The Amish Landscape:

The Amish Landscape Robert Holman, 1993-02-01 **The Amish Landscape** Sarah Miller, 2022-03-16 Emma works tirelessly for an Englisher clothing factory but she's barely making ends meet. The only thing that makes her happy is painting. It's her passion but is it vain and does it go against the Ordnung? Blacksmith Jesse King is new to Faith's Creek and is settling in if only the women of the community would stop trying to court him. One day he spots a lovely young woman walking with her hands full of painting supplies. When she drops everything he offers to help and give her a ride home. Jesse is intrigued by Emma's sad eyes and beautiful paintings. He wants to figure out why she's sad and is determined to help. Emma fears she will have to marry. She always dreamed of marrying for love but perhaps it's not in Gott's plan. Can Jesse convince Emma that Gott gifted her with a talent that should be admired? Will Emma admit her feelings for Jesse or allow her lack of self-confidence to get in the way? Find out if Jesse and Emma get a happily ever after in Bestselling Amish Romance Sarah Miller's new release.

Architecture and Landscape of the Pennsylvania Germans, 1720-1920 Sally McMurry, Nancy Van Dolsen, 2011-03-08 The phrase Pennsylvania German architecture likely conjures images of either the continental three room house with its huge hearth and five plate stoves or the huge Pennsylvania bank barn with its projecting overshoot. These and other trademarks of Pennsylvania German architecture have prompted great interest among a wide audience from tourists and genealogists to architectural historians, antiquarians and folklorists. Since the nineteenth century scholars have engaged in field measurement and drawing, photographic documentation and careful observation resulting in a scholarly conversation about Pennsylvania German building traditions. What cultural patterns were being expressed in these buildings? How did shifting social, technological and economic forces shape architectural changes? Since those early forays, our understanding has moved well beyond the three room house and the forebay barn. In *Architecture and Landscape of the Pennsylvania Germans 1720-1920* eight essays by leading scholars and preservation professionals not only describe important architectural sites but also offer original interpretive insights that will help advance understanding of Pennsylvania German culture and history. Pennsylvania Germans' lives are traced through their houses, barns, outbuildings, commercial buildings, churches and landscapes. The essays bring to bear years of field observation as well as engagement with current scholarly perspectives on issues such as the nature of ethnicity, the social construction of landscape and recent historiography about the Pennsylvania Germans. Dozens of original measured drawings appearing here for the first time in print document important works of Pennsylvania German architecture including the iconic Bertolet barns in Berks County, the Martin Brandt farm complex in Cumberland County, a nineteenth century Pennsylvania German house, mill and urban houses in Lancaster.

The American Landscape Stephen F. Mills, 2013-12-19 American landscapes are some of the best known images in the world we recognize: Niagara Falls, the Grand Canyon, the Manhattan skyline and the streets of San Francisco in a thousand advertisements and TV shows. But how have these places come to be as they are and why are some

places familiar while others are quite unknown The American Landscape introduces the reader to the changing face of the American environment tracing the way in which the present array of forests and farms parks and superhighways cities and suburbs have come about and how these changes have been thought about painted turned into movie sets etc *Ethnic Landscapes of America* John A. Cross,2017-06-19 This volume provides a comprehensive catalog of how various ethnic groups in the United States of America have differently shaped their cultural landscape Author John Cross links an overview of the spatial distributions of many of the ethnic populations of the United States with highly detailed discussions of specific local cultural landscapes associated with various ethnic groups This book provides coverage of several ethnic groups that were omitted from previous literature including Italian Americans Chinese Americans Japanese Americans and Arab Americans plus several smaller European ethnic populations The book is organized to provide an overview of each of the substantive ethnic landscapes in the United States Between its introduction and conclusion which looks towards the future the chapters on the various ethnic landscapes are arranged roughly in chronological order such that the timing of the earliest significant surviving landscape contribution determines the order the groups will be viewed Within each chapter the contemporary and historical spatial distribution of the ethnic groups are described the historical geography of the group s settlement is reviewed and the salient aspects of material culture that characterize or distinguish the group s ethnic landscape are discussed *Ethnic Landscapes of America* is designed for use in the classroom as a textbook or as a reader in a North American regional course or a cultural geography course This volume also can function as a detailed summary reference that should be of interest to geographers historians ethnic scholars other social scientists and the educated public who wish to understand the visible elements of material culture that various ethnic populations have created on the landscape

