Dell Mavia Johnson Walters,2020-03-09 The Anatomy of Man and the Body of Christ is an in depth analysis of the relationship between the natural body and the spiritual body Ms Walters having had a career as a Registered Nurse draws from her knowledge of the physical body of a human being and under the inspiration of the Holy Spirit aligns each organ with its counterpart in the spiritual body Christ being the Head The book gives us keen insight into the craftsmanship of God when He artfully and intricately formed man and emphasizes the connectivity and inter dependency of the organs on each other Ms Walters directs her readers to consider carefully their importance and relevance to the Church which together represents the Body of Christ

Nature's God and the Nature of Man Joel R. Baseley,2024-12-26 Nature's God and the Nature of Man presents nature and the nature of man as God's Word the Holy Bible reveals it in Genesis 1:3 The author's recent translating project in Johann Arndt's True Christianity especially his Book 4 treating God's revelation in nature provided him a helpful pre enlightenment world view of God's revealing Himself in nature in stark contrast and opposition to the bold modern assertion by many that science has proven there is no God The children of this divorce of Dame Science from God leaves children confused for whom this book might be a mediation and some comfort 445 pages soft cover

The Original Sin and Human Diseases Hanna Rizk Wannas MD FRCS ED FICS,2014-01-30 This text is unique it is the first book of its kind that challenges the theory of evolution by the word of God In the text it will be proved beyond doubt that the word of God is powerful with a two edged sword It divides asunder and exposes the counterfeit and the false Not only that but it proves the validity of the arguments by using medical and surgical studies of the patient's ailments The author is a scientist and a surgeon He studied anatomy and embryology in full details that makes him argue with confidence The doctrine of creation has a solid foundation which is the true word of God The author used the results of surgical procedures that are done by spiritual knowledge compared to others done by natural man whose knowledge is based on the theory of evolution These have changed the procedures from difficult and complicated to a single day procedure with financial gains to

the patient and to the public The relation between sin diseases and death is studied and proved beyond doubt The salvation by justification sanctification and righteousness is explained and also proved beyond doubt Man is created and evolved to a higher degree of holiness by the working power of the Holy Spirit contrary to evolution by genetic mutation and natural selection that might promote the man to a high intellectual standard but this usually brings low moral value with it that at the end lead to death from moral decay alcoholism and drug addiction The evolution is produced by knowledge and experience and it carries with it away from God all the destructive elements to humans *WHEN THE ANGEL SPEAKS, LISTEN*

,Mara-Yanka,2024-10-29 When the Angel Speaks Listen is an inspiring book that tells us God has not abandoned us He loves us God knows we sin and now is the time we as sinners need to know that we learn to love with a pure heart We learn to listen to the words of faith salvation and love We learn about the saints who hear our prayers the angels who guide us and many prayers that give us hope There are poems that inspire us quotes that tell of truth and narration that tells stories with divine words from the angel of the Lord God **Man's Fate and God's Choice** Bhimeswara Challa,2021-06-29 Stagnate as a creepy caterpillar or transform into a beautiful butterfly this path breaking book of a rare genre suggests is the seminal choice before mankind and every one of us In this setting the book raises some fundamental questions What is man's rightful place in the cosmos and his manifest destiny on earth Why are we so self-righteously self-destructive Are we a doomed species Or divine beings struggling to overcome the hubris of the human intellect Is God getting weary of mankind How should we synergize human effort and Divine Grace The book posits that any betterment in human behavior needs a cathartic change at the deepest levels That requires diluting the dominance of the mind and reawakening the long dormant intelligence of the human heart To meet that challenge we need minimum numbers a critical mass to create self-sustained momentum for transformation through consciousness change And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species-scale difference The book offers a menu of ideas and an agenda of action This book could be itself become an input to mobilize that very critical mass it advocates for human transformation Well planned and cohesively written the book is noteworthy for its delightful blend of information and arguments and reveals the depth of the author's understanding of the human predicament This is a closely argued and thought-provoking book The Hindu 13 Sept 2011 This book is a gripping exposition on human nature and self-transformation without preference to religion Challa has critically provided a foundational argument for a deeper discussion of philosophical and practical ideals concerning self-transformation harmonizing the head and the heart is the way for humans to function as spiritual beings Recommended by the USSR The US Review of Books The author reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness The strength of this treatise is the sweep of Challa's reach and his treatment of a vastly complex set of issues that bedevil humankind today India International Center Quarterly Summer 2012 As a thinker and

erudite scholar the author has made a profound study of the world situation and the moral decadence of man This book deserves to be on the shelves of university college and public libraries Triveni Magazine July Sept 2011 It is difficult to pigeon hole this book as a prophetic discourse a journey into the human mind a guide for human survival a spiritual treatise It is an amalgam of all these and more the volume reaches out to those who are already uneasy about the way we on this earth are progressing The Book Review India June 2013

THE FORSAKEN ROOT Trevtee, 2024-04-16 The whole idea behind this book is to accomplish two things 1 bring God into the hearts and minds of people those who have not yet formed a relationship with him and 2 introduce some of the great works of God in literary form Though the book was written to attract readers of all ages it is important to use it as a tool to groom the young most of whom find it difficult to understand the Bible or do not read it at all The book is presented in an orderly manner with a tight interweaving between all sections so when someone reads the book he she will find it to be cohesive reader friendly and at the same time interesting that they will feel compelled to reread the book over and over again Personally my favorite sections are sections 4 and 13 Is God Really as Great as They Say and Road to the Future What I like about section 4 is it describes through the book of Job the immense power of God his omnipotence and what I like about section 13 is it describes the tree of our life and highlights some of the conflicts being wrestled in present day American life and it provides a vision for the future But there are other sections that readers will greatly appreciate because of the information they provide e g Creation of Man Higher Order Fruits of the Holy Spirit Faith and Fear I define this book as one that is power packed
