Smith, 2023-11-02 This handbook provides detailed philosophical analysis of the life and thought of Socrates across fifteen in depth chapters Each chapter engages with a central aspect of the rich tradition of Socratic studies and after surveying the state of scholarship points the way forward to new directions of interpretation A leading team of scholars present dynamic readings of Socrates extracted from the historical context of Plato's dialogues covering elenchus irony ignorance definitions pedagogy friendship politics and the daemon Building on these core Socratic topics this edition includes new accounts of Socrates in the work of philosopher and historian Xenophon the comic playwright Aristophanes as well as important scholarship on topics such as emotions the afterlife motivational intellectualism and virtue intellectualism Fully revised and updated the Bloomsbury Handbook of Socrates elucidates the complex landscape of Socratic thought and interpretation The Encyclopædia Britannica Hugh Chisholm, 1910 **Theological Fringes of Phenomenology** Joseph Rivera, Joseph O'Leary, 2023-09-22 This book focuses on the relationships between phenomenology and theology which have been varied and complex but seem currently in an inconclusive and loosely defined state Methodological rigor is not much in evidence and the two disciplines continue to defy any authoritative synthesis While both disciplines grapple with questions concerning the fundamental structures of human

experience their relationship is troubled by the elusive roles of Revelation and faith which threaten the scientific autonomy of philosophy on one side and disable theologians for consistent philosophical discourse on the other This volume revisits that conundrum from various perspectives as it at once repristinates some of the most vibrant points of encounter and opens possibilities for new beginnings It begins with the theological musings into which leading phenomenologists have been drawn from the start with special reference to Husserl Heidegger and Michel Henry as well as backward glances to Fichte Schelling and Blondel A second section takes up specific theological themes and examines how phenomenological approaches can refine thinking on them These include the Incarnation the Resurrection the Eucharist Grace and Prayer A dialogue between phenomenology and classical theologians is staged in the third section Augustine Pseudo Dionysius Eckhart and Karl Rahner The closing section ranges more widely discussing atheism non realist theology and Hinduism from phenomenological angles and showing how these topics too come within the ambit of theology
