glimpse into modern cultural necessities and tendencies which can be seen in several aspects such as the hero's vulnerability the archetype's banalization the possibility to extend the heroic essence to individuals in search of identities vital as well as gender or class identities In some products videogames heavy metal music our research enables a deeper understanding of the hero's more obvious characteristics such as their physical and moral strength All these tendencies contemporary and consumable contradictory with one another yet vigorous above all acquire visibility by means of a polyhedral vehicle which is rich in possibilities of rereading and reworking the Greco Roman hero In such a virtual and postmodern world as the one we inhabit it comes not without surprise that we still resort to an idea like the hero which is as old as the West and Men Michael G. Cornelius, 2011-09-29 Few movie genres have highlighted the male body more effectively than the sword and sandal film where the rippling torso and the bulging muscle are displayed for all to appreciate Carrying his phallic sword and dressed in traditional garb calculated to bring attention to his magnificent physique the sword and sandal hero is capable of toppling great nations rescuing heroines defeating monsters and generally saving the day Each of these essays examines the issues of masculinity and utility addressed in the sword and sandal genre The contributors offer insights on a film form which showcases its male protagonists as heroic violent fleshy and in the end extremely useful Childhood... The Classics and Literature for Children and Young Adults ,2016-11-01 In The Classics and Children s Literature between West and East a team of contributors from different continents offers a survey of the reception of Classical Antiquity in children's and young adults literature by applying regional perspectives **Good Girls & Wicked** Witches Amy M. Davis, 2007-02-20 An in depth view of the way popular female stereotypes were reflected in and were shaped by the portrayal of women in Disney's animated features In Good Girls and Wicked Witches Amy M Davis re examines the notion that Disney heroines are rewarded for passivity Davis proceeds from the assumption that in their representations of femininity Disney films both reflected and helped shape the attitudes of the wider society both at the time of their first release and subsequently Analyzing the construction of mainly human female characters in the animated films of the Walt Disney Studio between 1937 and 2001 she attempts to establish the extent to which these characterizations were shaped by wider popular stereotypes Davis argues that it is within the most constructed of all moving images of the female form the heroine of the animated film that the most telling aspects of Woman as the subject of Hollywood iconography and cultural ideas of American womanhood are to be found A fascinating compilation of essays in which Davis examined the way Disney has treated female characters throughout its history PopMatters Handsome Heroes & Vile Villains Amy M. Davis, 2014-01-31 From dwarves to princes heroes to heartbreakers the Disney treatment of male characters in the studio s animated features One of PopSugar's Best Books for Women 2013 From the iconic Snow White and the Seven Dwarfs 1937 to Tangled the 2010 retelling of Rapunzel Handsome Heroes and Vile Villains looks at the portrayal of male characters in Disney films from the perspective of masculinity studies and feminist film theory This companion volume to Good Girls and Wicked

Witches places these depictions within the context of Hollywood and American popular culture at the time of each film s release Within her idealism and love for the House of the Mouse it seems Davis is on to something Whether idealistic or delusional the Disney she talks about seems to be a thing that s waiting just around the corner PopMatters Walt Disney and Europe Robin Allan,1999 Concentrating on the classic animated feature films produced under Walt Disney s personal supervision Robin Allan examines the European influences on some of the most beloved Disney classics from Snow White and the Seven Dwarfs to The Jungle Book This lavishly illustrated volume is based on archival research and extensive interviews with those who worked closely with Walt Disney Books In Print 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004
