The Diplomats:

The Diplomats, 1919–1939 Gordon A. Craig, Felix Gilbert, 2021-05-11 This classic account of interwar diplomacy examines the curious fate of the diplomat the honest man sent to lie abroad for the good of his country in the capitals of a darkening Europe These men ambassadors in the field and officials in the Foreign Office worked against time in a world that witnessed the complete reorganization of the European system amid the onslaught of totalitarianism Leading experts investigate the diplomatic history of these years through the eyes of those entrusted with the extraordinarily delicate task of conducting the fateful negotiations that effect national policy Drawing on government archives European memoirs and diplomatic studies this book is both an absorbing history of twenty years of crisis and a searching analysis of the role of diplomacy in the modern age

The Diplomats, 1939–1979 Gordon A. Craig, Francis L. Loewenheim, 2019-01-15 This volume offers a unique perspective on a turbulent and dangerous age by focusing on the activities and accomplishments of its diplomats Its twenty three interconnected essays discuss the politics of ambassadors foreign ministers and heads of state from Acheson and Adenauer to Sadat and Gromyko as well as the special problems of the professionals in the foreign offices and the role of the media in modern diplomacy Among its contributors are such distinguished international scholars as Akira Iriye Michael Brecher Stanley Hoffmann W W Rostow and Norman Stone Expanding the field of inquiry covered by its acclaimed predecessor *The Diplomats 1919 1939* which concentrated on Europe and the coming of the Second World War these essays showcase the major diplomatic practitioners of the period against the broader background of the problems and crises that confronted them among others the Polish question at the end of World War II the onset of the Cold War the defeat of EDC in 1954 the Suez crisis Khrushchev's Berlin note in 1958 the Middle East War of 1967 and the oil shock of 1973 the Iranian revolution and the Soviet invasion of Afghanistan This account of the pendular swing from crisis and detente and back again is given a global perspective by careful treatment of the diplomacy of new nations like India Communist China and Israel and the transformation of the Middle East and Japan Among the new perspectives offered here are Geoffrey Warner's critical view of Ernest Bevin's attitude toward the United States John Lewis Gaddis's judgment of Henry Kissinger's detente policy W W Rostow's analysis of the diplomatic method of Paul Monnet Rena Fonseca's assessment of Nehru's policy of nonalignment Shu Guang Zhang's fresh look at the relationship between Zhou Enlai and Mao and Paul Gordon Lauren's critique of U N crisis management from Trygve Lie to Perez de Cuellar Highly original also are Steven Miner's portrait of Molotov Michael Brecher's pioneering study of the diplomacy of Abba Eban and James McAdams's analysis of German Ostpolitik Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published

by Princeton University Press since its founding in 1905 At Home with the Diplomats Iver B. Neumann, 2012-08-15 The 2010 WikiLeaks release of 250 000 U S diplomatic cables has made it eminently clear that there is a vast gulf between the public face of diplomacy and the opinions and actions that take place behind embassy doors In At Home with the Diplomats Iver B Neumann offers unprecedented access to the inner workings of a foreign ministry Neumann worked for several years at the Norwegian Ministry of Foreign Affairs where he had an up close view of how diplomats conduct their business and how they perceive their own practices In this book he shows us how diplomacy is conducted on a day to day basis Approaching contemporary diplomacy from an anthropological perspective Neumann examines the various aspects of diplomatic work and practice including immunity permanent representation diplomatic sociability accreditation and issues of gender equality Neumann shows that the diplomat working abroad and the diplomat at home are engaged in two different modes of knowledge production Diplomats in the field focus primarily on gathering and processing information In contrast the diplomat based in his or her home capital is caught up in the seemingly endless production of texts reports speeches position papers and the like Neumann leaves the reader with a keen sense of the practices of diplomacy relations with foreign ministries mediating between other people s positions while integrating personal and professional into a cohesive whole adherence to compulsory routines and agendas and above all the generation of knowledge Yet even as they come to master such quotidian tasks diplomats are regularly called upon to do exceptional things such as negotiating peace **Berlusconi 'The Diplomat'** Emidio Diodato, Federico Niglia, 2018-09-08 This book analyses the foreign policy of Silvio Berlusconi Italian media tycoon and politician who served as Prime Minister of Italy in four governments The authors examine the Italian position in the international arena and its foreign policy tradition as well as Berlusconi s general political stance Berlusconi s foreign policy strategies and the impact of those strategies in Italy Given that Berlusconi is considered a populist leader the volume considers his foreign policy as an instance of populist foreign policy an understudied but increasingly relevant topic

The Dative William van Belle, Willy van Langendonck, 1998-01-01 This book is the second part of a two volume reader on the Dative In the first part which appeared in 1996 eleven papers were presented providing a syntactic and semantic description of the category Dative in eleven languages The aim of this second part is to discuss several aspects of the Dative in greater detail It contains eight papers dealing with theoretical considerations on dativity as well as with contrastive typological and diachronic issues A major concern is the relation between form case grammatical relation and meaning semantic roles or other kinds of meaning Most contributions in this volume represent cognitive and functional views or a critical discussion of them As in the first volume the linguistic material mainly stems from Germanic and Romance languages Contemporary English is the basis for Davidse s theoretical claims Pasicki studies the dative in Old English Dutch appears especially in Geeraerts semantic analysis but also in the papers by Draye Lamiroy Delbecque and Van Langendonck Draye Lamiroy Delbecque and Melis also take German into consideration Latin is dealt with by Melis and Van Langendonck Modern

Romance languages especially French provide further data for Melis and Lamiroy Delbecque Finally Newman adduces a variety of languages for his typological analyses *The Diplomats* Geoffrey Moorhouse,1977 The author describes the culture operations and procedures of the British Foreign and Commonwealth Office having been given access to report from the inside in 1974 **The Syntax of Relative Clauses** Artemis Alexiadou,Paul Law,André Meinunger,Chris

Wilder,2000-07-15 This book presents a cross section of recent generative research into the syntax of relative clauses constructions Most of the papers collected here react in some way to Kayne s 1994 proposal to handle relative clauses in terms of determiner complementation and raising of the relativized nominal The editors provide a thorough introduction of these proposals their background and motivations arguments for and against There are detailed studies in the syntax and the semantics of relative clauses constructions in Latin Ancient Greek Romanian Hindi Old English Old High German dialects of Dutch Turkish Swedish and Japanese The book should be of interest to any linguist working within generative syntax