Pennsylvania Farming Sally McMurry,2017-06-08 Since precolonial times agriculture has been deeply woven into the fabric of Pennsylvania s history and culture *Pennsylvania Farming* presents the first history of Pennsylvania agriculture in more than sixty years and offers a completely new perspective Sally McMurry goes beyond a strictly economic approach and considers the diverse forces that helped shape the farming landscape from physical factors to cultural repertoires to labor systems Above all the people who created and worked on Pennsylvania s farms are placed at the center of attention More than 150 photographs inform the interpretation which offers a sweeping look at the evolution of Pennsylvania s agricultural landscapes right up to the present day **Geography of Time, Place, Movement and Networks, Volume 2** Stanley D. Brunn,2024-05-23 This book explores journeys in a time context with a focus on places place meanings and landscapes Whether the journey relates to ancient or modern trails roads or railroads or a historical or contemporary pilgrimage or a tourist venture in social contexts the book addresses the importance of places and environmental settings whereby time itself is described and defined in multiple contexts The chapters discuss among others archaeological and pre history settings tourism settings and heritage events as well as regional and transnational migration routes and those used by historical

nomadic cultures and postmodern nomads Some time and place journeys are fluid and dynamic and re interpreted while for others there is much sameness in the visible landscapes Retaining the past and reconstructing the past are both journeys That sameness concept is also applied to cultural and political worlds where there is little progress or reform to address social welfare and empowerment This book opens the door for exploring shallow and deep journeys by those in the humanities and social sciences at local national and regional scales **A Thousand Pieces of Paradise** Lynne

Heasley,2012-04-19 A Thousand Pieces of Paradise is an ecological history of property and a cultural history of rural ecosystems set in one of the Midwest s most historically significant regions the Kickapoo River Valley Whether examining the national war on soil erosion Amish migration a Corps of Engineers dam project or Native American land claims Lynne Heasley traces the history of modern American property debates Her book holds powerful lessons for rural communities seeking to reconcile competing values about land and their place in it **The Polish Religious Landscape of Portage and Marathon Counties, Wisconsin** Mary T. Wasilewski,2008 The Making of the American Landscape Michael P.

Conzen,2014-06-03 The only compact yet comprehensive survey of environmental and cultural forces that have shaped the visual character and geographical diversity of the settled American landscape The book examines the large scale historical influences that have molded the varied human adaptation of the continent s physical topography to its needs over more than 500 years It presents a synoptic view of myriad historical processes working together or in conflict and illustrates them through their survival in or disappearance from the everyday landscapes of today Dwell ,2001-04 At Dwell we re staging a minor revolution We think that it s possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines

Landscapes of Christianity Frederick A. Stoutland, Sr.,2006 A major shame in contemporary Christianity is the large number of ordinary Christians who are biblically illiterate This robs them of their inheritance as believers and makes their witness to others often weak In response Landscapes of Christianity unpacks the history and truths of our Faith logically and powerfully answering virtually every question ordinary church goers ask or are too embarrassed to ask for fear of being labeled ignorant of Scripture Already praised by leaders in churches across America this book offers a fascinating glimpse into God s redemptive plan for people discussing intelligently clearly and impartially the debated issues that have separated Christians for centuries Furthermore it addresses from the Bible some of the great issues of this day as they relate to homosexuality among the clergy abortion and the death of other innocents euthanasia and the relevance of Scripture in contemporary society John MacArthur world renowned Bible teacher says I am stunned at the excellence and comprehensiveness I can only pray that the Lord will find many uses for it Others call the book compelling and required reading for anyone who wants to have a fuller grasp of Christianity without denominational bias The Working Landscape

Peter F. Cannavo, 2007-06-22 In America today we see rampant development unsustainable resource exploitation and commodification ruin both natural and built landscapes disconnecting us from our surroundings and threatening our fundamental sense of place Meanwhile preservationists often respond with a counterproductive stance that rejects virtually any change in the landscape In *The Working Landscape* Peter Cannav identifies this zero sum conflict between development and preservation as a major factor behind our contemporary crisis of place Cannav offers practical and theoretical alternatives to this deadlocked polarized politics of place by proposing an approach that embraces both change and stability and unifies democratic and ecological values creating a working landscape Place Cannav argues is not just an object but an essential human practice that involves the physical and conceptual organization of our surroundings into a coherent enduring landscape This practice must balance development which he calls founding and preservation Three case studies illustrate the polarizing development preservation conflict the debate over the logging of old growth forests in the Pacific Northwest the problem of urban sprawl and the redevelopment of the former site of the World Trade Center in New York City Cannav suggests that regional democratic governance is the best framework for integrating development and preservation and he presents specific policy recommendations that aim to create a working landscape in rural suburban and urban areas A postscript on the mass exile displacement and homelessness caused by Hurricane Katrina considers the implications of future climate change for the practice of place

Common Landscape of America, 1580 to 1845 John R. Stilgoe, 1982-01-01 Looks at the ways Americans have altered the landscape from the arrival of early Spanish settlers to the beginning of the country's rapid urbanization

