The Arabs David Lamb,2002-03-19 The Arabs is widely considered one of the essential books for understanding the Middle East and the peoples who live there David Lamb who spent years as a correspondent in Cairo explores the Arabs religious political and cultural views noting the differences and key similarities between the many segments of the Arab world He explains Arab attitudes and actions toward the West including the growth of terrorism and situates current events in a larger historical backdrop that goes back more than a thousand years Now thoroughly revised and updated The Arabs takes the story up to 2001 Lamb analyzes the developments that led to the attacks on the World Trade Center and the Pentagon and helps the reader to understand how things got to that point A veteran journalist Lamb combines his extensive experience in covering international politics with his deeply informed insider's knowledge to provide an intimate portrait of the Arab world today The Arabs in History Bernard Lewis,1967 This volume considers the achievement of the Arab peoples and their place in world history from pre Islamic times to the mid 1960s The author examines the awakening that accompanied the advent of Islam and the political religious and social developments that transformed the Arab kingdom into an Islamic empire He describes events in the Middle East and analyzes the forces internal and external that have shaped the Arab world He shows how Western inventions and institutions have shattered the old structures and the traditional way of life affecting every Arab and causing a still unsatisfied demand for social political and cultural renewal *Egypt, Islam, and the Arabs* I. Gershoni,James P. Jankowski,1986 In this study of the development of Egyptian nationalism during the early part of this century the authors argue that it was slow to evolve because Islam constituted both a religious and a political

community that did not recognize territorial boundaries *The Arabs & Africa* Khair El-Din Haseeb,2012-05-09 This set re issues 4 volumes originally published between 1985 and 1991 They Examine the historical process of social formation that gave rise to the communal consciousness of the Arab nation and determined its sense of identityPresent detailed analysis of resources in the Arab world including population employment oil and water suppliesDiscuss dimensions of Afro Arab co operation and the future of Afro Arab RelationsAnalyse the relations between state and society in the Arab World **The Queens of the Arabs During the Neo-Assyrian Period** Ellie Bennett,2024-05-03 The title Queen of the Arabs is applied in Neo Assyrian texts to five women from the Arabian Peninsula These women led armies offered tribute and held religious roles in their communities from 738 to approximately 651 BCE This book discusses what the title meant to the women who carried it and to the Assyrians who wrote about them Whereas previous scholarship has considered the Queens of the Arabs in relation to the military and economic history of the Neo Assyrian empire Eleanor Bennett focuses on identity using gender theory to locate points of the women s alterity in Assyrian sources and to analyze how Assyrian cultural norms influenced the treatment of the Queens of the Arabs This kind of analysis shows how Assyrian perceptions of the Queens of the Arabs and of Arabian populations more generally changed over time As the Queens of the Arabs were located on the periphery of the Assyrian Empire Bennett incorporates data from the Arabian Peninsula The shift from an Assyrian lens to an Arabian one highlights inaccuracies in the Assyrian material which brings into focus Assyrian misunderstandings of the region The Arabian Peninsula also offers comparative models for the Queens of the Arabs based on Arabian cultures **The Arabs and Arabia on the Eve of Islam** F.E. Peters,2017-09-29 This volume examines the background to the rise of Islam The opening essays consider the broad context of nomad sedentary relations in the Near East thereafter the focus is on the Arabian peninsula and the history of the Arab peoples The following papers set out the political and economic structures of the pre Islamic period and are concerned to trace the evolution of religious beliefs in the area looking in particular at the role of local traditions and the impact of Jewish and Christian influences The Arabs in Antiquity Jan Retso,2013-07-04 The history of the Arabs in antiquity from their earliest appearance around 853 BC until the first century of Islam is described in this book It traces the mention of people called Arabs in all relevant ancient sources and suggests a new interpretation of their history It is suggested that the ancient Arabs were more a religious community than an ethnic group which would explain why the designation Arab could be easily adopted by the early Muslim tribes The Arabs of antiquity thus resemble the early Islamic Arabs more than is usually assumed both being united by common bonds of religious ideology and law **The Legal Status Of The Arabs In Israel** David Kretzmer,2019-06-26 This study examines how the Israeli legal system copes with two major issues The first is the tension between the constitutional definition of Israel as both a Jewish state and a democracy committed to equal rights for all of its citizens The second issue is the delicate position of a national minority in a state that since its establishment has been involved in a bitter conflict with the Palestinian nation to which that minority belongs

