gripping first hand testimony from the archives of the Imperial War Museum this book reveals what it was really like to serve in the Royal Navy during the First World War It was a period of huge change for the first time the British navy went into battle with untried weapon systems dreadnoughts submarines aircraft and airships Julian Thompson blends insightful narrative with never before published stories to show what these men faced and overcame Officers and men from admirals down to the youngest sailors faced the same dangers at sea in often terrible weather conditions with the ever present prospect of being blown to pieces or choking to death trapped in a compartment or turret as they plunged to the bottom of the sea In their own words they share their experiences from long patrols and pitched battles in the cold rough water of the North Sea to the perils of warfare in the Dardanelles from the cat and mouse search for Vice Admiral Graf von Spee in the Pacific to the dangerous raids on Ostend and Zeebrugge We see what it was like to spend weeks in the cramped smelly submarines of the period or to attack U boats from unreliable airships What If I Never Get Over You Paige

Cindy Gabrielle, 2015-06-18 Though New Zealand author Janet Frame 1924-2004 lived at a time of growing dissatisfaction with European cultural models and though her auto biography fiction and letters all testify to the fact that a direct encounter between herself and Buddhism occurred her work has so far never been examined from the vantage point of its indebtedness to Buddhism It is of the utmost significance however that a Buddhist navigation of Frame's texts should shed fresh light on large segments of the Framean corpus which have tended to remain obdurately mysterious This includes passages centering on such themes as the existence of a non dual world or a character's sudden embrace of a non ego like self Of equal significance is the conclusion one then draws that this unharnessed world which human beings are often unable to embrace has always been right under their nose for whenever the aspect of the intellect that filters perceptions into mutually excluding categories fails to function he or she finds a place of subjective arrival in and sees this supposedly unknowable beyond Thus possibly against the grain of mainstream criticism this study argues that Janet Frame constantly seeks ways through which the infinite and the Other can be approached though not corrupted by the perceiving self and that she found in the Buddhist epistemology a pathway towards evoking such alterity **Last Train to Hilversum**

Charlie Connelly, 2019-01-24 Despite the all pervading influence of television ninety per cent of people in Britain still listen to the radio clocking up over a billion hours of listening between us every week It's a background to all our lives we wake up to our clock radios we have the radio on in the kitchen as we make the tea it's on at our workplaces and in our cars From Listen With Mother to the illicit thrill of tuning into pirate stations like Radio Caroline from receiving a musical education from John

Peel or having our imagination unlocked by Douglas Adams The Hitchhiker s Guide to the Galaxy from school free summers played out against a soundtrack of Radio One and Test Match Special to more grown up soundtracks of the Today programme on Radio 4 and the solemn rhythmic intonation of the shipping forecast in many ways our lives can be measured in kilohertz Yet radio is changing because the way we listen to the radio is changing Last year the number of digital listeners at home exceeded the number of analogue listeners for the first time meaning the pop and crackle and the age of stumbling upon something by chance is coming to an end There will soon be no dial to turn no in between spaces on the waveband for washes of static mysterious beeps and faint distant voices The mystery will be gone we ll always know exactly what it is we re listening to whether it s via scrolling LCD on our digital radios the box at the bottom of our TV screen or because we ve gone in search of a particular streaming station And so as the world of analogue listening fades Charlie Connelly takes stock of the history of radio and its place in our lives as one of the very few genuinely shared national experiences He explores its geniuses crackpots and charlatans who got us to where we are today and remembers its voices personalities and programmes that helped to form who we are as individuals and as a nation He visits the key radio locations from history and looks at its vital role over the past century on both national and local levels Part nostalgic eulogy part social history part travelogue Last Train To Hilversum is Connelly s love letter to radio exploring our relationship with the medium from its earliest days to the present in an attempt to recreate and revisit the world he entered on his childhood evenings on the dial as he set out on the radio journey of a lifetime      *The Budget story books* Budget story books,1897      *Country Life* ,1916
