The Angry Summer A Poem Of 1926:

The Angry Summer Idris Davies, 1943 **Letters of T. S. Eliot Volume 10: 1942-1944** T. S. Eliot, 2025-07-29 What is accomplished by this sort of cultural warfare is impossible to say but it is a part of total warfare which one must as an individual accept one's part in. At the height of the Second World War T. S. Eliot commits himself to fighting for the cultural values of Europe. He goes on a lecture tour of Sweden, he writes talks for the BBC, he reads poems for the Czechoslovak Centre for Aid to Russia and for the French in Britain. Funded, he lectures on The Music of Poetry in Glasgow, addresses the Classical Association, talks at the Moot and visits organisations including the Anglo-Swedish Society and the British Norwegian Institute and he works for the Christian News Letter. He serves as President of the English Circle of Books Across the Sea and as first President of the Virgil Society. He feels exhausted by travel and performance but remains stalwart. And always there is the threat in London: he has no regular habitation of being bombed. I have taken to sleeping in my teeth. Contacts and correspondents during these dark days include the film director George Hollering for whom he struggles to adapt his play *Murder in the Cathedral*. Kenneth Clark, Henry Moore, David Jones, William Empson, Mary Trevelyan, Karl Mannheim, Louis MacNeice, Elizabeth Bowen, M. J. Tambimuttu, Edith Sitwell and Reinhold Niebuhr. Notable poets recruited to the Faber fold include Lawrence Durrell, Anne Ridler and Norman Nicholson. Eliot's own creative energies are focused on completing *Little Gidding*, the final poem of the supernal sequence *Four Quartets*. The series of letters to John Hayward who advises him is a tour de force of the art, full of news, merriment and mischief.

The Dragon Has Two Tongues Glyn Jones, 2018-05-15 First published in 1968 *The Dragon Has Two Tongues* was the first book-length study of the English language literature of Wales. Glyn Jones 1905-95 was one of Wales's major English language writers of fiction and poetry and the book includes chapters dealing with the work of Dylan Thomas, Caradoc Evans, Jack Jones, Gwyn Thomas and Idris Davies, all of whom the author knew personally. This first-hand knowledge of the writers coupled with the shrewdness of Glyn Jones's critical comments established *The Dragon Has Two Tongues* as a classic and invaluable study of this generation of Welsh writers. It also contains Glyn Jones's own autobiographical reflections on his life and literary career, his loss and rediscovery of the Welsh language and the cultural shifts that resulted in the emergence of a distinctive English language literature in Wales in the early decades of the twentieth century. This edition of *The Dragon Has Two Tongues* was edited by Tony Brown who discussed the book with Glyn Jones before his death in 1995 with unique access to the author's proposed revisions and manuscript drafts and it was first published by the University of Wales Press in 2001.

Bob Dylan and Dylan Thomas Jeff Towns, K. G. Miles, 2022-08-16 There are so many strange and wonderful connections and coincidences, shared passions and associations that tie these two cultural icons, BOB DYLAN and DYLAN THOMAS, together. This provides a rich tapestry from the ancient Welsh folk tales of the Mabinogion to the poems of the Beat Generation, from Stravinsky to John Cale, from Johnny Ray to Charlie Chaplain, Rimbaud and Lorca, Sgt. Pepper and The Beatles, Nelson Algren and Tennessee Williams.

Labour and the Countryside Clare V. J. Griffiths, 2007-05-10 The common reputation of the British Labour Party has always been as a thing of the town an essentially urban phenomenon which has failed to engage with the rural electorate or identify itself with rural issues Yet during the inter war years Labour viewed the countryside as a crucial electoral battleground even claiming that the party could never form a majority administration without winning a significant number of seats across rural Britain Committing itself to a series of campaigns in rural areas during the 1920s and 30s Labour developed a rural and often specifically agricultural programme on which to attract new support and members Labour and the Countryside takes this forgotten chapter in the party's history as a starting point for a fascinating and wide ranging re examination of the relationship between the British Left and rural Britain The first account of this aspect of Labour's history this book draws on extensive research across a wide variety of original source material from local party minutes and trade union archives to the records of Labour's first two periods in government Historical literary and visual representations of the countryside are also examined along with newspapers magazines and propaganda materials In reconstructing the contexts within which Labour attempted to redefine itself as a voice for the countryside the resulting study presents a fresh perspective on the political history of the inter war years

The Cambridge History of Welsh Literature Geraint Evans, Helen Fulton, 2019-04-18 This book is a comprehensive single volume history of literature in the two major languages of Wales from post Roman to post devolution Britain

Looking Out Peter Lord, 2023-07-06 The six sequential essays in this collection provide a narrative of a century and a half of Welsh painting written with an emphasis on issues of social class and national identity Through his earlier writing Peter Lord has contributed to the establishment of an historical tradition of Welsh painting but because it does not feature in the wider story of Western art history as presently told the work revealed continues to be perceived as marginal existing in isolation from ideas and movements in other countries These essays break new ground by discussing the concerns of Welsh painters not only in domestic terms but also in the context of the ways in which artists in other parts of Europe and in the United States reacted to the common underlying causes of those concerns The author challenges the idea that the work of Welsh painters is relevant only to the evolution of their own communities and through confident and detailed analysis validates their pictures also in terms of the arts of other Western cultures

Italians in Wales and their Cultural Representations, 1920s-2010s Bruna Chezzi, 2015-11-25 Italian immigrants began to settle in Wales at the turn of the 19th century opening hundreds of coffee shops particularly in the South Wales Valleys Despite this such immigrants remain a largely unexplored case study in the history of Italian

immigration to the UK This book uses a variety of unexplored sources and engages with the broader academic debate on migration identity and the trans generational transmission of memory to describe the emergence of Welsh Italian narratives and the formation of a distinctive yet complex Welsh Italian identity It follows a chronological journey moving from the interwar period a time in which Italians in Wales were generally regarded as fully established and integrated through to the Second World War a time when Italian identity became problematic and resulted in nearly seventy years of silencing up until the first decade of the 21st century where a mixture of commemorative events and cultural initiatives prompted the emergence of Welsh Italian narratives The book begins by studying photographic representations of Italians in Wales during the interwar period using photographs available in local history books private collections and history books The analysis of the photographic material draws from the work of scholars such as Sontag Noble Hirsh and Bate on photo textual analysis to show how photographs can reveal understudied yet important aspects of Italian migrant identity and of the relationship with the host community in the period that preceded the Second World War The book then examines how the events of the Second World War destabilised the images of family sociability and integration suggested by these photographs and how such events aggravated tensions between host and migrant cultures It continues by investigating recent Welsh Italian texts where in revisiting the past and the experience of their ancestors the authors bring different circumstances and personal factors into play determining the degree to which they reconcile their dual identity It concludes with a comparison between these narratives of belonging and the representation of the Italian migrant experience in Anglo Welsh literature

New Territories in Modernism Laura Wainwright, 2018-03-15 Until very recently Welsh literary Modernism has been critically neglected both within and outside Wales This is the first book devoted solely to the study of Welsh literary Modernism revealing and examining eight key Anglophone Welsh writers Laura Wainwright demonstrates how their linguistic experimentation constituted an engagement with the unprecedented linguistic social and cultural changes that were the making of modern Wales and formed the crucible for the emergence of a distinct Welsh Modernism This study of Welsh Modernism challenges conventional literary histories and in more than one sense takes Modernism and Modernist studies into new territories
