The Argentine Crisis at the Turn of the Millennium Flavia Fiorucci, Marcus Klein, 2004 **European Review of Latin American and Caribbean Studies** ,2007 **The Middle Classes in Latin America** Mario Barbosa Cruz, A. Ricardo López-Pedrerós, Claudia Stern, 2022-07-13 As a collective effort this volume locates the formation of the middle classes at the core of the histories of Latin America in the last two centuries Featuring scholars from different places across the Americas it is an interdisciplinary contribution to the world histories of the middle classes histories of Latin America and intersectional studies It also engages a larger audience about the importance of the middle classes to understand modernity democracy neoliberalism and decoloniality By including research produced from a variety of Latin American North American and other audiences the volume incorporates trends in social history cultural studies and discursive theory It situates analytical categories of race and gender at the core of class formation This volume seeks to initiate a critical and global conversation concerning the ways in which the analysis of the middle classes provides crucial re readings of how Latin America as a region has historically been understood **Aconcagua** Joy Logan, 2011-11-01 Aconcagua is the highest mountain in the Americas and the tallest mountain in the world outside of the Himalayas Located in the Andes Mountains of Argentina near the city of Mendoza Aconcagua has been luring European mountain climbers since 1883 when a German geologist nearly reached the mountain's summit A Swiss climber finally made the ascent in 1897 In this fascinating book Joy Logan explores the many impacts of mountaineering's discovery of Aconcagua including its effect on how local indigenous history is understood The consequences still resonate today as the region has become a magnet for adventure travelers with about 7 000 climbers and trekkers from all over the world visiting each year Having done fieldwork on Aconcagua for six years Logan offers keen insights into how the invention of mountaineering in the nineteenth century and adventure tourism a century later have both shaped and been shaped by local and global cultural narratives She examines the roles and functions of mountain guides especially in regard to notions of gender and nation re reads the mountaineering stories forged by explorers scientists tourism officials and the gear industry and considers the distinctions between foreign and Argentine climbers some of whom are celebrities in their own right In Logan's revealing analysis Aconcagua is emblematic of the tensions produced by modernity nation building tourism development and re ethnification The evolution of mountain climbing on Aconcagua registers seismic shifts in attitudes toward adventure the national and the global With an eye for detail and a flair for description Logan invites her readers onto the mountain and into the lives it supports **Rethinking Testimonial Cinema in Postdictatorship Argentina** Veronica Garibotto, 2019-01-07 For roughly two decades after the collapse of the military regime in 1983 testimonial narrative was viewed and received as a privileged genre in Argentina Today however academics and public intellectuals are experiencing memory fatigue a backlash against the concepts of memory and trauma just as memory and testimonial films have reached the center of Argentinian public discourse In *Rethinking Testimonial Cinema* in

Postdictatorship Argentina Verónica Garibotto looks at the causes for this reticence and argues that rather than discarding memory texts for their repetitive excess it is necessary to acknowledge them and their exhaustion as discourses of the present. By critically examining how trauma theory and subaltern studies have previously been applied to testimonial cinema, Garibotto rereads Argentinian films produced since 1983 and calls for an alternate interpretive framework at the intersection of semiotics, theories of affect, scholarship on hegemony and the ideological uses of documentary and fiction. She argues that recurrent concepts such as trauma, mourning, memory and subalternity miss how testimonial films have changed over time, shifting from subaltern narratives to official hegemonic and iconic accounts. Her work highlights the urgent need to continue to study these types of narratives, particularly at a time when military dictatorships have become entrenched in Latin America and memory narratives proliferate worldwide. Although Argentina is Garibotto's focus, her theory can be adapted to other contexts in which narratives about recent political conflicts have shifted from alternative versions of history to official hegemonic accounts, such as in Spanish, Chilean, Uruguayan, Brazilian, South African and Holocaust testimonies. Garibotto's study of testimonial cinema moves us to pursue a broader ideological analysis of the links between film and historical representation. *CEDLA Annual Report* Centrum voor Studie en Documentatie van Latijns Amerika (Amsterdam, Netherlands), 2005

The Flight of the Shepherd Arij Ouweneel, 2005. Three lines of argument are developed in this book. The first discusses the prospects of microhistory as an instrument for uncovering the relationship between culture and the personal experience of an individual in historical documents. The second follows its theoretical underpinnings, arguing in clinical terms what may look like thick theorization to many historians and ethnohistorians, that in our contemporary academics only cognitive science can be the leading approach to answer the question of the relationship between culture and an individual's experiences. Cognitive science studies internal mental processes like memory, attitudes, motivation and reflection. It has shown that the brain's guesses of what is happening around it are based on an extensive unconscious system of conceptual metaphor that is part of our everyday conceptual systems and that can be thought of as a kind of language of the unconscious. The third argument brings the others together in the specific case of conscious dreaming as can be recognized in the documents of Mexican cult leader Anton the Shepherd and his movements from 1759-61. In particular, it interprets a flight to Purgatory, one of Anton's experiences. The unfolding of the three arguments intertwined as they are, eventually should help to deepen the understanding of the ways in which Anton the Shepherd operated within the eighteenth-century Central Mexican colonial milieu, with his experiences in Purgatory illustrating the cultural resilience of Amerindian peoples in the region. *British Bulletin of Publications on Latin America, the Caribbean, Portugal and Spain*, 2003

Latin American Reactions to the Argentine Crisis ,1945 **The Anatomy of a Multiple Crisis** Guillermo Perry, 2001 **The Anatomy of a Multiple Crisis** Guillermo E. Perry, 2016 The Argentine crisis has been variously blamed on fiscal imbalances real overvaluation and self fulfilling investor pessimism triggering a capital flow reversal Perry and Servén provide an encompassing assessment of the role of these and other ingredients in the recent macroeconomic collapse They show that in the final years of convertibility Argentina was not hit harder than other emerging markets in Latin America and elsewhere by global terms of trade and financial disturbances So the crisis reflects primarily the high vulnerability to disturbances built into Argentina's policy framework Three key sources of vulnerability are examined the hard peg adopted against optimal currency area considerations in a context of wage and price inflexibility the fragile fiscal position resulting from an expansionary stance in the boom and the pervasive mismatches in the portfolios of banks borrowers While there were important vulnerabilities in each of these areas neither of them was higher than those affecting other countries in the region and thus there is not one obvious suspect But the three reinforced each other in such a perverse way that taken jointly they led to a much larger vulnerability to adverse external shocks than in any other country in the region Underlying these vulnerabilities was a deep structural problem of the Argentine economy that led to harsh policy dilemmas before and after the crisis erupted On the one hand the Argentine trade structure made a peg to the dollar highly inconvenient from the point of view of the real economy On the other hand the strong preference of Argentinians for the dollar as a store of value after the hyperinflation and confiscation experiences of the 1980s had led to a highly dollarized economy in which a hard peg or even full dollarization seemed reasonable alternatives from a financial point of view This paper a product of the Office of the Chief Economist Latin America and the Caribbean Region is part of a larger effort in the region to understand the causes of macroeconomic volatility
