journey into the metaphysics of the creative process through the teachings of the Sufi sage Ibn al Arabi and other mystics This project unfolds through the life experiences and expertise of the author and two central visions of the creative process to make connections where none seem possible or exist This is the first definition while the second is to translate the ineffable into the tangible This book also proceeds with the deep conviction that the mystical experience is identical to the creative process It is divided into two sections each exactly five chapters The first part focuses on metaphysical foundations that apply to all crafts Chapter one Following the Traces On Storytelling discusses the importance of narrative weaving as a sacred craft for humanity with immense consequences on the wellbeing of the individual and society Chapter two The Hidden Treasure On the Creative Process takes a journey through an aṥṥar narration central in Sufism where God describes the process of creation as a hidden treasure unfolding from initial love to expansive knowledge The creative process appears a five stage journey that parallels the phases of divine creation and also mirrors an outline of the five levels of being Chapter three Al Haqīqa al Muḥammadiyya On Artist as Art posits the primordial light of the prophet Muhammad as the ethereal matter of creative inspiration the creative process itself artist and art all at once It also discusses the sage artist as an instance and mirror of al insān al kāmil al ṥamm the perfect and complete human Chapter four The In Between On Imagination and Paradox ventures into the most significant contributions of Ibn al Arabi one that is also central to the creative process on the contours of human and divine imagination as well as the intimate paradox and perplexity that is inherent in creativity and art Shari'a of the Craft On the Path to Haqīqa the last chapter in part one tries to outline a way for

mastering crafts through the lens of Sufism specifically the three stages of shari a law rules tariqa path and haqiqa reality Part two focuses on different genres of art beginning with chapter five Memories in Ink On the Written Arts that looks at translation as an art form Meanwhile chapter six The Dye of God On the Visual Arts looks at the crafts of painting sculpture and architecture as windows into the act of reading not only the body grammar or prose of art but more importantly its spirit and poetry Chapter seven The Sawt Sarmad On the Auditory Arts envisions a musical instrument as a wooden sage that tries to teach the musician the importance of annihilation and being an empty channel Chapter eight The Reel of Reality On the Moving Arts looks at theater and film as a sacred synthesis of the written visual and auditory arts Chapter nine Ma rifa and Urf On Society and Mythology expands the conversation from the creativity of the individual to that of society and community The final concluding chapter offers some final remarks on what this book tries to accomplish and setting the frontier for further conversations     **Let Go** Sheila Walsh,
