Ancient Arts of CENTRAL ASIA Tamara Talbot Rice, 1965 **The Social Role of Art and Culture in Central Asia** Aliya de Tiesenhausen, 2022-07-25 This collection of multi disciplinary essays offers a fresh perspective on Central Asian art and culture as it gains increased attention on both the local and international stage Influenced by the golden ages of its history from the ancient Scythians through the glory of the Persians and Turks and shaped by the Russian and later Soviet imperial powers the region is revealed as exotic dramatic and universally topical Contributions come from scholars and participants in the Central Asian cultural scene who specialise in different often isolated spheres Their unifying theme is identity and its formation including national ethnic cultural religious and gender identities Art and culture are shown to have active social roles representing analysing questioning and supporting social upheavals and change Culture is seen as an intrinsic part of society while being affected by the specific historical context it does at times affect it in return From major socio economic and political shifts to smaller yet not less potent personal and individual identities this collection demonstrates we are once again experiencing a time in which culture plays a crucial role in opening minds and facilitating change The chapters in this book were originally published as a special issue of Central Asian Survey *The Art of Central Asia* Miloš Hrbas, 1965 *The Art of Central Asia China and Tibet* , 2005 *The Art of Central Asia* , 1996 **Early Buddhist Art of China and Central Asia, Volume 2 The Eastern Chin and Sixteen Kingdoms Period in China and Tumshuk, Kucha and Karashahr in Central Asia (2 vols)** Marilyn Martin Rhie, 2019-07-15 Volume two of Marilyn Rhie s widely acclaimed and formative multi volume work presents a comprehensive scholarly and detailed study of the Buddhist art

of China and Central Asia from 316 439 A D during the formative early periods of Buddhism in the Eastern Chin and Sixteen Kingdoms Period Using texts translated from the Chinese together with stylistic and technical analyses the chronology and sources of the art are more clearly defined than in previous studies for the regions of South and North China other than Kansu and the important sites of Tumshuk Kucha and Karashahr on the Northern Silk Route in eastern Central Asia Furthermore by incorporating extensive religious and historical materials this work not only contributes to clarifying the regional characteristics of the art but also offers new insights into the broader interregional relationships of this politically fragmented period
