The Fair and Equitable Treatment Standard in the International Law of Foreign Investment Ioana Tudor, 2008-03-13 The treatment of foreign investors and of their investments on the territory of a host State is often subject to a bilateral investment treaty BIT signed by the national State of the investors and the host State These BITs usually contain a clause in which the two States offer fair and equitable treatment FET to the foreign investors on their territory Moreover this clause has become a norm of customary law implying that investors may rely on it even outside the context of the BIT Foreign investors whose rights under this clause have not been respected may bring the State in front of an international tribunal This book analyses not only the conventional and customary framework of the FET clause but also its scope and all its applications in the existing case law This book tackles the standard of fair and equitable treatment by applying four conceptual frames the legal basis of FET its nature as a standard its content and finally the implications of its breach The first two chapters explore the two classical sources of international law as possible sources for FET The main sources of FET lie in a rich conventional framework mainly bilateral and regional Yet the high number of BITs does not appear to offer a uniform model of FET clauses quite the opposite the book offers a classification of the FET clauses found in more than 400 BITs Having concluded that the conventional framework is essential to FET the book turns to the examination of the possible customary character of FET and argues that the view equating FET with the International Minimum Standard is erroneous and it limits the scope of FET Alternatively it suggests that the FET standard is an independent standard of customary nature Then the book looks at the nature of FET that of being a standard and retains three direct consequences for its meaning its flexibility the absence of a fixed content and its evolutionary character With these three characteristics in mind it proceeds to the third conceptual framework the content of FET Although no fixed content may be given to it it identifies and develops each one of those situations in which the FET standard has already been applied Finally the last conceptual framework aims at discussing the final act of a FET claim i.e. the amount of compensation awarded It argues that FET is a standard which balances the interests and behaviours of both the States and the investors at the stage of

compensation Arbitration in Argentina Fabricio Fortese, 2020-11-17 This publication is the most comprehensive international book on arbitration in Argentina. It provides a complete description and analysis of the historical and contemporary structure of arbitration law and practice in the country which is based on the UNCITRAL Model Law. Its chapters are authored by many of the most regarded Argentine authorities, many of whom are responsible for drafting Argentina's current arbitration regulation. Throughout its thirty-one chapters, the book covers an ample number of topics in commercial and investment arbitration and an exhaustive analysis of arbitration in different specific fields: energy, sports, consumers, among others. Some of the topics addressed in this book include the following regulatory framework of arbitration in Argentina: arbitration agreements, arbitral proceedings, and the applicable law; issues of arbitrability; interim measures; costs and financing of arbitrations; validity, recognition, and enforcement of awards; arbitration and the MERCOSUR. This publication also includes some particular studies, for example, those related to the tensions between investment arbitration and human rights, as well as the relationship between the country and the ICC and the PCA. Although mainly focused in Argentina, the discussions contained in several contributions exceed such geographical boundaries. Given that the law and practice of arbitration in Argentina has seen remarkable changes in recent decades, this book is an essential tool for arbitrators, judges, in-house counsels, global law firms, large and medium-sized companies doing transnational business, interested academics, and international arbitration centres. Because this publication draws from the teachings and experience of leading academics and practitioners, arbitration specialists will find in it all the guidance needed to identify and assess the different theoretical and practical legal avenues available when working on arbitrations with a seat in Argentina or with an Argentine element.

The Principles of European Contract Law and Dutch Law: A Commentary Ewoud H. Hondius, H. J. Van Kooten, 2002-08-27 The topic of harmonisation of European private law and European contract law in particular is rapidly gaining in importance. The topic is not only widely studied by academics and students all over Europe and even beyond; it is also on the political agenda of the European Parliament, the European Commission, and the European Council. The most important achievement in this field is no doubt the Principles of European Contract Law (PECL) drafted by the Commission on European Contract Law. The European Commission considers the PECL to be a serious option for further harmonisation of European contract law within the European Union. This publication is the first to provide a systematic overview of the PECL in comparison with Dutch contract law as a whole. The book is concise and, because of its structure, it is easily accessible. Amongst the contributors, there are many highly distinguished contract law specialists. It may be used at universities in courses on Comparative Law, European Private Law, and European Contract Law. It may also be used by international practitioners, foreign students, and academics interested in Dutch contract law who do not have access to Dutch contract law because they have no knowledge of the Dutch language. Last but not least, the book will be of interest to all jurists interested in the harmonisation of the European Private Law. *Macedonia, Republic Company Laws and Regulations Handbook*
