complexity of interests is involved Even when reduced to most general categories they comprehend those of the users of the transportation service of the owners of the railroad properties and of the employees engaged in the performance of transportation tasks While each of these interests must be adequately safeguarded the public stake in the proper functioning of the transportation industry transcends them all Justice once wrote Dean Roscoe Pound is the ideal compromise between the activities of each and the activities of all in a crowded world About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
