Tyson, 2014-04-24 This book investigates the archaeological epigraphic and biblical evidence for the course of Ammon's history setting it squarely within the context of ancient Near Eastern imperialism Drawing on cross cultural parallels from the archaeology of empires Tyson elucidates the dynamic processes by which the local Ammonite elite made the cousins of biblical Israel visible to history Tyson explains changes in the region of Ammon during the Iron Age II namely the increasing numbers of locally produced elite items as well as imports growth in the use of writing for administrative and display purposes and larger numbers of sedentary settlements in the light of the transformative role that the Neo Assyrian and Neo Babylonian empires played in the ancient Near East The study also widens the conversation to consider cross cultural examples of how empires affect peripheral societies [Excavations at Tall Jawa, Jordan, Volume 1 The Iron Age Town](#) Michèle Daviau, 2022-05-20 Located in a strategic position on the southern flank of the Ammonite hill country overlooking the Madaba Plain the earliest settlement at Tall Jawa dates to the Iron I period 1100 900 BC This settlement was redesigned during Iron Age II 900 600 BC and consisted of a walled town surrounded by a casemate style fortification system and a multi chambered gate complex Major buildings standing to the second storey are described in detail with their furnishings and contents A marked change in architecture ceramic technology and high status artefacts

mark the high point of Tall Jawa during the period of the Assyrian empire 730 600 BC The major features of each structure are illustrated both in the text and on a CD ROM This volume presents the final report of six seasons of excavations at Tall Jawa in central Jordan The particular focus of this report is the architecture and stratigraphy of the settlements which occupied the site during the Iron Age 1100 600 BC *The History of Ancient Palestine* Gösta Werner Ahlström,1993 In this magisterial work the history of the peoples of Palestine from the earliest times to Alexander s conquest is thoroughly sifted and interpreted All available source material textual epigraphic and archeological is considered and the approach taken aims at a dispassionate reconstruction of the major epochs and events by the analysis of social political military and economic phenomena The book chronologically structured is indispensable for the study of the Hebrew Bible and of the ancient Near East **Israel** Daniel Isaac Block,2008 Israel Ancient Kingdom or Late Invention is a collection of essays responding to the radical claims that Israel and its history actually began following the Babylonian exile and that the history of Israel we read about in the Bible is a fictionalized account Contributors are leading Bible and archaeology scholars who bring extra biblical evidence to bear for the historicity of the Old Testament and provide case studies of new work being done in the field of archaeology and Old Testament studies **A Corpus of Ammonite Inscriptions** Walter E. Aufrecht,2019-05-22 This second edition of A Corpus of Ammonite Inscriptions presents all of the published inscriptions that have been identified as Ammonite in one volume Each entry is accompanied by a complete bibliography a physical description and details about its location a photograph and or drawing relevant linguistic information and a history of the inscription s interpretation The discovery of the Amman Theater Inscription Amman Citadel Inscription Tall S r n Bottle isb n Ostraca and Tall al Mazar Ostraca opened a new chapter in the study of ancient Northwest Semitic inscriptions with the recognition and analysis of the language and script of ancient Ammon These new discoveries prompted a reclassification of a number of epigraphs previously identified as Hebrew Phoenician or Aramaic Since the first edition of this corpus the discussion of the criteria used to classify inscriptions as Ammonite including provenance language onomastics paleography and iconography has advanced considerably In addition the number of known inscriptions has increased This updated edition includes 254 additional inscriptions four new appendixes and in many cases new and improved images **Archaic Features of Canaanite Personal Names in the Hebrew Bible** Scott C. Layton,2018-07-17 **Ancient Ammon B.** MacDonald,Yunker,2023-11-13 This work is a presentation on a people of Transjordan known to readers of the Bible as a neighbour and often an enemy of first millennium B C Israel Topics include a review of archaeological research in Ammon the emergence of the Ammonites and Ammonite territory and sites *The Function of the Tautological Infinitive in Classical Biblical Hebrew* Yoo-Ki Kim,2018-08-14 One of the intriguing and insufficiently understood features of Biblical Hebrew is the use of an infinitive form alongside a finite verb of the same root The function of this construction has generally been understood as serving to provide some kind of emphasis However neither translations nor grammars are consistently able to

