Parallel Universe Sonya Davies, 2012-10 Chronic Fatigue and Fibromyalgia in adolescence are insidious diseases they steal hope perspective and time sadly the medical profession has a huge divergence of opinion on the illness the causes and the cure there just seems to be no definitive answers The despair that this causes is deep and searing This book is about one woman's fight to restore her daughter to health when diagnosed with these diseases It charts the many professionals that the family saw to try to find a cure for their daughter Many of the health professionals dismissed the illness believing it to be a disease of malingerers This lack of understanding of this illness and its origins is one of the defining reasons for writing this book Sufferers need to understand that they are not alone and that there is hope and that this illness is serious and is a real illness it is not psychosomatic it is not psychiatric it is a physical illness that has real symptoms and there is hope that you can put together some treatment options that may help them Claudia was 13 years old when her body just seemed to run out of energy It had been a gradual process but with the start of high school and all of the changes that happened at that time

the key triggers of this horrific illness were masked. It wasn't until she passed out that the extent of the problem really became very very obvious. Sonya Davies is the author and she lives in Melbourne Victoria with her husband of 20 years Mark and her 4 children. A professional woman who has worked in Marketing for 35 years she had a varied and interesting career full of travel and many diverse and interesting experiences she always felt that she was very fortunate. She was not prepared when her 13 year old daughter Claudia passed out in her walk in ward robe and started to suffer seizures. Claudia spiralled very quickly over a period of 5 months into being seriously unwell being unable to walk wheel chair bound using a toilet and shower stool and needing to be carried everywhere. She was 5 foot 5 and weighed 40 kilos. Sonya was beside herself her life as she had known it stopped she could not work she could not leave her daughter alone. She was desperate to get help. She thought she could get some answers from Doctors or a specialist and they would tell her what to do. Imagine her shock when every test that they did came back normal while her daughter kept getting more and more unwell. That was when the family entered the parallel universe. This universe operates next to but separate from the real universe. This universe is inhabited by the chronically ill looking for treatments for health issues for which medical professionals have no answers. She had never felt such despair or realised that such despair was possible for her. She is a positive can do woman every adversity has an answer you just have to connect the dots. Her daughter was sick she could not believe that she could not find a person to fix her. But every corner I turned every doctor or health professional I took her to could not help. I got nowhere I hit brick wall after brick wall. My daughter was spiralling into very poor physical condition and suffering deep despair as she was constantly being told that she was hysterical and that this condition was psychosomatic. She is a very intelligent girl and does not have a hysterical bone in her body. So telling her it was all in her head her body had turned on pain signals and would not turn them off just made her feel more and more inadequate obviously she had done something to make this happen. The family saw over 50 health professionals all offering other similarly unhelpful suggestions. Well not suggestions pronouncements they all pronounced something and sent them home in agony with no help and no idea where to get help. Their daughter was unable to sleep had muscles that got harder and tighter in her arms and

Nature Cure Henry Lindlahr, 1919 **How and When to Be Your Own Doctor** Lisa Bright, 2021-02-04 Do you know why you get sick Would you know how to take care of a simple acne breakout on your face This e book covers in a simple and didactic way the whole process of getting sick and taking care of yourself before you need to see a real doctor The great maxim We are what we eat is still valid Therefore you must learn how to feed yourself fast and feed yourself and learn about the foods that can heal you and make you sick Here you will learn among other things about Extending Life with the right foods Diet for a long life Diet for a healthy person Diet for acute disease Food to cure chronic diseases Diet for chronic disease Foods in the order of digestive difficulty Diets for healing people in critical condition Combination foods and Healthy Junk food And much more When my health began to slip I went looking for a cure Up to that time the only use I d had for doctors was to fix a few traumatic injuries The only preventative health care I concerned myself with was to take a multivitamin pill during those rare spells when I felt a bit run down and to eat lots of vegetables So I d not learned much about alternative health care Naturally my first stop was a local general practitioner MD He gave me his usual half hour get acquainted checkout and opined that there almost certainly was nothing wrong with me I suspect I had the good fortune to encounter an honest doctor because he also said if it were my wish he could send me around for numerous tests but most likely these would not reveal anything either More than likely all that was wrong was that I was approaching 40 with the onset of middle age I would naturally have more aches and pains Take some aspirin and get used to it was his advice It ll only get worse Not satisfied with his dismal prognosis I asked an energetic old guy I knew named Paul an 80 something homesteader who was renowned for his organic garden and his good health Paul referred me to his doctor Isabelle Moser who at that time was running the Great Oaks School of Health a residential and out patient spa nearby at Creswell Oregon Dr Moser had very different methods of analysis than the medicos was warmly personal and seemed very safe to talk to She looked me over did some strange magical thing she called muscle testing and concluded that I still had a very strong constitution If I would eliminate certain bad foods from my diet eliminate some generally healthful foods that unfortunately I was allergic to if I would reduce my alcohol intake greatly and take some food supplements then gradually my symptoms would abate With the persistent application of a little self discipline over several months maybe six months I could feel really well again almost all the time and would probably continue that way for many years to come This was good news though the need to apply personal responsibility toward the solution of my problem seemed a little sobering But I could also see that Dr Moser was obviously not telling me something So I gently pressed her for the rest A little shyly reluctantly as though she were used to being rebuffed for making such suggestions Isabelle asked me if I had ever heard of fasting Yes I said I had

Once when I was about twenty and staying at a farm in Missouri during a bad flu I actually did fast mainly because I was too sick to take anything but water for nearly one week Why do you ask I demanded If you would fast you will start feeling really good as soon as the fast is over she said Fast How long Some have fasted for a month or even longer she said Then she observed my crestfallen expression and added Even a couple of weeks would make an enormous difference It just so happened that I was in between set up stages for a new mail order business I was starting and right then I did have a couple of weeks when I was virtually free of responsibility I could also face the idea of not eating for a couple of weeks Okay I said somewhat impulsively I could fast for two weeks If I start right now maybe even three weeks depending on how my schedule works out So in short order I was given several small books about fasting to read at home and was mentally preparing myself for several weeks of severe privation my only sustenance to be water and herb tea without sweetener And then came the clinker Have you ever heard of colonics she asked sweetly Yes Weird practice akin to anal sex or something Not at all she responded Colonics are essential during fasting or you will have spells when you ll feel terrible Only colonics make water fasting comfortable and safe Then followed some explanation about bowel cleansing and another little book to take home and soon I was agreeing to get my body over to her place for a colonic every two or three days during the fasting period the first colonic scheduled for the next afternoon I ll spare y *The New curative treatment of disease v. 1* M.
