The Arab Human Development Report 2003 Building A Knowledge Society:

The Arab Human Development Report 2003 Arab Fund for Economic and Social Development,2003 The Arab Human Development Report Series aims at building human development in the Arab world 2003 Report surveys the most salient trends that influenced the process of human development in 2002 2003 and provides a thorough analysis of one of the major challenges the Region faces its growing knowledge gap The Report evaluates the current production of knowledge examines the sociological context of knowledge acquisition and highlights the landmarks necessary to establish a knowledge based society in the Arab countries **The Arab Human Development Report 2003** ,2003 **Arab Human Development in the Twenty-first Century** Bahgat Korany,2014-10-01 With its emphasis on the primacy of change this study arrives at a particularly auspicious moment as the Middle East continues to be convulsed by the greatest upheavals in generations which have come to be known as the Arab Spring Originally prepared as the tenth anniversary volume of the UNDP s Arab Human Development Report Arab Human Development in the Twenty first Century places empowerment at the center of human development in the Arab world viewing it not only from the vantage point of a more equitable distribution of economic resources but also of fundamental legal educational and political reform The ten chapters in this book follow closely this political economy framework They look back at what Arab countries have achieved since the early 2000s and forward to what remains to be done to reach full development Supported by a wealth of statistical material they cover the rule of law the evolution of media the persistence of corruption the draining of resources through armed conflict the dominance and increase of poverty the environment and religious education The concluding chapter attempts an inventory of the world literature and different experiences on democratic transition to explore where the region could be heading This critical and timely study is indispensable reading to development specialists and to Middle East scholars and students alike as well as to anyone with an interest in the future trajectory of the region **Building knowledge societies in the Arab region** UNESCO Office Cairo and Regional Bureau for Science in the Arab States,2022-10-13 *Education for a Knowledge Society in Arabian Gulf Countries* Alexander W. Wiseman,Naif H. Alromi,Saleh A. Alshumrani,2014-03-10 This volume investigates the agendas and initiatives for using education to transition Gulf communities from being dependent on natural resources into knowledge societies This volume presents information case studies and empirical research about the development of information based economies across the Arabian Gulf as a whole America's War against Global Jihad William R. Nester,2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American

embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America s crusade against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington s counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just what of Muhammad s words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the specter of global Jihad against an array of other national security threats

North Africa Yahia H. Zoubir, Haizam Amirah-Fernández, 2008-01-15 This volume provides a comprehensive overview of the contemporary Maghreb It includes profiles of individual countries and regional issues such as migration gender economics and war in Western Sahara

Comics in Contemporary Arab Culture Jacob Høigilt, 2018-12-13 Comic books for adults have become one of the most novel and colourful forms of cultural expression in the Arab world today During the last ten years young Arabs have crafted stories explaining issues such as authoritarianism resistance war sex gender relations and youth culture These are distributed through informal channels as well as independent bookstores and websites Events like the annual Cairocomix festival in Egypt and the Mahmoud Kahil Award in Lebanon evidence the importance of this cultural phenomenon Comics in Contemporary Arab Culture focuses on the production of these comics in Egypt and Lebanon countries at the forefront of the development of the genre for adults Jacob Hoigilt guides the reader through the emergence of independent comics explores their social and political critique and analyses their visual and verbal rhetoric Analysing more than 50 illustrations included here he shows that Arab comics are revealing of the changing attitudes towards politics social relations and even language While political analysts often paint a bleak picture of the Arab world after 2011 this book suggests that art and storytelling continue to nourish a spirit of liberty and freedom despite political setbacks Comics in Contemporary Arab Culture provides a

Stability and Change in the Modern Middle East Kjetil Selvik, Stig Stenslie, 2011-01-30 In this ground breaking book aimed at new generation of students Stig Stenslie and Kjetil Selvik provide a new introduction to the contemporary Middle East using topical questions about stability and change as a way of interrogating the politics economics and history of the region How have regimes from North Africa to the Gulf perpetuated themselves in spite of the weakness of the Western style state the Islamist trend and the destabilising effects of war and terrorism What strategies have states used to control their societies and how have both states and societies adapted over time Both an accessible reference resource and a thought provoking analysis Stability and Change in the Modern Middle East introduces the key theoretical concepts for understanding the region and the freshest thinking on debates surrounding them and brings the empirical material in to sharp focus through its unique thematic approach **An Introduction to Intercultural Communication** Fred E.

Jandt, 2015-01-29 An Introduction to Intercultural Communication Identities in a Global Community prepares today's students to successfully navigate our increasingly global community Fred E Jandt introduces essential communication skills and concepts that will empower readers to interact successfully with different cultures and ethnic groups To spark student interest Jandt offers readers unique insights into intercultural communication at home and abroad through an emphasis on history culture and popular media Each chapter integrates material on social media as well as extensive new examples from recent international news and events Throughout the text Jandt reinforces the important roles that stories personal experiences and self reflection play in building our intercultural understanding and competence The Eighth Edition adds depth to the coverage of theory and includes two new features Focus on Skills provides expanded coverage of intercultural communication in practice while Focus on Technology illustrates the impact of new communication technology on intercultural encounters The new edition also introduces a new map program to provide students with additional context for discussion of cultures and regions across the globe Region-building Ludger Kühnhardt, 2010-07-01 After two centuries of nation building the world has entered an era of region building in search of political stability cultural cohesion and socio economic development Nations involved in the regional structures and integration schemes that are emerging in most regions of the world are deepening their ambitions with Europe's integration experience often used as an experimental template or theoretical model Volume I provides a political analytical framework for recognizing the central role of the European Union not only as a conceptual model but also a normative engine in the global proliferation of regional integration It also gives a comprehensive treatment of the focus motives and objectives of non European integration efforts Volume II offers a unique collection of documents that give the best available overview of the legal and political evolution of region building based on official documents and stated objectives of the relevant regional groupings across all continents Together