explain what is being emphasized by the use of this construction This volume which is a revision of the author's Ph D dissertation at the Johns Hopkins University 2006 examines the tautological infinitive construction in Classical Biblical Hebrew that is the Hebrew written during the First Temple Period more or less equivalent to the material in Genesis 2 Kings excluding P in order to give a coherent and consistent explanation of its function In a final chapter Kim discusses the use of the tautological infinitive in Classical Biblical Hebrew in relation to its use in non Classical biblical texts and Semitic languages in order to set it in a broader context In Pursuit of Meaning Baruch A. Levine, 2011-06-23 In a career spanning almost five decades Baruch Levine's numerous publications reflect his wide ranging interests and areas of expertise in the study of the Hebrew Bible the ancient Near East and early Judaism In Pursuit of Meaning brings together 51 of the most important articles that Professor Levine produced during his years at Brandeis University 1962-69 and New York University 1969-2000 emeritus 2000 The first volume containing 27 articles focuses on the study of religion in the biblical and ancient Near Eastern worlds from a number of perspectives ranging from close philological analysis of written sources to anthropological studies of ancient cultic practices In the 24 articles of the second volume Levine engages broader aspects of ancient Near Eastern society from legal institutions of various types to larger societal forms of organization This volume also contains some of his more incisive lexicographical and philological contributions to the study of the Hebrew and Aramaic languages The flavor of Prof Levine's work is captured in this paragraph from his introduction to these two volumes Looking back and reviewing my writings I realize what it is that I have been seeking all along I have been in pursuit of meaning employing scholarly methods primarily philology and semantics to the exegesis of ancient Near Eastern texts preserved in several languages principally the Hebrew Bible I regard language as the key to meaning This conclusion would appear to be self evident and yet philology is often sidelined in favor of engaging larger frameworks Most of all I challenge the notion that we already know the meaning of the words and clauses central to the texts under investigation and may proceed directly to other considerations without first re-examining the smaller units Again and again that policy has resulted in flawed interpretation and in missed opportunities for learning This is not to say that scholars should stop at the smaller units and indeed the tendency to do so has been largely responsible for the reaction against Semitic philology so noticeable since the latter part of the 20th century It is our challenge to move outward from focal points to the circumference from text to context from content to structure *The Development of the Biblical Hebrew Vowels* Benjamin Suchard, 2019-09-24 The Development of the Biblical Hebrew Vowels investigates the sound changes affecting the Proto Northwest Semitic vocalic phonemes and their reflexes in Tiberian Biblical Hebrew Contrary to many previous approaches Benjamin Suchard shows that these developments can all be described as phonetically regular sound laws This confirms that despite its unique transmission history Hebrew behaves like other languages in this regard Many Hebrew sound changes have traditionally been explained as reflecting non phonetic conditioning These include the Canaanite Shift of tonic and pre-tonic

lengthening diphthong contraction Philippi's Law the Law of Attenuation and the apocope of short unstressed vowels By reconsidering reconstructions and re evaluating phonetic conditions this work shows how the Biblical Hebrew forms regularly derive from their Proto Northwest Semitic precursors

