Doctrine of Scripture Brad East,2021-08-27 When Holy Scripture is read aloud in the liturgy the church confesses with joy and thanksgiving that it has heard the word of the Lord What does it mean to make that confession And why does it occasion praise The doctrine of Scripture is a theological investigation into those and related questions and this book is an exploration of that doctrine It argues backward from the church s liturgical practice presupposing the truth of the Christian confession namely that the canon does in fact mediate the living word of the risen Christ to and for his people What must be true of the sacred texts of Old and New Testament alike for such confession and the practices of worship in which they are embedded to be warranted By way of an answer the book examines six aspects of the doctrine of Scripture its source nature attributes ends interpretation and authority The result is a catholic and ecumenical presentation of the historic understanding of the Bible common to the people of God across the centuries an understanding rooted in the church s sacred tradition in service to the gospel and redounding to the glory of the triune God The Inspiration and Authority of the Bible Benjamin

Breckinridge Warfield,2025-07-15T00:00:00Z If the Bible is written by fallible human beings how can its words convey divine revelation Perhaps the greatest challenge of Warfield s lifetime was the modernist skepticism of biblical inspiration and authority Warfield responded to modernist biblical critics by showing that intellect of the biblical authors not only remained fully operational and engaged but that God also worked through human words and texts to convey divine revelation *The Authority and Interpretation of the Bible* Jack Rogers,Donald K. McKim,1999-02-05 This book is a detailed and comprehensive study of attitudes toward biblical authority and interpretation held from the beginnings of the Christian era to the present day In clear and readable fashion the authors examine the writings of early church fathers the medieval exegetes and the leaders of the Protestant Reformation to locate the source of and refute the position of inerrancy
