Department, 1956 **Advances in Spatial and Temporal Databases** Nikos Mamoulis, Thomas Seidl, Kristian Torp, Ira Assent, 2009-06-30 SSTD 2009 was the 11th in a series of biannual events that discuss new and exciting research in spatio temporal data management and related technologies Previous symposia were successfully held in Santa Barbara 1989 Zurich 1991 Singapore 1993 Portland 1995 Berlin 1997 Hong Kong 1999 Los Angeles 2001 Santorini Greece 2003 Angra dos Reis Brazil 2005 and Boston 2007 Before 2001 the series was devoted solely to spatial database management and called SSD From 2001 the scope was extended in order to also accommodate temporal database management in part due to the increasing importance of research that considers spatial and temporal aspects jointly

SSTD2009 introduced several innovative aspects compared to previous events. There was a demonstrations track which included ten presentations of systems related to the topics of interest. In addition to that, the event included a poster session with seven presentations of innovative research developed at an early stage. For the first time in the SSTD series, the best paper of the symposium was awarded and a few high quality papers were selected and the authors were invited to submit extended versions of their work to a special issue of the *Geomatica* journal Springer. Prior to the symposium, there was a two day advanced seminar which hosted three half day tutorials on state of the art topics within spatio temporal data management held by distinguished international researchers.

The Dirty War Martin Dillon, 2012-10-26 _____ This excellent book demands the attention of anyone concerned about civil liberties in the United Kingdom. Guardian 1969 was a year of rising tension, violence and change for the people of Northern Ireland. Rioting in Derry's Bogside led to the deployment of British troops and a shortlived uneasy truce. The British army soon found itself engaged in an undercover war against the Provisional IRA which was to last for more than twenty years. In this enthralling and controversial book, Martin Dillon, author of the bestselling *The Shankill Butchers*, examines the roles played by the Provisional IRA, the State forces, the Irish Government and the British Army during this troubled period. He unravels the mystery of war in which informers, agents and double agents operate, revealing disturbing facts about the way in which the terrorists and the Intelligence Agencies target, undermine and penetrate each other's ranks. *The Dirty War* is investigative reporting at its very best, containing startling disclosures and throwing new light on previously inexplicable events.