these volumes are important contributions for understanding the evolution of global affairs in an age when power shifts provide new challenges and opportunities for transatlantic partners and the world community The US Approach to the Islamic World in Post-9/11 Era Chintamani Mahapatra,2009 This book examines the United States foreign policies toward the Muslim world including actions taken against Islamic countries who attempted to challenge the United States regional dominance and alliances with Pakistan the United Arab Emirates and Saudi Arabia It focuses on how the U S has reconfigured its policy towards the radical and the conservative group of Muslim countries and how its new mission against terrorism has affected international relations particularly U S Indian relations Islamic revivalism the emergence of a highly political Islamic population the rise of terrorism and other recent socio political changes are also discussed **Harriet Beecher Stowe's "Uncle Tom's Cabin" in Arabic** Abeer Abdulaziz AL-Sarrani,2016-03-25 This book explores the challenges of cross cultural translation of American literary works into Arabic which I argue have prevented many nineteenth century literary works from being translated into Arabic I have used the Arabic translations of Harriet Beecher Stowe s Uncle Tom s Cabin and an abridged English text accompanying one of the translations as a case study Since most of the Arabic translations of English and especially American literary works are merely linguistic oriented ones I reinforce the importance of adopting a period specific cultural oriented approach that maintains the cultural context of American literary works including the historical cultural religious geopolitical and gender based elements during the literary translation into the Arabic culture I start with discussing the internationalization of American works and the importance of a cultural reading of these works Reviewing many translations of English and American works in general I categorize the challenges of cross cultural literary translation from English into Arabic into the following cultural religious geopolitical and gender based ones While I am not calling for accurate cross cultural literary translations since it is impossible however I am advocating for faithful translations which maintain the literary text s cultural and historical contexts The accuracy of a literary translation depends on the amount of linguistic skill a translator has while the faithfulness of a literary translation is based upon the translator s sincere effort to include the literary text s entire cultural context including the historical cultural religious geopolitical and gender based elements Using Uncle Tom s Cabin as a case study I discuss how the previous challenges had negatively affected the translation process of the work Despite the fact the work has been translated seven times into Arabic due to the linguistic oriented approach the historical and cultural significance of Stowe s novel has not yet been introduced to Arab readers through translation Due to the current era of globalization that demands individuals to have multicultural knowledge and understanding and due to the recent cultural and translation projects of literary works from English into Arabic this book reinforces the importance and possibility of addressing the cultural religious geopolitical and gender based challenges while using Uncle Tom s Cabin as an example **Bridges Burning** William K. Jr. Tell,William Tell, Jr.,2006-04 After decades of Politically Correct attitudes big government fixes culture wars and muddled foreign policy the U S finds

itself on the brink of what may become an historic decline from preeminence In addition recent trends and events such as globalism and the war on terror have created an environment for the U S which is increasingly more dangerous America was founded on the principles of democracy and freedom In the last half of the 20th century America forgot these important principles and allowed elements potentially dangerous to freedom and democracy to prevail What can citizens do to change this trend As the nation s social and political institutions are in peril of failure citizens must rise up and demand change Several areas are identified for reform including education the media and the political process Ready or not America s challenges of the 21st century must be addressed with an eye to both the future s perils as well as the Founders principles Further information and topical updates may be accessed at <http://bridgesburning.com>

Interpreting the Middle East David S. Sorenson, 2011-06 Contemporary approaches to comparative studies of the Middle East increasingly recognize how globalization and regional mass communication have blurred differences across countries Populations travel across national borders and compare narratives about political change economic futures and the role of the outside world in shaping their lives Organized by five principal themes of a regional overview politics political economy social contexts and the international dimensions of Middle East issues *Interpreting the Middle East* provides a vibrant introduction to the Middle East that is compatible with this regionalist perspective Invited authorities contribute insightful and accessible original discussions of headline fresh issues including the aftermath of the Iraq war Iran s regional ambitions developments in the Israeli Palestinian conflict and the global politics of Middle East oil as well as the Islamic awakening conflict in the Western Sahara civil military relations economic development political change and gender understandings Section introductions by the editor integrate the contributions and a glossary biographical list of key persons and chronology of significant events provide helpful guidance for readers

Critical Turning Points in the Middle East N. Al-Rodhan, G. Herd, L. Watanabe, 2011-04-28 This book takes a novel look at the modern Middle East through the prisms of six cascading negative critical turning points It identifies the seeds of a potential seventh in the collective dignity deficits generated by poor governance paradigms and exacerbated by geopolitical competition for the region s natural resources
