The Distant Magnet European Emigration To The Usa

Dirk Hoerder, Leslie Page Moch

The Distant Magnet European Emigration To The Usa:

The Distant Magnet Philip A. M. Taylor, 1972 **Round-Trip to America** Mark Wyman, 2018-07-05 Historians of migration will welcome Mark Wyman's new book on the elusive subject of persons who returned to Europe after coming to the United States. Other scholars have dealt with particular national groups but Wyman is the first to treat every major group. Wyman explains returning to Europe as not just the fulfillment of original intentions but also the result of anger at bosses and clocks, nostalgia for waiting families, nativist resentment, and heavy-handed Americanization programs and a complex of other problems. Wyman's nine broad conclusions about the returnees deserve to be read by everyone concerned with international migration.

Emigration from Europe 1815-1930 Dudley Baines, 1995-09-14 Why did 60 million people leave Europe for overseas destinations in the hundred years after the Napoleonic Wars? What were the social and economic causes and effects of this mass migration? Why did some people emigrate and not others, and why did so many emigrants return to Europe? This short comprehensive survey answers these and other questions regarding emigration from different parts of Europe in the years between 1815 and 1930. Written specifically for undergraduate students, it reviews the current literature in several European languages, summarises both economic and demographic theories, and analyses the relation between economic change in Europe and the emigration rate, as well as discussing the economic effects of immigration on the receiving countries and the social experiences of the immigrants.

European Migrants Dirk Hoerder, Leslie Page Moch, 1996 Includes statistics

Imagining America Alan M. Ball, 2004-09-09 In *Imagining America*, historian Alan M. Ball explores American influence in two newborn Russian states: the young Soviet Union and the modern Russian Republic. Ball deftly illustrates how in each era Russians have approached the United States with a conflicting mix of ideas: as a land to admire from afar, to shun at all costs, to emulate as quickly as possible, or to surpass on the way to a superior society. Drawing on a wide variety of sources including contemporary journals, newspapers, films, and popular songs, Ball traces the shifting Russian perceptions of American cultural, social, and political life. As he clearly demonstrates throughout their history, Russian imaginations featured a United States that political figures and intellectuals might embrace, exploit, or attack, but could not ignore.

Wealth, Poverty and Politics Thomas Sowell, 2016-09-06 In *Wealth, Poverty and Politics*, Thomas Sowell, one of the foremost conservative public intellectuals in this country, argues that political and ideological struggles have led to dangerous confusion about income inequality in America. Pundits and politically motivated economists trumpet ambiguous statistics and sensational theories while ignoring the true determinant of income inequality: the production of wealth. We cannot properly understand inequality if we focus exclusively on the distribution of wealth and ignore wealth production factors such as geography, demography, and culture. Sowell contends that liberals have a particular interest in misreading the data and chastises them for using income inequality as an argument for the welfare state. Refuting Thomas Piketty, Paul Krugman, and others on the left, Sowell draws on accurate empirical data to show that the inequality is not nearly as extreme

or sensational as we have been led to believe Transcending partisanship through a careful examination of data *Wealth Poverty and Politics* reveals the truth about the most explosive political issue of our time The Promise of America Odd Sverre Lovoll,1999 **Transforming America** Michael C. LeMay,2012-12-10 Utilizing multiple perspectives of related academic disciplines this three volume set of contributed essays enables readers to understand the complexity of immigration to the United States and grasp how our history of immigration has made this nation what it is today *Transforming America Perspectives on U S Immigration* covers immigration to the United States from the founding of America to the present Comprising 3 volumes of 31 original scholarly essays the work is the first of its kind to explore immigration and immigration policy in the United States throughout its history These essays provide a variety of interdisciplinary perspectives from experts in cultural anthropology history political science economics and education The book will provide readers with a critical understanding of the historical precedents to today s mass migration Viewing the immigration issue from the perspectives of the contributors various relevant disciplines enables a better grasp of the complex conundrum presented by legal and illegal immigration policy **Transatlantic History** Steven G. Reinhardt,Dennis Reinhartz,2006 The transatlantic world has had immense influence on the direction of world history The six illuminating studies in *Transatlantic History* address cultural exchanges and intercontinental developments that contribute to our modern understanding of global communities Transatlantic history encompasses a variety of scholarly problems and approaches from multiple disciplines and volume editors Steven G Reinhardt and Dennis P Reinhartz have assembled a collection of essays that reflect the diversity within the field Introducing the book William McNeill provides a unifying overview of the concept and practice of transatlantic history by placing it within the larger context of world history The chapter authors bring distinctive styles and methods to the investigation of the processes of interaction and adaptation among Africans Native Americans and Europeans Their studies range from the Spanish imperial crisis in the 1600s to the urbanization of Europe and the Americas from graphic portrayals of the Atlantic world to the settlement of Ireland America and South Africa and the recent diaspora of West Africans Readers interested in world history communication and cultural studies will find *Transatlantic History* provocative and challenging as it convincingly argues for the importance of this new field Dictionary of Race and Ethnic Relations Professor Ellis Cashmore,Ellis Cashmore,2002-09-11 The fourth edition of this dictionary includes substantial revision of the entries fully updated lists of further reading and new entries including black feminism environmental racism and many more
