Beyond Here and Now Barbara Davis Slotnick, 2012-04-19 HAUNTED HOUSES ARE REAL I grew up in a wonderful historic small town in South Carolina Even today I still love the history of this old town and the many friends I have come to know In the 1980s years later when I was grown and had children of my own I rented an apartment in one of the historical houses that had been renovated into apartments in 1963 We were excited and felt fortunate to have found such an amazing place to live and be back in my hometown again However this unusual house had some interesting things happen in it while we lived there much to my surprise As if it were planned by some unseen being my children and I began noticing some very unusual occurrences My daughter was twelve years old at the time and was a cheerleader in the school she attended Each night she placed her cheerleading pom poms on the corners of the bed posts of the bed which she and I both shared I always watched the news at night before bedtime One winter night in 1983 around 11 15 p m the pom poms began twisting like little pieces of paper as if they had an energy source from something I didnt understand One pom pom flew off of the bedpost and landed in the corner across the room The next night around the same time the other pom pom flew off its post into the same corner I was so shocked I left them both lying there until my daughter had to use them again which was the next day The old house was huge and cold On another winter night my daughter and I were sleeping in the same room and the same bed as before All of a sudden my feet began feeling hot so I took off my socks I left them under the covers in case I needed them later About thirty minutes later the socks began moving up toward me under the cover to the edge and over the end of the bed I was so scared I couldnt move My daughter was still sleeping Then a pair of pillows began to move across the wooden part of the foot of the bed at the end and landed beside the socks When this happened I quickly awoke my daughter and we got out of that bed and that room When I went to check the room the next morning the socks were placed side by side and the pillows were arranged as if they were for show At this point I felt that I needed an outside opinion of my experiences I then called one of the universities I was acquainted with about my experiences They wanted to send a scientist to visit me and the house However my daughter was against it They sent an engineer instead The engineer after much observation informed me that I and my daughter were clairvoyant and that some form of an entity was in the house He said that a lot of things that was going on could possibly be explained based on the history of the house but not all of them From time to time several other unexplained incidences happened before I decided to move away from all of this Sometimes the telephone receiver would jump off its cradle Christmas bulbs would swing back and forth on the tree and water kept coming on in the bathroom when no one was present My daughter and I had no choice but to leave this unpredictable place Soon after we moved to Myrtle Beach S C We thought we had left the past behind however in our new house locks and doors would open as well as other things that occurred Over the years since then things seemed to have calmed down Even though I have been told that my daughter and I could both have psychokinesis she denies her powers **In God We Trust** Ike C.

Udeh,2017-09-05 Perhaps in your old culture as in some non Western cultures the life of the individual is regarded as precious Some cultures even seem to endow a persons life with a certain measure of sanctity In these other cultures such person oriented features are often played out loudly and visibly And in the process of living according to the precepts of these features the neighbors preach their benefits and the children sing the attributes often in folkloric renditions of appreciation for the exceptional quality of their cultural tenets

Beyond Preemption and Preventive War Cindy Williams,2008-11 Since 2002 the Bush White House has embraced a policy that it calls preemption or preventive war The new policy calls for the U S to go on the offensive when it believes that an enemy is gathering the capability to attack even though the time place or even likelihood of an enemy move is unknown and perhaps far in the future But this report maintains that the best defense may instead be the prevention of attacks on the U S and

prevention of conflict around the globe Such a policy would be pursued through a stronger emphasis within the defense establishment itself on countering the proliferation of dangerous weapons and materials participating in stability operations and post conflict reconstruction and cooperating with allies [Start Here](#) Trish Doller,2019-08-13 Two teens go on a life changing sailing trip as they deal with the grief of losing their best friend in this heartwrenching hopeful novel from the author of Something Like Normal and In a Perfect World Willa and Taylor were supposed to spend the summer after high school sailing from Ohio to Key West with their best friend Finley But Finley died before graduation leaving them with a twenty five foot sailboat a list of clues leading them to destinations along the way and a friendship that s hanging by a thread Now Willa and Taylor have two months and two thousand miles to discover how life works without Finley and to decide if their own friendship is worth saving From acclaimed author Trish Doller comes a poignant tale of forgiveness grief and the brilliant discoveries we make within ourselves when we least expect it **Moving Beyond H.E.R.E!** Vonekham Phanithavong-Guthrie,2010-06-01 Moving beyond H E R E is a professional and personal development manuscript that focuses on leadership and transition Follow these principles and watch as you change and your life changes Take the step and begin to Move beyond H E R E **The Timeless Tides: From Here to There** Michael Hammond,2018-12-07 Soon To Set Sail On a Timeless Tide When a young stowaway s obsession with Captain Arcanus Memoria uncovers a mutinous plot aboard his ship called The Devil s Cry the two team up to venture to a mysterious island While there they uncover a relic of the past a clue to the fate of Morgan Thatcher an infamous pirate who vanished more than a lifetime ago With the winds as this back and the tides of fortune on his side Captain Arcanus Memoria must embark on a swashbuckling adventure to the ends of the earth and beyond seeking something he never expected to find **Poetics of Naming** George Melnyk,2003-10-20 The Poetics of Naming is a fascinating blend of postmodern philosophy and mysticism that challenges our conventional view of language It begins with the narrator s discussion of a multi faceted identity based on his name s Because this identity is multi lingual and multi national its layering of the self leads to a confrontation with language The narrator asks what is the relationship between language and truth The formative power of language is great but what happens when we become languageless The book becomes an expression of a mystical experience the narrator calls poesis in which he stepped outside of language Expressing this experience of languagelessness through language is the paradox at the core of the book To achieve a simulation of languageless reality the author uses a variety of linguistic techniques that uproot meanings break up words and reconstruct terms in novel ways Through deconstruction the metaphoric structure of language is revealed This metaphoric structure is itself approached metaphorically so that the reader begins to sense the trap of a linguistic universe from which there is no escape The book is a literary exercise that simulates the author s poesis experience for the reader Eventually the flood of words on the page begins to go out of focus and dissolve as the reader approaches languagelessness The Poetics of Naming is not for the faint of heart It challenges its readers to move away from the

comfortable universe of ordinary language and its meanings and enter a world where the boundaries crumble like digital illusions and limitlessness appears on the horizon of consciousness Poesis is frightening frustrating and liberating