Semitic Words in Egyptian Texts of the New Kingdom and Third Intermediate Period James E. Hoch, 2014-07-14 Semitic words and names appear in unprecedented numbers in texts of the New Kingdom the period when the Egyptian empire extended into Syria Palestine In his book James Hoch provides a comprehensive account of these words their likely origins their contexts and their implications for the study of Egyptian and Semitic linguistics and Late Bronze and Iron Age culture in the eastern Mediterranean Unlike previous word catalogs this work consists of concise word studies and contains a wealth of linguistic lexical and cultural information Hoch considers some five hundred Semitic words found in Egyptian texts from about 1500 to 650 b c e Building on previous scholarship he proposes new etymologies and translations and discusses phonological morphological and semantic factors that figure in the use of these words The Egyptian evidence is essential to an understanding of the phonology of Northwest Semitic and Hoch presents a major reconstruction of the phonemic systems Of equal importance is his account of the particular semantic use of Semitic vocabulary in contexts sometimes quite different from those of the Hebrew scriptures and Ugaritic myths and legends With its new critical assessment of many hotly debated issues of Semitic and Egyptian philology this book will be consulted for its lexical and linguistic conclusions and will serve as the basis for future work in both fields Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Early History of God Mark S. Smith, 2002-08-03 Foreword by Patrick D Miller In this remarkable acclaimed history of the development of monotheism Mark S Smith explains how Israel's religion evolved from a cult of Yahweh as a primary deity among many to a fully defined monotheistic faith with Yahweh as sole god Repudiating the traditional view that Israel was fundamentally different in culture and religion from its Canaanite neighbors this provocative book argues that Israelite religion developed at least in part from the religion of Canaan Drawing on epigraphic and archaeological sources Smith cogently demonstrates that Israelite religion was not an outright rejection of foreign pagan gods but rather was the result of the progressive establishment of a distinctly separate Israelite identity This thoroughly revised second edition of *The Early History of God* includes a substantial new preface by the author and a foreword by Patrick D Miller

"I Undertook Great Works" Douglas J. Green, 2010 Traditionally scholars study ancient Near Eastern royal inscriptions to reconstruct the events they narrate In recent decades however a new approach has analyzed these inscriptions as products of royal ideology and has delineated the way that ideology has shaped

their narration of historical events This ideologically sensitive approach has focused on kings accounts of their military campaigns This study applies this approach to the narration of royal domestic achievements first in the Neo Assyrian inscriptional tradition but especially in nine West Semitic inscriptions from the 10th to 7th centuries B C E and describes how these accounts also function as the products of royal ideology **The Provenance of Deuteronomy 32** Paul

Sanders,2021-11-15 This study offers an extensive survey of previous literature dealing with the provenance of the song in Deuteronomy 32 a renewed discussion of its text and language as well as an analysis of its poetic structure with the help of a new method The author tests the tenability of older theories and proposes a new theory based on systematic research into the intertextual links with other parts of the Hebrew Bible and extra biblical literature of the Ancient Near East Separate sections are dedicated to the song s descriptions of the relationship between YHWH and the gods and to the identity of the hostile people to which the song refers The author concludes that a pre exilic date is extremely likely for the song in its entirety **You Shall Have No Other Gods: Israelite Religion in the Light of Hebrew Inscriptions** Jeffrey H

Block,1998-06-19 This work completes Daniel Block s two volume commentary on the book of Ezekiel The result of twelve years of studying this difficult section of Scripture this volume like the one on chapters 1-24 provides an excellent discussion of the background of Ezekiel and offers a verse by verse exposition that makes clear the message of this obscure and often misunderstood prophet Block also shows that Ezekiel s ancient wisdom and vision are still very much needed as we enter the twenty first century **Sefer Moshe: The Moshe Weinfeld Jubilee Volume** Chaim Cohen,Avi M. Paul,2004-06-30 Moshe Weinfeld s contributions to the study of the Bible and its literature as well as the social and political situation of the Bible in its ancient Near Eastern context are well known In this volume 35 colleagues and students contribute essays organized according to four subjects 1 Exegetical and Literary Studies on the Bible 2 Studies on Biblical Hebrew History and Geography 3 Ancient Near Eastern and Amarna Studies and 4 Studies on Qumran Post biblical Judaism and the Jewish Medieval Commentaries A bibliography and biography of the honoree round out the volume
