The Physics of Angels Rupert Sheldrake, Matthew Fox, 2014-10-21 Fox an Episcopal priest and Sheldrake a biologist create a profound and intelligent vision of angels for the next millennium *Struggles of Gods* Hans G. Kippenberg, 2019-07-22 No detailed description available for Struggles of Gods [Seeing Angels in the Shadow of Death](#) Ahud Sela, 2019-05-24 For anyone who has suffered loss or is facing a personal trial the pain can be overwhelming and you might feel at a loss as to where to look for healing From a young age I have wondered about the day that I will die and what my life will have meant At the age of twenty two I was confronted by death in the form of cancer and then again at age thirty three in the form of heart disease Those events helped clarify for me what direction my life should take but only with the help of other people my angels in the shadow of death They helped show me the light when all I saw was darkness And now I try to be an angel myself to help those who feel like they are living in death s dark shadow We should never have to suffer alone This is the story of my journey from illness to health from darkness to light and I hope that it brings healing and light to all who read it **Jewish Difference and the Arts in Vienna** Caroline A. Kita, 2019-02-14 During the mid 19th century the works of Arthur Schopenhauer and Richard Wagner sparked an impulse toward German cultural renewal and social change that drew on religious myth metaphysics and spiritualism The only problem was that their works were deeply antisemitic and entangled with claims that Jews were incapable of creating compassionate art By looking at the works of Jewish composers and writers who contributed to a lively and robust biblical theatre in fin de si cle Vienna Caroline A Kita shows how they reimagined myths of the Old Testament to offer new aesthetic and ethical views of compassion These Jewish artists including Gustav Mahler Siegfried Lipiner Richard Beer Hofmann Stefan Zweig and Arnold Schoenberg reimagined biblical stories through the lens of the modern Jewish subject to plead for justice and compassion toward the Jewish community By tracing responses to antisemitic discourses of compassion Kita reflects on the explicitly and increasingly troubled political and social dynamics at the end of the Habsburg Empire [New Testament Apocrypha: Writings relating to the Apostles; Apocalypses and related subjects](#) Wilhelm Schneemelcher, Robert McLachlan Wilson, 2003-01-01 Translation of Neutestamentliche Apokryphen **The Angel Oracle** Ambika Wauters, 1995-10-15 Angels appear in all cultures throughout the world Angel Oracle shows how to work with angels and their energy in everyday life and offers divinatory guidance on finding solutions to problems inner peace and healing as well as help in common dilemmas [The Arma Christi in Medieval and Early Modern Material Culture](#) Lisa H. Cooper, Andrea Denny-Brown, 2016-12-05 The Arma Christi the cluster of objects associated with Christ s Passion was one of the most familiar iconographic devices of European medieval and early modern culture From the weapons used to torment and sacrifice the body of Christ sprang a reliquary tradition that produced active and contemplative devotional practices complex literary narratives intense lyric poems striking visual images and innovative architectural ornament This collection displays the fascinating range of intellectual possibilities generated by representations of these

medieval objects and through the interdisciplinary collaboration of its contributors produces a fresh view of the multiple intersections of the spiritual and the material in the Middle Ages and Renaissance It also includes a new and authoritative critical edition of the Middle English Arma Christi poem known as O Vernicle that takes account of all twenty surviving manuscripts The book opens with a substantial introduction that surveys previous scholarship and situates the Arma in their historical and aesthetic contexts The ten essays that follow explore representative examples of the instruments of the Passion across a broad swath of history from some of their earliest formulations in late antiquity to their reformulations in early modern Europe Together they offer the first large scale attempt to understand the arma Christi as a unique cultural phenomenon of its own one that resonated across centuries in multiple languages genres and media The collection directs particular attention to this array of implements as an example of the potency afforded material objects in medieval and early modern culture from the glittering nails of the Old English poem Elene to the coins of the Middle English poem Sir Penny from garments and dice on Irish tomb sculptures to lanterns and ladders in Hieronymus Bosch s panel painting of St Christopher and from the altar of the Sistine Chapel to the printed prayer books of the Reformation