Under The Blade Thomas Lyson, 2018-05-04 *Under the Blade The Conversion of Agricultural Landscapes* examines the patterns causes and consequences of current land use decisions in the United States particularly the conversion of farmland to housing roads and other development Changes in land use are the result of complex interactions among law economics landscape characteristics social and political forces ethics and aesthetics By examining farmland loss from each of these perspectives and then integrating the results into policy recommendations *Under the Blade* makes an important contribution to the ongoing debate on the optimal use of a finite resource land In 1998 the last farm in Des Plaines Illinois was subdivided Seven acres along the Niobrara River in north central Nebraska sold for USD5700 per acre twenty times the price for agricultural use Waukesha County Wisconsin although still largely in agriculture has been almost entirely zoned for small lot subdivisions Nationwide the cumulative effect of thousands of individual land use decisions is an orgiastic devouring of the countryside that consumes at least 1.4 million acres of rural land each year and fragments a much larger area The effects on landscape functions include loss of agricultural production water pollution increases in local runoff and flooding loss of habitat and biodiversity and the loss of natural beauty In exchange we get malls retail strips and an ugly sprawl that degrades people and community How have we come to this and more importantly how might we find a better sustainable approach to the use of land Land use decisions are the result of complex interactions

among law economics landscape characteristics population growth social and political forces ethics and aesthetics Under the Blade The Conversion of Agricultural Landscapes examines the loss of farmland and other rural lands from each of these perspectives and shows how interactions among different factors greatly complicate sustainable land management Included throughout the seven main chapters of the book are descriptions of some of the tools and strategies that can be used to preserve farmland and guide development The application of these tools is illustrated by 22 case studies of towns and regions throughout the United States each with a somewhat different challenge response and degree of success or failure Dietrich Bonhoeffer a Protestant theologian hanged by the Nazis in 1945 stated that the ultimate test of a moral society is the kind of world that it leaves to its children Our current choices in the use of the land are among the most important factors shaping that future world and Under the Blade demonstrates that the quality of that future is far from certain *Sacred Worlds* Chris Park,2002-11-01 This book the first in the field for two decades looks at the relationships between geography and religion It represents a synthesis of research by geographers of many countries mainly since the 1960s No previous book has tackled this emerging field from such a broad interdisciplinary perspective and never before have such a variety of detailed case studies been pulled together in so comparative or illuminating a way Examples and case studies have been drawn from all the major world religions and from all continents from both a historical and contemporary perspective Major themes covered in the book include the distribution of religion and the processes by which religion and religious ideas spread through space and time Some of the important links between religion and population are also explored A great deal of attention is focused on the visible manifestations of religion on the cultural landscape including landscapes of worship and of death and the whole field of sacred space and religious pilgrimage **Landscapes of Fear** Yi-Fu Tuan,2013-04-01 To be human is to experience fear but what is it exactly that makes us fearful Landscapes of Fear written immediately after his classic Space and Place is renowned geographer Yi Fu Tuan s influential exploration of the spaces of fear and of how these landscapes shift during our lives and vary throughout history In a series of linked essays that journey broadly across place time and cultures Tuan examines the diverse manifestations and causes of fear in individuals and societies he describes the horror created by epidemic disease and supernatural visions of witches and ghosts violence and fear in the country and the city fears of drought flood famine and disease and the ways in which authorities devise landscapes of terror to instill fear and subservience in their own populations In this groundbreaking work now with a new preface by the author Yi Fu Tuan reaches back into our prehistory to discover what is universal and what is particular in our inheritance of fear Tuan emphasizes that human fear is a constant it causes us to draw what he calls our circles of safety and at the same time acts as a foundational impetus behind curiosity growth and adventure *The Unsettling of America* Wendell Berry,2015-09-15 Since its publication in 1977 The Unsettling of America has been recognized as a classic of American letters In it Wendell Berry argues that good farming is a cultural and spiritual discipline Today s agribusiness however takes farming out of its cultural

context and away from families As a result we as a nation are more estranged from the land from the intimate knowledge love and care of it Sadly his arguments and observations are more relevant than ever Although this book has not had the happy fate of being proved wrong Berry writes there are people working to make something comely and enduring of our life on this earth Wendell Berry is one of those people writing and working as ever with passion eloquence and conviction

Vernacular Buildings Allen Noble, 2013-11-27 Constancy permits the evolution of types and characteristics to be identified even in widely spread locations It helps trace the origins of structures despite later modifications And change allows one to trace the effects of difference in environment fashion cultural ideas and economic influences Change and constancy operate together although one may or other may dominate at a particular time and place In *Vernacular Buildings* Allen Noble extends the global survey contained in his earlier highly successful *Traditional Buildings* to cover vernacular buildings and dwellings around the world In a truly comprehensive account he ranges from the fazenda of the pioneer Brazilian settlers the Masai dwellings of Tanzania and the gothic houses of Shanghai to Virginia Hall and Parlor houses the thatched dwellings of the Eifel region of Germany and the three decker houses of New York Acknowledging the value of archival research the author is also firmly convinced of the importance of field observation and the book is extensively illustrated with photographs from his own personal collection With a comprehensive bibliography and incorporating new material from cultural geographers historians folklorists and anthropologists *Vernacular Buildings* is a unique survey that will be welcomed by specialists and enthusiasts alike

A Geography of Ohio Leonard Peacefull, 1996 A geographical and historical account of the evolution of Ohio Incorporating the 1990 census data and demographic information this work also includes an overview of current urban growth relating to prominent local industries
