Robertson,2021-08-12 Building on critical work in biblical studies which shows how a historically bounded heretical tradition called Gnosticism was invented this work focuses on the following stage in which it was essentialised into a sui generis universal category of religion At the same time it shows how Gnosticism became a religious self identifier with a number of sizable contemporary groups identifying as Gnostics today drawing on the same discourses This book provides a history of this problematic category and its relationship with scholarly and popular discourse on religion in the twentieth century It uses a critical historical method to show how and why Gnosis Gnostic and Gnosticism were taken up by specific groups and individuals practitioners and scholars at different times It shows how ideas about Gnosticism developed in late nineteenth and twentieth century scholarship drawing from continental phenomenology Jungian psychology and post Holocaust theology to be constructed as a perennial religious current based on special knowledge of the divine in a corrupt world David G Robertson challenges how scholars interact with the category Gnosticism and contributes to our understanding of the complex relationship between primary sources academics and practitioners in category formation

The Karma of Untruthfulness: v. 1 Rudolf Steiner,2016-11-21 Although these lectures were given during 1916 they have much to teach us about the political spin media distortions propaganda and downright lies we encounter on a daily basis in public life Rudolf Steiner s calm and methodological approach penetrates the smokescreen of accusations and counterclaims of illusion and untruth surrounding the Great War Hiding behind this fog and under the guise of outer events he reveals the true spiritual struggle that is taking place His words give a deeper understanding of the politics and world conflicts that confront us today through the filter of the media In the midst of the turmoil of the First World War Steiner speaks out courageously against the hatred and untruthfulness in the propaganda of the time From his detailed research into the spiritual impulses of human evolution he describes the dominant role secret brotherhoods played in the events culminating in the cataclysmic war and warns that the retarding forces of nationalism must be overcome if Europe is to find its new destiny He also emphasizes the urgent need for new social structures if further catastrophes are to be avoided At a time when political events throughout the world are moving with breathless rapidity the reader will find much in these lectures that will

illuminate what lies behind the symptoms of our turbulent times This new edition reproduced in a larger format is put in a modern context and introduced by Terry Boardman **The Real H.P. Weor,2025-02-01 The Revolution of Beelzebub tells the incredible story of Samael Aun Weor and his efforts to convert the demon Beelzebub Beginning in the ancient past this incredible journey takes us from the cradle of humanity Arcadia the ancient golden age through the rise and fall of races and civilizations We learn how the ancient prince Beelzebub was tempted into the path of pleasures and vices and how he gradually degenerated to eventually become a terrible demon with millions of disciples Along the way we see the differences between the white and black paths their ethics rituals magic initiations powers and results all of which were first revealed to the public in this book Then during World War Two a time when demonic forces were threatening to overrun the world one man disrupted their plans by helping one of their greatest leaders to defect Beelzebub It was an unprecedented act of love and an inspiration for if even a demon from the depths of hell can be saved there is hope for the rest of us provided we are willing to do our part Our hope for liberation comes in the form of practical steps the same steps taken by Beelzebub when he left the Black Lodge which are explained in detail in this book Through radical internal change a psychological and spiritual revolution even a demon can be converted into an angel
