with their previous books Charming Proofs When Less is More Math Made Visual proofs are visual whenever possible The results require no more than high school mathematics to appreciate and many of them will be new even to experienced readers Besides theorems and proofs the book contains many illustrations and it gives connections of the icons to the world outside of mathematics There are also problems at the end of each chapter with solutions provided in an appendix The book could be used by students in courses in problem solving mathematical reasoning or mathematics for the liberal arts It could also be read with pleasure by professional mathematicians as it was by the members of the Dolciani editorial board who unanimously recommend its publication Circle Holding Julia Davis,Tessa Venuti Sanderson,2024-10-21 This practical guide teaches yoga professionals how to hold talking and listening circles in order to build connection and community It offers advice on specific topics such as grief and LGBTQ circles as well as in depth information on circles for children and teens Each chapter is complete with templates exercises and interview excerpts

Offenders after Custody David Thompson, Terry Thomas, 2017-07-14 Sexual offending is a very contemporary issue and not least following news of historical cases of well known people and of localised grooming for sexual exploitation e.g. the Rotherham case. The rehabilitation of all offenders from prison is currently undergoing a transformation initiated by the coalition government. The position of the voluntary sector in that transformation see 2 alongside the public probation service and private sector is still being discussed. Voluntary work has taken on a new significance in the age of austerity and the so called Big Society even though that term has recently fallen into some disuse. Circles of Support and Accountability challenge the prevailing negative public protection agenda which just seeks to constrain offenders and offers a more positive way of working with sex offenders.
