The Dividing Of Christendom:

The Dividing of Christendom Christopher Dawson, 2009 Originally published New York Sheed Ward 1965 The Division of Christendom Hans Joachim Hillerbrand, 2007-01-01 In The Division of Christendom revered historian Hans J Hillerbrand details the events and ideas of the sixteenth century and contends that the Protestant Reformation must be seen as an interplay of religious political and economic forces in which religion played a major role Hillerbrand tells the fascinating story of the ways in which theological disagreements divided the centuries old Christian church and the roles that leading characters such as Luther Zwingli Anabaptists and Calvin played in establishing new churches even as Roman Catholicism continued to develop in its own ways The book covers all significant aspects of this period and interprets these important events in their own context while reflecting on the consequences of the Reformation for later periods and for today
