Walāyah in the Fāṭimid Ismāʿīlī Tradition Elizabeth R. Alexandrin, 2017-07-19 Explores the relationship between revelation and reason in medieval Islamic intellectual history In this original study Elizabeth R Alexandrin examines the complex relationships that can be inscribed between medieval Ism l thought as an intellectual tradition with a devotional practice of reliance on the im m and as a politico esoteric system that redefined governance during the F imid caliphate in the eleventh century Alexandrin s work is a departure from recent Western scholarship that focuses on similarities among early Islamic traditions She argues instead that under the guidance of the F imid Ism l chief missionary al Mu ayyad f al D n al Sh r z d 1078 CE the concept of wal yah divine guidance became closely associated with religio political authority on the one hand and the perfection of the individual human being on the other By signaling and affirming how the F imid caliph im m s were the heirs of wal yah and by proposing new definitions of the seal of God s friends kh tim al awliy All h al Mu ayyad broadened the contexts of making esoteric knowledge public and shifted the apocalyptic frameworks of Islamic messianism
