The China Clipper, Pan American Airways and Popular Culture

Larry Weirather,2006-11-13 The Pan American clipper ships of the 1930s and 1940s were technological marvels of their time The years before World War II found the United States faced with international challenges of an economic as well as a military nature Aided by government regulations and contracts the Pan Am Clippers were for a time the only international craft to carry the U S flag Commercially they rivaled the comfort and popularity of passenger trains and luxurious cruise ships Militarily they were unmatched by anything the Germans Russians Italians or French could produce The only long range aircraft capable of carrying transoceanic payloads Clippers became instantly valuable with the onset of the war Marketed as the ultimate in commercial or military airfare these flying boats became as much an American icon as the Pan Am logo itself From the movie screen to the bookshelf this volume examines the multitude of ways in which the values inherent in Pan American Airways clipper ships played out in popular culture The book discusses the strategies Pan Am used to represent the clipper as a paragon of U S interests values and beliefs Mirroring the moods of the times the clipper became a consistent American icon being associated with the Statue of Liberty and the American eagle The main focus of the work is the variety of ways in which this iconographic status manifested itself through toys movies pulp fiction comic books and music Clipper influence is also examined in other unlikely places such as the name of an available car color car models restaurant menus and lounge names An appendix explains different models of the clipper flying boats

Great American

Hoteliers Stanley Turkel, 2009-09-16 During the thirty years prior to the Civil War Americans built hotels larger and more ostentatious than any in the rest of the world These hotels were inextricably intertwined with American culture and customs but were accessible to average citizens As Jefferson Williamson wrote in *The American Hotel* Knopf 1930 hotels were perhaps the most distinctively American of all our institutions for they were nourished and brought to flower solely in American soil and borrowed practically nothing from abroad Development of hotels was stimulated by the confluence of travel tourism and transportation In 1869 the transcontinental railroad engendered hotels by Henry Flagler Fred Harvey George Pullman and Henry Plant The Lincoln Highway and the Interstate Highway System triggered hotel development by Carl Fisher Ellsworth Statler Kemmons Wilson and Howard Johnson The airplane stimulated Juan Trippe John Bowman Conrad Hilton Ernest Henderson A M Sonnabend and John Hammons My research into the lives of these great hoteliers reveals that none of them grew up in the hospitality business but became successful through their intense on the job experiences My investigation has uncovered remarkable and startling true stories about these pioneers some of whom are well known and others who are lost in the dustbin of history