Among the Arabs in Bible Lands Walter K. Ising, 1924 *The Arabs* Maxime Rodinson, 1981-07-15 *The Arabs* is an interpretative essay based upon a great deal of reading and research and like other writings of the author brilliant and insightful Rodinson's response to the question Who are the Arabs traces the career of the Arab people from their first appearance about twenty nine centuries ago up to the present day The purpose of the book is to make the reader aware of an undeniable Arab being of its historic performance and its contemporary situation on the basis of a scientifically careful but sympathetic study and statement Back cover **Byzantium and the Arabs in the Sixth Century** Irfan Shahîd, 1995 *Byzantium and the Arabs in the Sixth Century* is devoted to frontier studies and to the structures of the Arab federates of Byzantium It deals mainly with the Ghassanids of Oriens in the sixth century a time of transition from Late Antiquity to the Middle Ages The focus of this study is on the military religious and civil structures of the Ghassanids The detailed study of these buildings contributes to our understanding of Byzantine provincial art and architecture in Oriens as they were adopted by the federate Arabs and later adapted to their own use As monuments of Christian architecture these federate structures constitute the missing link in the development of Arab architecture in the region the link between the earlier pagan Nabataean and Palmyrene and later Muslim Umayyad **Rome and the Arabs** Irfan Shahîd, 1984 *The Arabs* played an important role in Roman controlled Oriens in the four centuries or so that elapsed from the Settlement of Pompey in 64 B C to the reign of Diocletian A D 284 305 In *Rome and the Arabs* Irfan Shahîd explores this extensive but poorly known role and traces the phases of the Arab Roman relationship especially in the climactic third century which witnessed the rise of many powerful Roman Arabs such as the Empresses of the Severan Dynasty Emperor Philip and the two rulers of Palmyra Odenathus and Zenobia Philip the Arab the author argues was the first Christian Roman emperor and Abgar the Great ca 200 A D was the first Near Eastern ruler to adopt Christianity In addition to political and military matters the author also discusses Arab cultural contributions pointing out the role of the Hellenized and Romanized Arabs in the urbanization of the region and in the progress of Christianity particularly in Edessa under the Arab Abgarids *The Arabs in Israel* Israel. Office of Information, 1952 *The Arabs* Arnold Hottinger, 2023-11-15 This searching study of the Arabs is the work of a well known Swiss writer and broadcaster who has spent a large part of his life amongst the people of the Middle East and has acquired an intimate knowledge of their language their history and literature their beliefs and their way of life Written with a burning sincerity and based upon a profound understanding of the ideals aspirations and achievements as well as the frailties mistakes and tribulations of a complex people Hottinger's book is without a doubt the most comprehensive and authoritative assessment of Arabism to date It is divided into two main parts The first of these traces the development of the Arab Islamic culture from the poetic tradition of the Beduins through Muhammad the dynasties of the Umayyads and Abbasids to its zenith as heir to the scientific spirit of the Greeks and its subsequent decline from that position The second part of the book discusses the impact upon the Arabs of nineteenth century European civilization and the machine age The author's method

here is to let the Arabs speak for themselves in their own words Thus the facts are vividly presented leaving the reader to draw his own conclusions The second part also describes and analyses the political upheavals in the Arab world in recent years and the crises that have accompanied the transition from dependence upon the colonial powers to Arab nationalism in the shadow of the Cold War It thus provides a most telling objective assessment of modern Egypt under Nasser Published under the auspices of the Near Eastern Center University of California Los Angeles This searching study of the Arabs is the work of a well known Swiss writer and broadcaster who has spent a large part of his life amongst the people of the Middle East and has acquired an intimate knowledge of their language their history and literature
