The Art Of Failure Conrads Fiction:

The Art of Failure Suresh Raval, Taylor & Francis Group, 2022-05-05 Originally published in 1986 this is a powerful and original book. It offers textual interpretation of Conrad's major work and articulates the subtlety and richness of his treatment of social political institutions and of the forces that complicate and distort private and public life. Suresh Raval argues that the social personal relations in Conrad's fiction cannot be conceived apart from their existence in the political life of a community but at the same time they cannot be accommodated institutionally. The author's concern is with the problematic status of the self under various perspectives experience and understanding. *Heart of Darkness* an ethical ideal Lord Jim history *Nostromo* ideology *The Secret Agent* and *Under Western Eyes* scepticism *Victory*. What the self is remains ambiguous and elusive. Conrad's fiction is concerned with exhibiting the failure of language but always as a result of an immense effort of language itself. As language undoes itself in the act of seeking utterance so Conrad's fictional mode romance turns into the opposite of itself as it unfolds. Raval demonstrates that incompatible alternatives intention and action thought and experience the individual and the social the logical and the contingent are entangled with each other and how this entanglement works in the fiction. Raval's exploration of Conrad's scepticism shows why Conrad cannot be characterized as a political conservative or radical without distorting the complexity and seriousness of his reflection on society. For his scepticism is the product not just of intelligence but of intelligence conscious of its limitations and is thus able to make a devastating critique of the nihilism sometimes attributed to Conrad by critics. Only those who think that morality has to have a secure single foundation if it is to be real are pushed into regarding Conrad's scepticism as a form of nihilism. Professor Raval's important study brings philosophical and literary interests to bear on Conrad's major fiction and illuminates those aspects of his art which have puzzled and fascinated his readers. It will be deservedly valued by those studying and teaching modern literature.

Solitude Versus Solidarity in the Novels of Joseph Conrad Ursula Lord, 1998 A structural thematic and theoretical analysis of several selected novels of Thomas Hardy and Joseph Conrad based on ideas rooted in political theory sociology and philosophy. The author explores fiction from the years 1885-1905 in terms of critical and theoretical paradigms established by 19th and 20th century thinkers such as Darwin Weber Arendt Mannheim Marx and Lukacs. Annotation copyrighted by Book News Inc. Portland, OR. *Conrad's Fiction as Critical Discourse* Richard Ambrosini, 1991-07-26. Joseph Conrad's comments about his works have commonly been dismissed as theoretically unsophisticated while the critical notions of James Woolf and Joyce have come to shape our understanding of the modern novel. Richard Ambrosini's study of Conrad's *Fiction as Critical Discourse* makes an original claim for the importance of his theoretical ideas as they are formed tested and eventually redefined in *Heart of Darkness* and *Lord Jim*. Setting the narrator's discourse in these tales in the context of the dynamic interplay of Conrad's fictional with his non-fictional writings and of the transformations in his narrative forms Ambrosini defines Conrad's view of fiction and the artistic ideal underlying his commitment as a writer in a

new and challenging way Conrad's innovative techniques as a novelist are shown in the continuity of his theoretical enterprise from the early search for an artistic prose and a personal novel form to the later dislocations of perspective achieved by manipulation of conventions drawn from popular fiction. This reassessment of Conrad's critical thought offers a new perspective on the transition from the Victorian novel to contemporary fiction. *Joseph Conrad and the Fictions of Skepticism* Mark Wollaeger, 1990-11-01. You want more scepticism at the very foundation of your work. Scepticism the tonic of minds the tonic of life the agent of truth the way of art and salvation. Joseph Conrad wrote these words to John Galsworthy in 1901 and this study argues that Conrad's skepticism forms the basis of his most important works participating in a tradition of philosophical skepticism that extends from Descartes to the present. Conrad's epistemological and moral skepticism expressed forestalled mitigated and suppressed provides the terms for the author's rethinking of the peculiar relation between philosophy and literary form in Conrad's writing and more broadly for reconsidering what it means to call any novel philosophical. Among the issues freshly argued are Conrad's thematics of coercion isolation and betrayal the complicated relations among author narrator and character and the logic of Conradian romance comedy and tragedy. The author also offers a new way of conceptualizing the shape of Conrad's career especially the decline evidenced in the later fiction. The uniqueness of Conrad's multifarious literary and cultural inheritance makes it difficult to locate him securely in the dominant tradition of the British novel. A philosophical approach to Conrad however reveals links to other novelists notably Hardy Forster and Woolf all of whom share in the increasing philosophical burden of the modern novel by enacting the very philosophical issues that are discussed within their pages. Conrad's interest as a skeptic is heightened by the degree to which he resists the insights proffered by his own skepticism. The first chapter introduces the idea of the Conradian shelter and the next two use Schopenhauer to show how the language of metaphysical speculation in *Tales of Unrest* and *Heart of Darkness* spills over into a religious impulse that resists the disintegrating effect of Conrad's skepticism. The author then turns to Hume to model the authorial skepticism that in *Lord Jim* contests the continuing visionary strain of the earlier fiction and Descartes to analyze the ways in which Romantic vision is more stringently chastened by irony in *Nostromo* and *The Secret Agent*. The concluding chapter touches on several late novels before examining how competing models of political agency in Conrad's last great fiction of skepticism *Under Western Eyes* situate it somewhere between ideology critique and a mystified account of the exigencies of individual consciousness. *Unlikely Stories* Brian Richardson, 1997. This study brings together a number of related critical issues including the causal laws that attempt to govern fictional worlds the reader's implication in the causal dilemmas that confront major characters and the philosophical and ideological ascriptions of cause that are variously embodied interrogated or parodied. One of the most significant features of this study is its disclosure of just how fundamental and widespread causal issues are in complex narratives and how insistently they are thematized in twentieth century works.

Victorian Conversion Narratives and Reading Communities Emily Walker Heady,2016-03-03 Because Victorian authors rarely discuss conversion experiences separately from the modes in which they are narrated Emily Walker Heady argues that the conversion narrative became in effect a form of literary criticism Literary conventions in turn served the reciprocal function as a means of discussing the nature of what Heady calls the heart change Heady reads canonical authors such as John Henry Newman Charles Dickens Charlotte Bront George Eliot and Oscar Wilde through a dual lens of literary history and post liberal theology As Heady shows these authors question the ability of realism to contain the emotionally freighted and often jarring plot lines that characterize conversion In so doing they explore the limits of narrative form while also shedding light on the ways in which conversion narratives address and often disrupt the reading communities in which they occur **Joseph Conrad's Critical Reception** John G. Bachelors, Manhood, and the Novel, 1850-1925 Katherine V. Snyder, 1999-09-02 Katherine Snyder's study explores the significance of the bachelor narrator a prevalent but little recognised figure in premodernist and modernist fiction by male authors including Hawthorne James Conrad Ford and Fitzgerald Snyder demonstrates that bachelors functioned in cultural and literary discourse as threshold figures who by crossing the shifting permeable boundaries of bourgeois domesticity highlighted the limits of conventional masculinity The very marginality of the figure Snyder argues effects a critique of gendered norms of manhood while the symbolic function of marriage as a means of plot resolution is also made more complex by the presence of the single man Bachelor figures made moreover an ideal narrative device for male authors who themselves occupied vexed cultural positions By attending to the gendered identities and relations at issue in these narratives Snyder's study discloses the aesthetic and political underpinnings of the traditional canon of English and American male modernism **Joseph Conrad** Tim Middleton, 2013-05-13 The popular yet complex work of Joseph Conrad has
