Who are academic deans and what do they do What challenges do they face and what strategies do they use to meet these challenges What can universities do to help them become more effective Newly appointed academic deans often find themselves in key leadership roles with strained fiscal resources external accountability pressures dizzying technology and system demands and a rapidly shifting student demographic Previous training and experience as faculty is often not enough to prepare academic deans for surmounting these challenges Authors Mimi Wolverton Walter H Gmelch Joni Montex and Charles T Neils draw from their own experiences in higher education and their research at the Center for Academic Leadership at Washington State University to examine the evolving role of the academic dean and the profound external changes which are affecting the nature of deanship They present six specific strategies to meet the persistent challenges in funding diversity issues legal concerns technology demands ethical practices and achieving the balance between the personal and professional They also address the university's role in furthering the leadership abilities of its academic deans and examine successful practices in selection socialization development and evaluation Offering an effective strategy that moves deans as managers of day to day operations to deans as leaders of a dynamic environment this book is a valuable resource for academic deans at any stage of their career      College Deans Walter H. Gmelch, Mimi Wolverton, 2002-06-30 College Deans is based on the National Deans Survey which was sponsored by the Center for the Study of Academic Leadership and included 800 deans from all U S 4 year academic institutions The book consists of two main sections Deans Their Campuses and Colleges and Dimensions Duties and Challenges The first section describes the deanship in general the national study in particular and the background of current academic deans It then gives a profile of deans who they are and where they work The second section of the book discusses the position of dean itself This section looks at academic leadership in general and more specifically at what deans in this study believe were their primary roles and responsibilities where role ambiguity and conflict came into play and how they characterized stress and its relationship to job satisfaction In addition this section has a separate segment devoted to gender related issues and a final chapter that highlights the most pressing challenges deans see in the near future      **The Nursing Deanship** Ruby Marie Graf Salewski, 2002      **Resources in Education**, 1985      *The Behavioral Content of the Work of the Home Economics Dean* Mary Jo Czaplewski, 1981      The Academic Library in the American University Stephen E. Atkins, 2003      *Codes of Conduct in Academia* John M. Braxton, Nathaniel J. Bray, 2012-12-17 Chapters of this issue of *New Directions for Higher Education* present tenets of codes of conduct for the presidency academic deans admissions officers fund raising professionals faculty who teach undergraduate students and faculty who teach graduate students The need for such codes of conduct stems from the client serving role of colleges and

universities Such clients include prospective donors prospective students and their families the individual college or university faculty members undergraduate and graduate students and the knowledge base of the various academic disciplines Because presidents academic deans admissions officers fund raising professionals and faculty members experience role ambiguity and substantial autonomy in the performance of their roles codes of conduct are needed to protect the welfare of the clients served The authors offer recommendations for policy and practice regarding the proposed codes of conduct Organizational constraints and possibilities of enacting such codes are also discussed Higher Education: Handbook of Theory and Research John C.
