The Early Work:

Double Binds: Existentialist Inspiration and Generic Experimentation in the Early Work of Jack Richardson Johan Callens, 2022-03-07 [The Earlier Work of Titian](#) Claude Sir Phillips, 2019-12-17 In *The Earlier Work of Titian* Claude Sir Phillips meticulously examines the formative years of one of the Renaissance's most celebrated painters Titian. This scholarly work delves into Titian's artistic evolution, analyzing specific paintings to elucidate his techniques and thematic preoccupations during his early career. Written in a lucid and engaging style, Phillips synthesizes art historical methods with a deep appreciation for the socio-political climate of 16th-century Venice, thereby situating Titian within the broader currents of Renaissance art. The book is enriched by archival research and critical interpretation, making it an essential resource for understanding Titian's foundational contributions to the art world. Claude Sir Phillips, an eminent art historian and curator, has dedicated much of his career to studying Renaissance art with a particular focus on Venetian masters. His in-depth knowledge of Titian's oeuvre, coupled with access to rare documents and artworks, has profoundly informed his insights into the painter's early influences and development. This expertise, derived from both academic inquiry and practical experience in art curation positions Phillips as a leading authority on the subject. Readers are encouraged to explore *The Earlier Work of Titian* as it not only provides a compelling analysis of Titian's formative years but also serves as a valuable introduction to the intricate tapestry of Renaissance art. From students of art history to seasoned scholars, this book invites all to appreciate the brilliance of Titian's early masterpieces and their lasting impact on the art world.

The Early Muslim Tradition of Dream Interpretation John C. Lamoreaux, 2002-05-02 Explores dream interpretation among the early Muslims who saw dreams as a type of prophecy **The History of Painting from the Fourth to the Early Nineteenth Century** Richard Muther, 1907

Christian Origins and the Establishment of the Early Jesus Movement Stanley E. Porter, Andrew W. Pitts, 2018-08-07 *Christian Origins and the Establishment of the Early Jesus Movement* explores the events, people, and writings surrounding the founding of the early Jesus movement in the mid to late first century. The essays are divided into four parts focused upon the movement's formation, the production of its early Gospels, description of the Jesus movement itself, and the Jewish mission and its literature. This collection of essays includes chapters by a global cast of scholars from a variety of methodological and critical viewpoints and continues the important *Early Christianity in its Hellenistic Context* series.

Kierkegaard in France: A History of Reception and Influence, 2025-11-27 Why does Kierkegaard's thought remain vital in French philosophy and theology? *Kierkegaard in France* traces the dynamic evolution of Kierkegaard's reception from the early 20th century to contemporary debates on faith, ethics, and individuality. His influence on French thought is examined anew with regard to well-known thinkers like Jean-Paul Sartre, Jacques Derrida, and Paul Ricœur, as well as readings that have largely been overlooked, like those by Simone de Beauvoir and Vladimir Jankélévitch. From existentialism and phenomenology to poststructuralism and feminism, Kierkegaard continues to be an essential interlocutor in shaping the

continental tradition of thought in France There is a natural affinity between Kierkegaard's uniquely intense subjectively involved metaphysical realism and the French spiritualist tradition which eschews both idealism and reductive empiricism This book brings out that affinity and displays it in all the variety of its manifestations both religious and secular both speculative and existentialist An indispensable and monumental entry for scholars and intriguing read for a wider audience Catherine Pickstock Norris Hulse Professor of Divinity University of Cambridge Aquinas's Summa Theologiae and Eucharistic Sacrifice in the Early Modern Period Reginald M. Lynch, Reginald M Lynch O P, 2024-03-24 A study of the reception history of Thomas Aquinas's account of eucharistic sacrifice during the sixteenth and early seventeenth centuries

Quality in the Early Years Emma Slaughter, 2016-05-16 The term quality is frequently used in early years practice both in professional discussions and in key policy and literature but often without question or an agreed understanding of what quality is and as though it is an entirely unproblematic concept Through a series of inspiring and thought provoking chapters this book supports you in considering and developing your own notion of quality early years practice across a broad range of key strands of early years provision from the environment to policies from work with vulnerable children and babies to curriculum and research This book helps you to construct your own idea of quality and challenges you to develop your own understanding through stimulating discussion and reflection points A key argument is that whilst there are several indicators and measures of quality there is no one universally agreed definition of quality in early years provision and hence developing your own notion of quality and working towards that with others is paramount Key features include Consideration of what quality looks like within a contemporary early years landscape How you might deliver quality practice when other influences might appear to hinder or contradict this Reflection points to help you embed and link your learning to practice A graduated approach for a greater depth of engagement with the topic and relevant literature With each chapter written by an early years expert Quality in the Early Years is a vital companion for those studying towards any early years qualification as well as established practitioners and leaders within the field

The Great Beginning of Cîteaux Konrad (Abbot of Eberbach), 2012 In the closing decades of the twelfth century the Cistercian Order found itself in a world rather different from the one in which it had been founded and began to thrive The Order was justifiably proud of its achievements and unparalleled diffusion across Europe It had become an important ecclesiastical and economic power in Europe and developed an institutional structure meant to sustain a large widespread organization Yet it had lost its influential spokesman Bernard of Clairvaux and as the century drew to a close religious sensibilities were changing The new mendicant orders the Franciscans and the Dominicans and the impulses they embodied were to shift the center of gravity in Christian religious life for centuries to come *Department of Defense Appropriations for 1986: Secretary of Defense and Chairman, Joint Chiefs of Staff* United States. Congress. House. Committee on Appropriations. Subcommittee on Department of Defense, 1985
